Report Of Investigation

Case Matter: An organized business association appears to be conducting organized crime and racketeering activities in violation of RICO and other felony crime laws. This investigation examines the merits of said charges.

Investigation Summary: A group of predominantly white males with affiliations from Stanford University and other high cost University fraternity organizations, including Yale and Harvard Universities, formed an organization which they, and the news media, refer to under various identifiers, ie: “The PayPal Mafia”, “The Palo Alto Mafia”, “The Tribe”, “The Deep State”, “The Illuminati”, “The Guardsman”, and other names. The members photograph themselves dressed as Italian Mafia characters, refer to themselves as “Don’s”, “Godfather” and “Consiglieres” and refer to the need to “become the Mafia of Silicon Valley...” in their texts and emails. Numerous criminal and illicit actions have been organized, financed, operated and profited by this organization. Through exclusive access to taxpayer financed resources, this group has created windfall monopolies which pay dramatically large bribes to public officials and attack all competitors in illegal manners. These names, companies, trusts, shell corporations, investment bank accounts and cross-connects are now active in the XKEYSCORE and OPTI-NEX2 surveillance databases.

The actor never invests the money, however, does pay dividends. The dividends consist of the newest investors funds. The first investors, pleased to receive dividends, encourage new investors to invest. This scheme falls apart when the actor no longer has sufficient new investors to distribute dividends to the old investors or the actor simply takes all the funds and leaves the area.

Pyramid: An investment fraud in which an individual is offered a distributorship or franchise to market a particular product. The promoter of the pyramid represents that although marketing of the product will result in profits, larger profits will be earned by the sale of franchises. For example, if a franchise price is \$10,000.00, the seller receives \$3,500.00 for every franchise sold. Each new franchise purchaser is presented with the same proposal so that each franchise owner is attempting to sell franchises. Once the supply of potential investors is exhausted, the pyramid collapses. Many times, there are no products involved in the franchise, simply just the exchange of money.

Staffing The Mob – Who Does Their Dirty Work?

These oligarchs soon discover that they can only buy some many mansions, parties, jets, prostitutes and rent boys before they become bored. Their circle of confidants and operatives offer them the opportunity to use Democracy as their plaything. Almost every one of them has joined this opportunity because it appeals to their narcissist sociopath personality type which attracts them to each other.

While most people might have the first impression that Steve Jobs ex-wife is just a “perky blonde party girl”, they could not be more wrong. Her operatives via the Emerson Collective and Renaissance Weekend finance and run a large portion of the California government. In the case of all of the Silicon Valley oligarchs, they have hundreds of people employed around them to create a “bubble of positive optics” around the oligarch, while their operatives labor behind the curtain on sinister deeds. The murder of the journalist Kashoggi, even ensnared Ms. Jobs in it’s clutches.

Every single one of these supposed “world saving elites” has severe skeletons in the closet:

The Lobbyists

The people who organize bribes without ever using the word “bribe”. They care nothing for the public and make laws only-for-oligarchs:

Josh Ackil and Matt Tanielian, Franklin Square Group. With clients including Apple, Google and Intel, the two Democrats are among the elite lobbyists for Silicon Valley in Washington.

Nick Allard, Thomas Hale Boggs Jr., Micah Green, Jonathan Yarowsky and Edward Newberry, Patton Boggs. The firm continues to reign on K Street thanks to its roster of seasoned power brokers.

Andy Barbour, Smith-Free Group. Smith lobbies for several financial and insurance companies but is best known for his work as the lead Democratic lobbyist for the Financial Services Roundtable.

Doyle Bartlett, Eris Group. Bartlett has years of Capitol Hill experience and a busy lobbying practice that is on the front lines for clients including MetLife, Genentech and eBay.

Jeff Berman and David Russell, Bryan Cave. Berman, the former delegate counter for President Obama’s 2008 campaign, and Russell, a former chief of staff to the late Sen. Ted Stevens (R-Alaska), are standouts on a capable lobby team.

Wayne Berman, Drew Maloney and Moses Mercado, Ogilvy Government Relations. Ogilvy’s commanding K Street presence reflects the firm’s deep ties to leaders in both parties.

Jim Blanchard and Ilia Rodriguez, DLA Piper. Blanchard, a former Democratic governor of Michigan, and Rodriguez, an ex-lobbyist for the Center for American Progress, are at the vanguard of a formidable K Street team.

Daniel Boston, Health Policy Source. Boston’s numerous healthcare clients turn to him for the policy expertise he honed as a GOP aide on Capitol Hill.

Chuck Brain, Capitol Hill Strategies Inc. Once a Clinton White House aide and longtime House Ways and Means Committee staffer, Brain would make any list of the best-known Democratic lobbyists in town.

John Breaux and Trent Lott, Breaux-Lott Leadership Group. Now merged with Patton Boggs, the two former senators are going strong with a profitable lobbying practice anchored by several blue-chip clients.

Gerald Cassidy and Gregg Hartley, Cassidy & Associates. The trailblazing firm has regained momentum by diversifying its practice following a staff shake-up late last year.

David Castagnetti and Alex Vogel, Mehlman Vogel Castagnetti. The bipartisan shop has heavy hitters on both sides of the aisle, thanks to Democrat Castagnetti.

Rodger Currie, Foley Hoag LLP. A former lobbyist for PhRMA, Currie now works for several clients at Foley Hoag in the healthcare, medical and biotechnology fields.

Al D'Amato, Park Strategies. The former GOP New York senator has been a big advocate for online gambling as a lobbyist for the Poker Players Alliance.

Linda Daschle, LHD & Associates. Daschle, a former administrator for the Federal Aviation Administration, remains one of Washington's top aviation lobbyists.

Licy Do Canto, The DoCanto Group. The former aide to Rep. Barney Frank (D-Mass.) and the late Sen. Edward Kennedy (D-Mass.) is a highly regarded healthcare lobbyist.

Julie Domenick, Multiple Strategies LLC. The Democratic lobbyist, who was once targeted by the K Street Project, has flourished by opening her own firm.

Ken Duberstein and Marti Thomas, The Duberstein Group. Duberstein was floated as a candidate for Obama's chief of staff before the president chose Bill Daley, while Thomas is a Democratic vet who worked in the Clinton Treasury Department.

Steve Elmendorf and Jimmy Ryan, Elmendorf | Ryan. A former aide to ex-House Democratic Leader Richard Gephardt (Mo.), Elmendorf brought in Ryan to help expand the Senate ties of his thriving firm.

Victor Fazio, Joel Jankowsky, Scott Parven and Bill Paxon, Akin, Gump, Strauss, Hauer & Feld. Fazio, Jankowsky, Parven and Paxon are among the lobbyists who keep Akiwn Gump humming along as one of the top earners on K Street.

Mitch Feuer and Robert Griner, Rich Feuer Group. The two lobbyists work for first-tier clients from the financial services world, including Visa and Goldman Sachs.

Mike Fulton, GolinHarris. Fulton is well versed in the minutiae of the Washington bureaucracy and is adept at finding federal grants for his clients.

Sam Geduldig, Clark Lytle Geduldig & Cranford. The former House Republican leadership aide has seen a business boom at his firm since the GOP takeover of the lower chamber.

Nick Giordano, Washington Council Ernst & Young. A former counsel to the Senate Finance Committee, Giordano is one of the best tax lobbyists in town.

Rich Gold, Kathryn Lehman and Gerry Sikorski, Holland & Knight. The firm's flourishing lobbying practice is plugged in to both parties.

Slade Gorton and Emanuel Rouvelas, K&L Gates. Gorton, an ex-GOP senator from Washington, and Democrat Rouvelas are just a few of the big names at the prominent law and lobby firm.

Fred Graefe, Law Offices of Frederick H. Graefe. Graefe is a force among Democratic healthcare lobbyists.

Lanny Griffith and Loren Monroe, BGR Group. Though it has added Democrats, Griffith and Monroe's firm is known for GOP connections and has benefitted from long-standing ties to the new House leadership.

J. Steven Hart, Williams & Jensen. Hart is a sought-after GOP fundraiser who has steered the ship for more than a decade as Williams & Jensen's chairman and CEO.

Michael Herson, American Defense International. Herson's Pentagon and White House experience has been an asset to him as president of the successful defense consulting and lobbying firm.

Mike House, Hogan & Lovells. House leads the government relations practice at the firm and calls the shots on a prized account with Nissan North America.

The Hit Job Providers

The kill services firms -

How A Modern Character Assassination and Political "Kill Order" Is Executed By the Silicon Valley Oligarchs and their total control of propaganda media

Patrick George At Jalopnik attacks outsiders under contract with Elon Musk and the DNC. Silicon Valley campaign finance oligarchs hire him to run hatchet jobs on innocent outsiders and then Gawker-Gizmodo-Jalopnik uses their financial partnership with the DNC's Google to push the character assassination articles to the top of Google web products and searches. Patrick George, Adrian Covert, John Hermann and Nick Cook are the sexually degenerate cabin boys that report to boy-loving sleaze-tabloid oligarch Nick Denton. They created the Fake News crisis in the media by flooding the internet with defamation posts and reprisal hatchet job articles designed to damage political enemies of the Socialists. They coordinate a large number of the character assassination efforts at Gawker, Gizmodo, Jalopnik, CNN, New York Times and other propaganda outlets. These Millennial boys are "Media Rapists" and should be treated as abusers.

How and why did a Donald Trump stripper-date named "Stormy" or an Elon Musk sex party or a Kavanaugh drinking incident or the Moonves and Weinstein indiscretions suddenly hit the news at about the same time in news history?

In addition to actual murder, Politicians and Silicon Valley Oligarchs hire operatives to end people's lives in other creative ways.

It is all part of the modern trend in vendetta, revenge and political payback when a Senator or a tech oligarch issues a "kill order" on an opponent.

The client does not like to get their hands dirty so the actual social hit job is performed by companies such as:

IN-Q-Tel - (DNC); Gawker Media - (DNC); Jalopnik - (DNC); Gizmodo Media - (DNC); K2 Intelligence - (DNC); WikiStrat - (DNC); Podesta Group - (DNC); Fusion GPS - (DNC/GOP); Google - (DNC); YouTube - (DNC); Alphabet - (DNC); Facebook - (DNC); Twitter - (DNC); Think Progress - (DNC); Media Matters - (DNC); Black Cube - (DNC); Mossad - (DNC); Correct The Record - (DNC); Sand Line - (DNC/GOP); Blackwater - (DNC/GOP); Stratfor - (DNC/GOP); ShareBlue - (DNC); Wikileaks (DNC/GOP); Cambridge Analytica - (DNC/GOP); Sid Blumenthal- (DNC); David Brock - (DNC); PR Firm Sunshine Sachs (DNC); Covington and Burling - (DNC), BuzzFeed - (DNC) Perkins Coie - (DNC); Wilson Sonsini - (DNC) and hundreds of others...These are the people and companies that except cash, revolving door jobs, political appointments, insider trading stock in Silicon Valley tech companies, prostitutes and real estate in exchange for destroying the lives of others.

These attackers deserve to be punished for the rest of their lives for taking away the lives of others in exchange for cash. Any company who is corrupt enough to hire any of these assassins should be forced

out of business. These attack services are responsible for 90% of the "Fake News" problem in the world because they are the authors of most fake news. Congress must act to make these kinds of companies illegal!

These digital assassination services offer hit-jobs, character assassinations and economic reprisal programs to famous billionaires and corrupt politicians who are seeking revenge, retribution and vendetta executions.

In the case of reporters getting targeted for attacks, President Donald Trump has been accused by the liberal corporate media of whipping up a hateful frenzy against the press. But while CNN's Jim Acosta grandstands against Trump, real journalists are still reeling from the draconian extrajudicial measures that Barack Obama and his administration used to target them for exposing truth.

This secretive targeting occurred while Obama speechwriter and hate-filled ANTIFA supporter Ben Rhodes was running "Operation Echo Chamber," which reportedly continues, in which he fed information to willing corporate media scribes. "They literally know nothing," Rhodes said of the twentysomething journalists he easily manipulated.

The Freedom of the Press Foundation's Trevor Timm published documents showing how former attorney general Eric Holder changed the rules to more effectively intimidate and surveil members of the press.

Timm writes: "Today, we are revealing—for the first time—the Justice Department's rules for targeting journalists with secret FISA court orders. The documents were obtained as part of a Freedom of Information Act lawsuit brought by Freedom of the Press Foundation and Knight First Amendment Institute at Columbia University."

Trending: Brennan and Clapper Accused of Hacking John Roberts To Blackmail Him

Here is the memo published by the Foundation, which dropped the documents in their entirety:

Obama is also clearly linked to the plot to obtain fraudulent FISA warrants on President Trump's team, as evidenced by Peter Strzok and Lisa Page's texts confirming that Obama was overseeing their fly-by-night operation.

Larry Schweikart reported for Big League Politics:

For months pundits and researchers have been pondering the mystery of the FISA approval that led to the illegal and historically titanic scandals to ever hit the U.S. government. Some have argued that Assistant Attorney General Rod Rosenstein knew the FISA was bogus when he extended it. Others have wondered if Special Counsel Robert Mueller knew about the fraudulent basis of the FISA when he used it, in part, to indict Michael Flynn. Other still, that Mueller was fooled by the FBI.

This is what President Trump calls "SPYGATE".

It may well be that the surveillance that was conducted began with UK intelligence services and then was fed back to the White House of Barack Obama. Here's the kicker:

President Barack Obama did not need a FISA warrant to authorize spying/electronic surveillance on Trump because Obama all along had legal authorization to by-pass the normal court vetting process. According to 50 U.S. Code 1802, the “Electronic Surveillance Authorization” () “Foreign intelligence in relation to a US person (Trump or his associates) is information that’s necessary for the US to protect against attack, hostile acts, sabotage, . . . as well as other clandestine activities by a foreign power . . . OR . . . information relevant to national defense/security of the US, or the conduct of foreign affairs of the U.S.” Such an authorization by Obama required certification by Attorney General Loretta Lynch that must be logged with the FISC court. (“The [AG]+ shall immediately transmit under seal to the court [FISC] a copy of his certification.”)

In short, the DOJ has this. If we are correct, a copy of that certification is currently under seal at least with the DOJ and the FISC.

This is what they are hiding.

However, the Act requires the AG to keep the Select Committee on Intelligence and the Senate Committee on Intelligence informed of these authorizations and unmaskings therein. See 1803 (a) (1) (C) If indeed this is what happened, did Lynch report—or only selectively report—to the committees in a way that excluded non-friendlies? Can you see why Adam Schiff, Mark Warner, and their ilk are terrified?

1) Obama authorized spying/electronic surveillance on Team Trump, by-passing normal judicial oversight.

2) To create “foreign intelligence,” John Brennan and others organized for UK intelligence to conduct surveillance on Trump and his associates, either from the UK or from UK assets within the U.S. This is another reason revealing this will unleash an excrement storm: the UK is about to be caught meddling bigly in an American election.

3) Lynch certified Obama’s authorization which is now held under seal by DOJ (and FISC).

From this authorization, all unmaking followed, as well as the FBI fraudulent counter intel investigation and perhaps the FISA warrant too. Obama knew this was all fake when he made the authorization; Lynch knew it was fake when she certified it; the entire inner circle, including the FBI, all knew. This takes the U.S. into uncharted territory, and could imperil any politician in the British government who supported this or had knowledge of it. Proving any of this would be difficult, as if confronted Lynch would almost certainly cover up and Obama would simply deny knowledge. Without a paper trail, a conviction might be a bridge too far. This is only one of thousands of “kill order” tactics introduced by the Obama Administration.

These are the playbook tactics that Senators and tech oligarchs most often use to destroy the lives of their political and business enemies:

- Government agency bosses sometimes solicit the target victims with false promises of future loans, contracts or grants from their agency and cause the target victims to expend millions of dollars and years of their time for projects which those government bosses had covertly promised to their friends.

They use the target victims as a “smokescreen” to cover their illegal government slush-funds for the victims competitors and personal enemies. By using this tactic, the attackers can drain the target victims funds and force them into an economic disaster in plain view of everyone without the government bosses fearing any reprisal for their scam.

- Every match.com, okcupid.com, Plenty Of Fish, Seeking Arrangements and all other IAC-owned, or similar, dating sites (IAC is managed by Hillary Clinton's daughter) have had their profiles, texts, and inter-member communications, since those companies were started, hacked or purchased. The attack service providers use Palantir and In-Q-Tel financed data analysis software to analyze every activity in those dating services in order to find honey-trap, blackmail, sextortion and social conflict exploitation opportunities. If you had a bad date with someone, that someone will be hunted down and convinced to help harm, #metoo or "rape charge" the intended target. All dates involve a search for sex, so the likelihood that a sexual disappointment experience will exist in each persons dating history is high. Searching every past dating email and text of a subject is quite easy with modern software and hacking techniques. A synthetically amplified, PR-agency optimized sex scandal can destroy any target. Your dating experiences from the 70's or 80's will come back to haunt you decades later. Most dates involve drinking alcohol and taking drugs. If you were unattractive or had bad sexual skills your bad date will be called "date rape", "drugging your date for sex" and related twisted narratives that are designed to shame you, the target. If you try to get a date in the future, your potential date will be contacted by a third party who will slander and libel you to make sure your potential first date gets cancelled. Your social life will, essentially, end. Every photo on every dating site is cross checked with every other photo on the internet in order to cull your Facebook, LinkedIn, Snapchat and other social media together to create a total psychological manipulation profile data file on you. A single photo on a dating site can be cross searched on every mugshot archive, photo album and corporate database in the worth within minutes using modern super-computers. Your sex life will be on public record in a flash.

- Social Security, SSI, SDI, Disability and other earned benefits are stone-walled. Applications of targets are “lost”. Files in the application process “disappeared”. Lois Lerner hard drive “incidents” are operated in order to seek to hide information and run cover-ups.

- Government officials and tech oligarchs contact members of the National Venture Capital association (NVCA) and created national “black-lists” to blockade target victims from ever receiving investor funding. This was also confirmed in a widely published disclosure by Tesla Motors Daryl Siry and in published testimony. If Silicon Valley political campaign finance oligarchs black-list you (see the "AngelGate" Scandal and the "High Tech No Poaching Class Action Lawsuit" cases) you will never get investor funding again.

- FOIA requests are hidden, frozen, stone-walled, delayed, lied about and only partially responded to in order to seek to hide information and run cover-ups.

- State and federal employees will play an endless game of Catch-22 by arbitrarily determining that deadlines had passed that they, the government officials, had stonewalled and obfuscated applications for, in order to force these deadlines that they set, to appear to be missed. This can bankrupt a target victim.

- Some Victims found themselves strangely poisoned, not unlike the Alexander Litvenko case. Heavy metals and toxic materials were found right after their work with the Department of Energy weapons

and energy facilities. Many wonder if these “targets” were intentionally exposed to toxins in retribution for their testimony. The federal MSDS documents clearly show that a number of these people were exposed to deadly compounds and radiations, via DOE, without being provided with proper HazMat suits which DOE officials knew were required.

- Victims employers are called, and faxed, and ordered to fire target victims from their places of employment, in the middle of the day, with no notice, as a retribution tactic.

- On orders from Obama White House officials, DNC-financed Google, YouTube, Gawker Media and Gizmodo Media produce attack articles and defamation videos. Google locks this attack media on the internet on the top line, of the front page of all Google searches for a decade in front of 7.5 billion people, around the world. This attack-type uses over \$40 million dollars in server farms, production costs and internet rigging. The forensic data acquired from tracking some of these attacks proves that Google rigs attacks against individuals on the internet and that all of Google’s “impressions” are manually controlled by Google’s executives who are also the main financiers and policy directors of the Obama Administration. This data was provided to the European Union for it’s ongoing prosecution of Google’s political manipulation of public perceptions.

- Victims HR and employment records, on recruiting and hiring databases, are embedded with negative keywords in order to prevent the victim targets from ever gaining future employment.

- Gary D. Conley, Seth Rich, Rajeev Motwani and many other whistle-blowers in these matters, turned up dead under strange circumstances. It is very possible that some of these attack services, operated by former CIA operatives, even offer discrete murder-for-sale services using high-tech assassination tools that make murders look like heart attacks and brain failures.

- Disability and VA complaint hearings and benefits are frozen, delayed, denied or subjected to lost records and "missing hard drives" as in the Lois Lerner case.

- Paypal (A DNC-biased operation) and other on-line payments for on-line sales are de-platformed, delayed, hidden, or re-directed in order to terminate income potential for target victims who competed with the attackers interests and holdings.

- DNS redirection, "website spoofing" sends target victims websites to dead ends where no sales orders or customer inquiries actually get back to the target. These internet revenue activity manipulations are conducted using Google and Amazon servers. All commercial storefronts and on-line sales attempts by target victims, will have had their sites hidden, or search engine de-linked by a massively resourced facility located in Virginia, Texas or Palo Alto, California in order to terminate revenue potentials for the target victims.

- Over 50,000 trolls, shills, botnets and synth-blog deployments are deployed to place defamatory statements and disinformation about victims in front of 7.5 billion people around the world on the internet in order to seek to damage their federal testimony credibility by a massively resourced facility.

- Campaign finance dirty tricks contractors are hired by campaign financiers to attack the friends and family members of the target victim in order to create low morale for the target victims psyche and motivation.

- Are you getting weird headaches and hearing a "buzzing sound" in your head? The U.S. Government has now acknowledged that the Cuban, Chinese and other embassy "sonic attacks" are from a known microwave beam weapon. Any one of the technical departments of the attack services listed at the top of this article can build such a biological harassment weapon. It can be aimed at the target victims office, bedroom or vehicle and, within a week, have caused biological and emotional damage using a weapon that has no visible track of trajectory. It is designed to make the target victim think they are "going crazy" or "hearing sounds in their head". While this may sound pretty out there, web search "Embassy sonic attacks" on the top 5 non-Google search engines and read the very credible reports of these attacks.

- In one case covert political partner: Google, transferred large sums of cash to dirty tricks contractors and then manually locked the media portion of the attacks into the top lines of the top pages of all Google searches globally, for years, with hidden embedded codes in the links and web-pages which multiplied the attacks on Victims by many magnitudes.

- Covert Cartel financier: Google, placed Google's lawyer: Michelle Lee, in charge of the U.S. Patent Office and she, in turn, stacked all of the U.S. Patent Office IPR and ALICE review boards and offices with Google-supporting employees in order to rig the U.S. Patent Office to protect Google from being prosecuted for the vast patent thefts that Google engages in. Google has hundreds of patent lawsuits for technology theft and a number of those lawsuits refer to Google's operations as "Racketeering", "Monopolistic Cartel" and "Government Coup-like" behaviors. Thousands of articles and investigations detail the fact that Google, "essentially" ran the Obama White House and provided over 80% of the key White House staff. A conflict-of-interest unlike any in American history. Google's investors personally told Applicant they would "kill him". Google and the Obama Administration were "the same entity". Applicant testified in the review that got Michelle Lee terminated and uncovered a tactical political and social warfare group inside Google who were financed by Federal and State funds.

- Honeytraps and moles were employed by the attackers. In this tactic, people who covertly worked for the attackers were employed to approach the "target" in order to spy on and misdirect the subject.

- Gawker Media, Gizmodo Media, Snopes, SPLC and other hired media assassins will be retained to produce "hatchet job" character assassination articles about you. Then those articles will be faxed, mailed and emailed to your employer and investors with a note saying: "You don't want to have anything to do with this person, do you..?" in order to get you fired from your job and get your loans or financing pulled. The attackers will use their round one attack media, that they authored, to create a round two second wave attack designed to end your life via economic warfare.

- Mortgage and rental applications will have had red flags added to them in databases to prevent the targets from getting homes or apartments.

- Krebs On Security, Wired, Ars Technica, The Wall Street Journal and most major IT publications have reported that hundreds of spy "back-doors" have been found on every Intel, AMD, Apple, Xfinity, Cisco, Microsoft, Juniper Networks motherboard, chip-set and hardware component set. This means that any kid with the "key" code can open any computer, server, router, cloud-network or other network connected device and read every file, photo, video, your calendar and email on your devices at any time from any location on Earth. The key codes have been released to every hacker community in the world

for over ten years. There is now no government, corporate or personal data that can't be hacked, even data from decades ago. Every single one of your darkest secrets can be in the hands of your enemy within 60 minutes, or less. Important meetings you had planned with potential investors, employers, clients, dates, suppliers and others will suddenly get cancelled at the last minute. They will get cancelled because your enemies are reading your calendar remotely and covertly sending slander information to those you had hoped to engage with in order to sabotage your life. Nothing you have ever typed on a computer or Smartphone is safe. it WILL be acquired and it WILL be used against you.

- McCarthy-Era "Black-lists" are created and employed against target victims who competed with Obama Administration executives and their campaign financiers to prevent them from getting funding and future employment.

- Obama Administration targets were very carefully placed in a position of not being able to get jobs, unemployment benefits, disability benefits or acquire any possible sources of income. The retribution tactics were audacious, overt..and quite illegal.

- There are thousands of additional Dirty Tricks tactics being used by these Attack Services yet Congress refuses to pass laws out-lawing such attack services. The cost of an attack on a person ranges from \$150,000.00 to over \$50,000,000.00. While a Silicon Valley billionaire can afford to launch counter-measures to these attacks, any regular taxpayer will be utterly destroyed, and incapable of fighting back, against even the smallest version of one of these "kill orders". A number of modern office shootings are the results of these attacks against an individual who has lost everything because of the attack and has no options left.

Federal law enforcement, the United States Congress and the highest level investigators in the U.S., and abroad, have documented (per the "FISA Memo", Congressional Reports and federal employee testimony) and proven the fact that the Obama Administration regularly engaged in the operation of retribution, vendetta and reprisal campaigns known as "hit-jobs" against domestic natural born U.S. citizen domestic taxpayers. The Federal Court, in at least one previous court case,has ruled that Applicants, in this particular matter, were the victims and target of a number of these attacks designed to inflict permanent medical, emotional, character assassination, brand negation, economic and career damage.

!!!! Mueller Hears That Silicon Valley Has Been Manipulating The Entire BREXIT Campaign !!!!!

- Second former employee of controversial data firm to be questioned by special counsel's inquiry into Russia collusion

By Carole Cadwalladr

Brittany Kaiser is said to be cooperating fully with the Mueller inquiry.

A director of the controversial data company Cambridge Analytica, who appeared with Arron Banks at the launch of the Leave.EU campaign, has been subpoenaed by the US investigation into possible collusion between the Trump campaign and the Russian government.

A spokesman for Brittany Kaiser, former business development director for Cambridge Analytica – which collapsed after the Observer revealed details of its misuse of Facebook data – confirmed that she had been subpoenaed by special counsel Robert Mueller, and was cooperating fully with his investigation.

He added that she was assisting other US congressional and legal investigations into the company's activities and had voluntarily turned over documents and data.

Kaiser, who gave evidence to the UK parliament last April in which she claimed Cambridge Analytica had carried out in-depth work for Leave.EU, is the second individual connected to the firm subpoenaed by the special counsel. The Electoral Commission has said its investigation into Leave.EU found no evidence that the campaign “received donations or paid for services from Cambridge Analytica ... beyond initial scoping work”.

Damian Collins, chairman of parliament's inquiry into fake news, said it was “no surprise” that Kaiser was under scrutiny by Mueller because “her work connected her to WikiLeaks, Cambridge Analytica and [its parent company] SCL, the Trump campaign, Leave.EU and Arron Banks”.

He said it was now vital Britain had its own inquiry into foreign interference: “We should not be leaving this to the Americans.”

Tom Watson, the deputy leader of the Labour party, echoed Collins's statement, saying: “This is the first evidence that a significant player in the Leave.EU campaign is of interest to the global Mueller inquiry. People will be bewildered that the British government has no interest in establishing the facts of what happened.”

In August, Sam Patten, a US political consultant who had worked for Cambridge Analytica on campaigns in the US and abroad, struck a plea deal with Mueller after admitting he had failed to register as a foreign agent for a Ukrainian oligarch.

He became a subject of the special counsel's inquiry because of work done with Paul Manafort, Trump's campaign manager, in Ukraine. He had also set up a business with Konstantin Kilimnik, a key figure who Mueller has alleged has ties to Russian intelligence and who is facing charges of obstruction of justice. In a 2017 statement to the Washington Post, Kilimnik denied any connection to intelligence services. Kaiser, however, is the first person connected directly to both the Brexit and Trump campaigns known to have been questioned by Mueller.

The news came to light in a new Netflix documentary, *The Great Hack*, which premiered at the Sundance film festival last month and is expected to be released later this spring. Film-makers followed Kaiser for months after she approached the Guardian, including moments after she received the subpoena. She claims the summons came after the Guardian revealed she had visited WikiLeaks founder Julian Assange while still a Cambridge Analytica employee in February 2017, three months after the US election.

One part of Mueller’s investigation focuses on whether the Trump campaign sought to influence the timing of the release of emails by WikiLeaks before the election. Investigators are looking at communications between them. In the film, Kaiser says that she has gone from being a cooperating witness to a subject of investigation because of her contact with Assange.

In October 2017, it was revealed that Alexander Nix, the chief executive of Cambridge Analytica, had contacted Assange in August 2016 to try to obtain emails from Hillary Clinton’s presidential campaign – which indictments from Mueller’s team say were obtained by Russian military intelligence – to use in Donald Trump’s campaign. When Kaiser gave evidence to parliament last year, she was asked about her relationship with Assange and WikiLeaks but failed to reveal that she had met Assange.

In the documentary, Kaiser is shown after receiving an email from the Guardian last June asking about meeting Assange and alleged donations of cryptocurrency to WikiLeaks. Kaiser did not respond to the email at the time, but on camera says: “She knows I met Assange. And she knows I donated money to WikiLeaks in bitcoin.”

Her legal representatives later wrote to the paper to say that the allegations, including that she had “channelled” donations to WikiLeaks, were false. Kaiser said she had received a small gift of bitcoin in 2011 – long before she worked at Cambridge Analytica – and, not knowing what else to do with it, gave it to WikiLeaks, because she had benefited from material it had released over the years.

Her lawyer told the Observer that the meeting with Assange came about after a chance encounter in London with an acquaintance who knew him. It lasted 20 minutes and consisted mainly of Assange telling her “about how he saw the world”. He said they did not discuss the US election.

Patten and Kaiser were involved in a controversial election campaign in Nigeria in January 2015, which former Cambridge Analytica employees say had “unsettling” parallels to the US presidential election.

The Guardian revealed that the data firm had worked alongside a team of unidentified Israeli intelligence operatives on the campaign. Ex-Cambridge Analytica employees described how the Israelis hacked the now-president of Nigeria’s emails and released damaging information about him to the press weeks before the election.

CBS NEWS 60 MINUTES Lara Logan "I'm Being 'Targeted' For Saying the Media is 'Mostly Liberal'"
by Tamar Auber

On Wednesday, former CBS News foreign correspondent Lara Logan spoke with Fox News Sean Hannity about her recent comments slamming the media as “mostly liberal.”

Logan told Breitbart podcaster Mike Ritland the remarks made on his show — which drew widespread attention online — amounted to “professional suicide.”

Defending her remarks on Hannity’s show, Logan said that as the result of her speaking out about how the media is “mostly liberal” she has been targeted because she is an independent voice.

“Any journalists who are not beating the same drum and giving the same talking points,” she insisted “pay the price” for not going along with the liberal crowd.

She also called out her targeters by name.

“I know they’re going to come after me,” she told Hannity. “Michael Calderone who is at the Huffington Post. I can give you the script now. I can tell you who the players are. Joe Hagan. Brian Stelter.”

She added: “They smear you personally. They go after your integrity. They go after your reputation as a person and a professional. They will stop at nothing. I am not the only one. And I am just, I am done, right, I am tired of it. And they do not get to write my story anymore. They don’t get to speak for me, I want to say loudly and clearly to anybody who is listening, I am not owned. Nobody owns me, right? I’m not owned by the left or the right.”

Logan made headlines recently when, during a scorched earth podcast interview with Ritland, she said that there was a lot of “weight” in most news organizations on “one side of the political spectrum.”

“The media everywhere is mostly liberal. But in this country, 85 percent of journalists are registered Democrats. So that’s just a fact, right?” she told Ritland.

She also trashed reporting based on single, anonymous government sources.

“That’s not journalism, that’s horseshit,” Logan stressed. “Responsibility for fake news begins with us. We bear some responsibility for that, and we’re not taking ownership of that and addressing it. We just want to blame it all on somebody else.”

Internal documents from a private Israeli intelligence firm called Psy-Group show that, at the time of many incidents, the company, and possibly other private investigators, were targeting U.S. citizens because they spoke up about crimes.

Psy-Group’s intelligence and influence operations, which included a failed attempt in the summer of 2017 to sway a local election in central California, were detailed in a New Yorker investigation that I co-wrote earlier this month. Before it went out of business (ie: changed it's name) , last year, Psy-Group was part of a new wave of private-intelligence firms that recruited from the ranks of Israel’s secret services and described themselves as “private Mossads.” Psy-Group initially stood out among its rivals because it didn’t just gather intelligence; its operatives used false identities, or avatars, to covertly spread messages in an attempt to influence what people believed and how they behaved. In 2016, Psy-Group held discussions with the Trump campaign and others about conducting covert “influence” operations to benefit the candidate. Psy-Group’s founder and C.E.O., Royi Burstien, a veteran Israeli intelligence officer who established the firm in 2014, told me that his talks with the Trump campaign

went nowhere. The company's posturing, however, attracted the attention of Robert Mueller, the special counsel, who has been investigating interference in the 2016 Presidential race.'

FED BOMBHELL: Fusion GPS Bribed Dozens of MSM Journalists With Cash To Run Character Assassinations, While News Companies Paid Firm to Dig Dirt on Trump

High-ranking FBI insiders are pulling back the curtain on Fusion GPS, the firm that commissioned and spread the bogus Trump dossier.

It appears the embattled intelligence firm was quite busy paying off Big Media reporters, according to federal sources who have traced dozens of transactions between TD Bank and media members as well as media organizations, sources confirm.

But stunningly, Big Media organizations have employed Fusion GPS to dig dirt on politicians and D.C.'s elite — namely Donald Trump.

"Fusion GPS was on the payroll of the media and in turn had members of the media on its payroll," one FBI insider said.

Bombshell revelations.

FBI insiders confirm Fusion GPS employed law firms as well as shell companies to send and receive funds to and from media and reporters. But the embattled firm also used its accounts at TD Bank to directly commission reporters. Likewise, Fusion GPS received funds from media companies into its own accounts at TD Bank, FBI insiders said,

"There are dozens of payments from the media flowing into their (Fusion GPS') account," one federal law enforcement official said. "One company wired funds to Fusion (GPS) more than a dozen times."

Why would media companies commission Fusion GPS? Likely to dig dirt on enemies or secure records that reporters could not legally obtain, one federal law enforcement insider said. One FBI insider said the payments to Fusion GPS coincide with Donald Trump's run for the White House.

The payments were made between Sept. 2015 and Sept. 2017, records show.

The unthinkable: The mainstream media paying Fusion GPS for dirt on Trump to the same firm the Democratic National Committee paid to fund the bogus Trump dossier. And at the same time Fusion GPS bribing journalists to place stories — likely negative about Trump, as well as spread the bogus Trump dossier around.

Stunning.

Was BuzzFeed — the only company to publish the full bogus dossier — on that list?

And who is on the payroll? We are trying to run that information down.

And why aren't these people behind bars?

The Silicon Media Manipulators

HOW GOOGLE RIGS ELECTIONS AND CHARACTER ASSASSINATION ATTACKS AROUND THE GLOBE

BY ROBERT EPSTEIN

Authorities in the UK have finally figured out that fake news stories and Russian-placed ads are not the real problem. The UK Parliament is about to impose stiff penalties—not on the people who place the ads or write the stories, but on the Big Tech platforms that determine which ads and stories people actually see.

Parliament's plans will almost surely be energized by the latest leak of damning material from inside Google's fortress of secrecy: The Wall Street Journal recently reported on emails exchanged among Google employees in January 2017 in which they strategized about how to alter Google search results and other "ephemeral experiences" to counter President Donald Trump's newly imposed travel ban. The company claims that none of these plans was ever implemented, but who knows?

While U.S. authorities have merely held hearings, EU authorities have taken dramatic steps in recent years to limit the powers of Big Tech, most recently with a comprehensive law that protects user privacy—the General Data Protection Regulation—and a whopping \$5.1 billion fine against Google for monopolistic practices in the mobile device market. Last year, the European Union also levied a \$2.7 billion fine against Google for filtering and ordering search results in a way that favored their own products and services. That filtering and ordering, it turns out, is of crucial importance.

As years of research I've been conducting on online influence has shown, content per se is not the real threat these days; what really matters is (a) which content is selected for users to see, and (b) the way that content is ordered in search results, search suggestions, news feeds, message feeds, comment lists, and so on. That's where the power lies to shift opinions, purchases, and votes, and that power is held by a disturbingly small group of people.

I say "these days" because the explosive growth of a handful of massive platforms on the internet—the largest, by far, being Google and the next largest being Facebook—has changed everything. Millions of people and organizations are constantly trying to get their content in front of our eyes, but for more than 2.5 billion people around the world—soon to be more than 4 billion—the responsibility for what algorithms do should always lie with the people who wrote the algorithms and the companies that deployed them.

In randomized, controlled, peer-reviewed research I've conducted with thousands of people, I've shown repeatedly that when people are undecided, I can shift their opinions on just about any topic just by changing how I filter and order the information I show them. I've also shown that when, in multiple searches, I show people more and more information that favors one candidate, I can shift opinions even

farther. Even more disturbing, I can do these things in ways that are completely invisible to people and in ways that don't leave paper trails for authorities to trace.

Worse still, these new forms of influence often rely on ephemeral content—information that is generated on the fly by an algorithm and then disappears forever, which means that it would be difficult, if not impossible, for authorities to reconstruct. If, on Election Day this coming November, Mark Zuckerberg decides to broadcast go-out-and-vote reminders mainly to members of one political party, how would we be able to detect such a manipulation? If we can't detect it, how would we be able to reduce its impact? And how, days or weeks later, would we be able to turn back the clock to see what happened?

Of course, companies like Google and Facebook emphatically reject the idea that their search and newsfeed algorithms are being tweaked in ways that could meddle in elections. Doing so would undermine the public's trust in their companies, spokespeople have said. They insist that their algorithms are complicated, constantly changing, and subject to the "organic" activity of users.

This is, of course, sheer nonsense. Google can adjust its algorithms to favor any candidate it chooses no matter what the activity of users might be, just as easily as I do in my experiments. As legal scholar Frank Pasquale noted in his recent book "The Black Box Society," blaming algorithms just doesn't cut it; the responsibility for what an algorithm does should always lie with the people who wrote the algorithm and the companies that deployed the algorithm. Alan Murray, president of Fortune, recently framed the issue this way: "Rule one in the Age of AI: Humans remain accountable for decisions, even when made by machines."

Given that 95 percent of donations from Silicon Valley generally go to Democrats, it's hard to imagine that the algorithms of companies like Facebook and Google don't favor their favorite candidates. A newly leaked video of a 2016 meeting at Google shows without doubt that high-ranking Google executives share a strong political preference, which could easily be expressed in algorithms. The favoritism might be deliberately programmed or occur simply because of unconscious bias. Either way, votes and opinions shift.

It's also hard to imagine how, in any election in the world, with or without intention on the part of company employees, Google search results would fail to tilt toward one candidate. Google's search algorithm certainly has no equal-time rule built into it; we wouldn't want it to! We want it to tell us what's best, and the algorithm will indeed always favor one dog food over another, one music service over another, and one political candidate over another. When the latter happens ... votes and opinions shift.

Here are 10 ways—seven of which I am actively studying and quantifying—that Big Tech companies could use to shift millions of votes this coming November with no one the wiser. Let's hope, of course, that these methods are not being used and will never be used, but let's be realistic too; there's generally no limit to what people will do when money and power are on the line.

1. Search Engine Manipulation Effect (SEME)

Ongoing research I began in January 2013 has shown repeatedly that when one candidate is favored over another in search results, voting preferences among undecided voters shift dramatically—by 20 percent or more overall, and by up to 80 percent in some demographic groups. This is partly because

people place inordinate trust in algorithmically generated output, thinking, mistakenly, that algorithms are inherently objective and impartial.

But my research also suggests that we are conditioned to believe in high-ranking search results in much the same way that rats are conditioned to press levers in Skinner boxes. Because most searches are for simple facts (“When was Donald Trump born?”), and because correct answers to simple questions inevitably turn up in the first position, we are taught, day after day, that the higher a search result appears in the list, the more true it must be. When we finally search for information to help us make a tough decision (“Who’s better for the economy, Trump or Clinton?”), we tend to believe the information on the web pages to which high-ranking search results link.

As The Washington Post reported last year, in 2016, I led a team that developed a system for monitoring the election-related search results Google, Bing, and Yahoo were showing users in the months leading up to the presidential election, and I found pro-Clinton bias in all 10 search positions on the first page of Google’s search results. Google responded, as usual, that it has “never re-ranked search results on any topic (including elections) to manipulate political sentiment”—but I never claimed it did. I found what I found, namely that Google’s search results favored Hillary Clinton; “re-ranking”—an obtuse term Google seems to have invented to confuse people—is irrelevant.

Because (a) many elections are very close, (b) 90 percent of online searches in most countries are conducted on just one search engine (Google), and (c) internet penetration is high in most countries these days—higher in many countries than it is in the United States—it is possible that the outcomes of upwards of 25 percent of the world’s national elections are now being determined by Google’s search algorithm, even without deliberate manipulation on the part of company employees. Because, as I noted earlier, Google’s search algorithm is not constrained by equal-time rules, it almost certainly ends up favoring one candidate over another in most political races, and that shifts opinions and votes.

2. Search Suggestion Effect (SSE)

When Google first introduced autocomplete search suggestions—those short lists you see when you start to type an item into the Google search bar—it was supposedly meant to save you some time. Whatever the original rationale, those suggestions soon turned into a powerful means of manipulation that Google appears to use aggressively.

My recent research suggests that (a) Google starts to manipulate your opinions from the very first character you type, and (b) by fiddling with the suggestions it shows you, Google can turn a 50–50 split among undecided voters into a 90–10 split with no one knowing. I call this manipulation the Search Suggestion Effect (SSE), and it is one of the most powerful behavioral manipulations I have ever seen in my nearly 40 years as a behavioral scientist.

How will you know whether Google is messing with your election-related search suggestions in the weeks leading up to the election? You won’t.

3. The Targeted Messaging Effect (TME)

If, on Nov. 8, 2016, Mr. Zuckerberg had sent go-out-and-vote reminders just to supporters of Mrs. Clinton, that would likely have given her an additional 450,000 votes. I’ve extrapolated that number from Facebook’s own published data.

Because Zuckerberg was overconfident in 2016, I don't believe he sent those messages, but he is surely not overconfident this time around. In fact, it's possible that, at this very moment, Facebook and other companies are sending out targeted register-to-vote reminders, as well as targeted go-out-and-vote reminders in primary races. Targeted go-out-and-vote reminders might also favor one party on Election Day in November.

My associates and I are building systems to monitor such things, but because no systems are currently in place, there is no sure way to tell whether Twitter, Google, and Facebook (or Facebook's influential offshoot, Instagram) are currently tilting their messaging. No law or regulation specifically forbids the practice, and it would be an easy and economical way to serve company needs. Campaign donations cost money, after all, but tilting your messaging to favor one candidate is free.

4. Opinion Matching Effect (OME)

In March 2016, and continuing for more than seven months until Election Day, Tinder's tens of millions of users could not only swipe to find sex partners, they could also swipe to find out whether they should vote for Trump or Clinton. The website iSideWith.com—founded and run by “two friends” with no obvious qualifications—claims to have helped more than 49 million people match their opinions to the right candidate. Both CNN and USA Today have run similar services, currently inactive.

I am still studying and quantifying this type of, um, helpful service, but so far it looks like (a) opinion matching services tend to attract undecided voters—precisely the kinds of voters who are most vulnerable to manipulation, and (b) they can easily produce opinion shifts of 30 percent or more without people's awareness.

At this writing, [iSideWith](http://iSideWith.com) is already helping people decide who they should vote for in the 2018 New York U.S. Senate race, the 2018 New York gubernatorial race, the 2018 race for New York District 10 of the U.S. House of Representatives, and, believe it or not, the 2020 presidential race. Keep your eyes open for other matching services as they turn up, and ask yourself this: Who wrote those algorithms, and how can we know whether they are biased toward one candidate or party?

5. Answer Bot Effect (ABE)

More and more these days, people don't want lists of thousands of search results, they just want the answer, which is being supplied by personal assistants like Google Home devices, the Google Assistant on Android devices, Amazon's Alexa, Apple's Siri, and Google's featured snippets—those answer boxes at the top of Google search results. I call the opinion shift produced by such mechanisms the Answer Bot Effect (ABE).

My research on Google's answer boxes shows three things so far: First, they reduce the time people spend searching for more information. Second, they reduce the number of times people click on search results. And third, they appear to shift opinions 10 to 30 percent more than search results alone do. I don't yet know exactly how many votes can be shifted by answer bots, but in a national election in the United States, the number might be in the low millions.

6. Shadowbanning

Recently, Trump complained that Twitter was preventing conservatives from reaching many of their followers on that platform through shadowbanning, the practice of quietly hiding a user's posts without

the user knowing. The validity of Trump's specific accusation is arguable, but the fact remains that any platform on which people have followers or friends can be rigged in a way to suppress the views and influence of certain individuals without people knowing the suppression is taking place. Unfortunately, without aggressive monitoring systems in place, it's hard to know for sure when or even whether shadowbanning is occurring.

7. Programmed Virality and the Digital Bandwagon Effect

Big Tech companies would like us to believe that virality on platforms like YouTube or Instagram is a profoundly mysterious phenomenon, even while acknowledging that their platforms are populated by tens of millions of fake accounts that might affect virality.

In fact, there is an obvious situation in which virality is not mysterious at all, and that is when the tech companies themselves decide to shift high volumes of traffic in ways that suit their needs. And aren't they always doing this? Because Facebook's algorithms are secret, if an executive decided to bestow instant Instagram stardom on a pro-Elizabeth Warren college student, we would have no way of knowing that this was a deliberate act and no way of countering it.

The same can be said of the virality of YouTube videos and Twitter campaigns; they are inherently competitive—except when company employees or executives decide otherwise. Google has an especially powerful and subtle way of creating instant virality using a technique I've dubbed the Digital Bandwagon Effect. Because the popularity of websites drives them higher in search results, and because high-ranking search results increase the popularity of websites (SEME), Google has the ability to engineer a sudden explosion of interest in a candidate or cause with no one—perhaps even people at the companies themselves—having the slightest idea they've done so. In 2015, I published a mathematical model showing how neatly this can work.

8. The Facebook Effect

Because Facebook's ineptness and dishonesty have squeezed it into a digital doghouse from which it might never emerge, it gets its own precinct on my list.

In 2016, I published an article detailing five ways that Facebook could shift millions of votes without people knowing: biasing its trending box, biasing its center newsfeed, encouraging people to look for election-related material in its search bar (which it did that year!), sending out targeted register-to-vote reminders, and sending out targeted go-out-and-vote reminders.

I wrote that article before the news stories broke about Facebook's improper sharing of user data with multiple researchers and companies, not to mention the stories about how the company permitted fake news stories to proliferate on its platform during the critical days just before the November election—problems the company is now trying hard to mitigate. With the revelations mounting, on July 26, 2018, Facebook suffered the largest one-day drop in stock value of any company in history, and now it's facing a shareholder lawsuit and multiple fines and investigations in both the United States and the EU. Facebook desperately needs new direction, which is why I recently called for Zuckerberg's resignation. The company, in my view, could benefit from the new perspectives that often come with new leadership.

9. Censorship

I am cheating here by labeling one category “censorship,” because censorship—the selective and biased suppression of information—can be perpetrated in so many different ways.

Shadowbanning could be considered a type of censorship, for example, and in 2016, a Facebook whistleblower claimed he had been on a company team that was systematically removing conservative news stories from Facebook’s newsfeed. Now, because of Facebook’s carelessness with user data, the company is openly taking pride in rapidly shutting down accounts that appear to be Russia-connected—even though company representatives sometimes acknowledge that they “don’t have all the facts.”

Meanwhile, Zuckerberg has crowed about his magnanimity in preserving the accounts of people who deny the Holocaust, never mentioning the fact that provocative content propels traffic that might make him richer. How would you know whether Facebook was selectively suppressing material that favored one candidate or political party? You wouldn’t. (For a detailed look at nine ways Google censors content, see my essay “The New Censorship,” published in 2016.)

10. The Digital Customization Effect (DCE)

Any marketer can tell you how important it is to know your customer. Now, think about that simple idea in a world in which Google has likely collected the equivalent of millions of Word pages of information about you. If you randomly display a banner ad on a web page, out of 10,000 people, only five are likely to click on it; that’s the CTR—the “clickthrough rate” (0.05 percent). But if you target your ad, displaying it only to people whose interests it matches, you can boost your CTR a hundredfold.

That’s why Google, Facebook, and others have become increasingly obsessed with customizing the information they show you: They want you to be happily and mindlessly clicking away on the content they show you.

In the research I conduct, my impact is always larger when I am able to customize information to suit people’s backgrounds. Because I know very little about the participants in my experiments, however, I am able to do so in only feeble ways, but the tech giants know everything about you—even things you don’t know about yourself. This tells me that the effect sizes I find in my experiments are probably too low. The impact that companies like Google are having on our lives is quite possibly much larger than I think it is. Perhaps that doesn’t scare you, but it sure scares me.

The Same Direction

OK, you say, so much for Epstein’s list! What about those other shenanigans we’ve heard about: voter fraud (Trump’s explanation for why he lost the popular vote), gerrymandering, rigged voting machines, targeted ads placed by Cambridge Analytica, votes cast over the internet, or, as I mentioned earlier, those millions of bots designed to shift opinions. What about hackers like Andrés Sepúlveda, who spent nearly a decade using computer technology to rig elections in Latin America? What about all the ways new technologies make dirty tricks easier in elections? And what about those darn Russians, anyway? To all that I say: kid stuff. Dirty tricks have been around since the first election was held millennia ago. But unlike the new manipulative tools controlled by Google and Facebook, the old tricks are competitive—it’s your hacker versus my hacker, your bots versus my bots, your fake news stories versus my fake news stories—and sometimes illegal, which is why Sepúlveda’s efforts failed many times and why Cambridge Analytica is dust.

“Cyberwar,” a new book by political scientist Kathleen Hall Jamieson, reminds us that targeted ads and fake news stories can indeed shift votes, but the numbers are necessarily small. It’s hard to overwhelm your competitor when he or she can play the same games you are playing.

Now, take a look at my numbered list. The techniques I’ve described can shift millions of votes without people’s awareness, and because they are controlled by the platforms themselves, they are entirely noncompetitive. If Google or Facebook or Twitter wants to shift votes, there is no way to counteract their manipulations. In fact, at this writing, there is not even a credible way of detecting those manipulations.

And what if the tech giants are all leaning in the same political direction? What if the combined weight of their subtle and untraceable manipulative power favors one political party? If 150 million people vote this November in the United States, with 20 percent still undecided at this writing (that’s 30 million people), I estimate that the combined weight of Big Tech manipulations could easily shift upwards of 12 million votes without anyone knowing. That’s enough votes to determine the outcomes of hundreds of close local, state, and congressional races throughout the country, which makes the free-and-fair election little more than an illusion.

Full disclosure: I happen to think that the political party currently in favor in Silicon Valley is, by a hair (so to speak), the superior party at the moment. But I also love America and democracy, and I believe that the free-and-fair election is the bedrock of our political system. I don’t care how “right” these companies might be; lofty ends do not justify shady means, especially when those means are difficult to see and not well understood by either authorities or the public.

Can new regulations or laws save us from the extraordinary powers of manipulation the Big Tech companies now possess? Maybe, but our leaders seem to be especially regulation-shy these days, and I doubt, in any case, whether laws and regulations will ever be able to keep up with the new kinds of threats that new technologies will almost certainly pose in coming years.

I don’t believe we are completely helpless, however. I think that one way to turn Facebook, Google, and the innovative technology companies that will succeed them, into responsible citizens is to set upsophisticated monitoring systems that detect, analyze, and archive what they’re showing people—in effect, to fight technology with technology.

As I mentioned earlier, in 2016, I led a team that monitored search results on multiple search engines. That was a start, but we can do much better. These days, I’m working with business associates and academic colleagues on three continents to scale up systems to monitor a wide range of information the Big Tech companies are sharing with their users—even the spoken answers provided by personal assistants. Ultimately, a worldwide ecology of passive monitoring systems will make these companies accountable to the public, with information bias and online manipulation detectable in real time.

With November drawing near, there is obviously some urgency here. At this writing, it’s not clear whether we will be fully operational in time to monitor the midterm elections, but we’re determined to be ready for 2020.

Deaths And Potential Forced-Suicides:

Deaths of a suspicious nature -

All connected to suspects. 1000 times outside the odds-of-coincidence. Certainly many are accidents but forensic math says a large number of them are murders. The family and friends of many of these deceased persons have contacted our legal team and stated that they have “evidence of murder”. Our staff and Alliance members personally knew many of these people and were told, by some of them, in advance of their deaths, of threats on their lives for whistle-blowing. Who would you kill to try to control over six trillion dollars of federal funds for your bank account and stock market accounts and get to run the White House?

The Snowden Leaks began the Age of Leaks. Because of the leaks that are continuing through today, 80% of conspiracy theorists charges have been proven to be true.

Every one of these people are dead. That is a fact!

Every one of these people had knowledge of the suspects. That is a fact!

Many investigators have provided evidence which proves that these people may have been able to have the suspects arrested if they had been allowed to give testimony in court. That is a fact!

- James D Johnston, GM lobbyist/key witness. Had was connected to the Dept. of Energy car funding scheme

- Rajeev Motwani taught Google how to Google. Suddenly, in perfect health, he was found floating face-down, dead, in his Silicon Valley swimming pool. It helps certain people that he can no longer talk.

- Gary D. Conley was the CleanTech competitor to, and whistle-blower on, the suspects. He was suddenly found with a bullet in his head behind Beale Air Force base. It helps certain people that he can no longer talk.

- Google programmer Forrest Hayes, who worked on Google search engine rigging, was suddenly found dead with the story that “he was overdosed by a Google hooker on his sex yacht”.

- Google associate and Tesla Investments founder Ravi Kumar was also killed by a hooker.

- Deep Google investor VC liaison and husband of Facebook executive Cheryl Sandberg, Dave Goldberg was suddenly found dead with a hole in his head. The “official” story is that he was the first person in history to be killed by his treadmill.

He was working on a story about who controlled the modern energy industry and cleantech. He went for a walk and was found a long time later, dead, floating in a pond. It helps certain people that he can no longer talk.

- One Andrew Breitbart was a famous blogger, who railed on the web about the political manipulations of the suspects. Suddenly, he had a "heart attack" in his shower and died. Finn the senior manager of interactive electronics, at Tesla, had deep knowledge of financial misdeeds and technical cover-ups at Tesla Motors. They were key parts of the Tesla operation. For some reason, they all got into a private airplane, in perfect health, and then the airplane plowed into the ground, killing all three at once. It helps certain people that they can no longer talk. They wrote, and helped describe, in Tesla's own federal patent filings, the fact that Tesla's batteries would kill you, maim you and/or burn your house down. - Holiyah Soetoro Sobah, aka Lia Soetoro, Obama's adopted sister: died under mysterious, sudden, and unusual circumstances just as she was getting ready to be reunited with her childhood companion and adopted brother. She spoke of many specific incidences in the household, where she grew up with "Barry" in Indonesia. She saved many items that Barry used during childhood. She was looking forward to seeing him, because she'd seen him on TV and was told that was "Barry", her little brother; however, Lia had reservations about it and so was anticipating seeing the scars he had from falling out of the mango tree and the limp she said he walked with. That was not to be because she up and died. Read about it here and watch video of here.....PDF document from a web site of the Consulate General of the Republic of Indonesia appears to confirm a relationship between Lia and Barack Hussein Obama. - Ambassador Chris Stevens: (Also see the Nachumlist: "Benghazi-Gate" file) Killed by a mob in Libya. The Obama administration ignored warnings two days prior to the attacks. Hillary Clinton made the decision not to post Marines. New now comes out that Stevens was gay: meaning that Obama sent a publicly gay man to be an ambassador in a Muslim country. Don Adams

Died January 7, 1997

Long before Whitewater's land flips made the Clinton's circle of friends rich, many of the same players had been involved in a similar land swindle in Branson. Don Adams was a lawyer in Arkansas who got involved trying to help the people who were being swindled out of their life savings.

The successor attorney for Don left for parts unknown about a year after Don was killed.

John Ashe

Former United Nations General Assembly President

Died: June 22, 2016

Initially reported as having died from a heart attack, John's throat had obviously been crushed. At that point the official story changed to him accidentally dropping a barbell on his own throat (the plot line from the episode "An Exercise in Fatality" from the TV series "Columbo.") crushing his larynx.

Ashe was about to begin trial for a bribery charge involving Chinese businessman Ng Lap Seng, who had been implicated but not charged in the 1996 "China-gate" scandal for funneling illegal donations to Bill Clinton's re-election fund through Arkansas restaurant owner Charlie Trie. Ashe was supposed to testify about Hillary's links to Ng Lap Seng later the same day he died.

Robert Bates

Barry Seal's aircraft mechanic at Mena

Died: March 29th, 1995

Robert Bates supposedly died of an "overdose of mouthwash". Regarded by local authorities as an obvious homicide.

Gandy Baugh

Attorney representing Mr. Lassater in a case concerning alleged financial misconduct.

Died: January 8, 1994

Died in an alleged suicide by jumping out of a window of a multi-story building. - Mr. Lassater was a close associate of Gov. Clinton, and was later indicted on drug related charges, among other things. Baugh's law partner was "suicided" one month later on February 9, 1994.

Admiral Jeremy Boorda

Chief of Naval Operations

Died May 16th, 1996

Boorda supposedly went home for lunch and decided to shoot himself in the chest twice, using two guns, rather than be interviewed by Newsweek magazine that afternoon.

Explanations for Boorda's suicide focused on a claim that he was embarrassed over two "Valor" pins he was not authorized to wear.

Former CNO Admiral Elmo Zumwalt said on the May 17 Larry King Live show that Admiral Boorda was not only authorized to wear the "V" on his medals, but that he had personally authorized him to do so when he was serving as Commander Naval Forces Vietnam.

When it turned out that Boorda was entitled to those decorations, blame shifted to stresses over the down sizing of the Navy, and even (Washington Times) the adverse affect that feminism was having on the Navy's morale.

Boorda supposedly left two suicide notes, neither of which was released.

On Thursday, June 25, 1998, Navy Secretary John Dalton formally acknowledged that Boorda had been entitled to wear the decorations.

So, like Brown, and like Foster, the proximate cause for the "suicide" turns out to be fraudulent.

Ron Brown

Former Chairman, DNC; Commerce Secretary

Died: May 3, 1996

Ron Brown died along with 39 other people when the T-43 (a converted 737 used by the Air Force) carrying the group on a trip to Bosnia crashed while approaching the Dubrovnik airport. On the verge of being indicted and having stated publicly his willingness to make a deal with prosecutors, Ron Brown's death brought to an end his ability to testify. The very next day, Ron Brown's personal lawyer was murdered in a drive-by shooting. A few days later, the Air Traffic Controller who had been in charge during the aircraft crash was found dead and declared a suicide.

On leaving Ron Brown's funeral, President Bill Clinton was seen laughing and joking ... until he saw the camera, then he went into his sad act!

James Bunch

Influential Texan

Exact date of death unknown

Died from a gunshot "suicide", similar to Vince Foster. - Was discovered to have a "little black book" containing the names of many influential persons in Texas and Arkansas who visited certain prostitutes.

Eric Butera

Witness

Died: December 4, 1997

An informant who came forward offering information regarding the murder of White House intern Mary Mahoney. He was then sent into a known crack house to make an undercover buy for the police and was beaten to death. **His mother was awarded \$100 million in compensation**, but a Federal Judge later **slashed it to just \$1 million**.

Caetano Carani

Witness to a shooting near the White House.

Died: November 11, 1994

Suffered an unknown infection just before he was to testify. Death attributed to "apparent" food poisoning.

Danny Casolaro

Journalist

Died: August 10, 1991

Casolaro had been working on a project he called "The Octopus." Casolaro had started his investigation over the Justice Department's theft of a software package called PROMIS from a company called Inslaw.

PROMIS stood for "Prosecutors Management Information System" and it was a law enforcement database system that included a feature unique for the time. This was a module that could be programmed to automatically access other databases, in order to present to the user a single picture of financial transactions or suspects from multiple sources. This made it a powerful spying tool, and the US modified their version to include a back door, then made gifts of the software to other governments.

All this was happening at the same time as the CIA's clandestine gun and drug running operation to supply the Nicaraguan Contras with untraceable weapons. A totally illegal operation (which violated the Boland Amendment and the Logan act) the US end of the smuggling pipeline was located in [Mena, Arkansas](#) under the protection of then-governor Bill Clinton. The arming of the Contras was funded by smuggling vast quantities of cocaine into the US (a violation of drug laws) and then laundered through various banks, land flips, and a state agency, the Arkansas Development Finance Authority, created by Webster Hubbell and signed into law by Bill Clinton.

The shoot down of one of the CIA planes by Nicaragua and the capture of CIA asset Eugene Hasenfus blew the cover off of the operation and it became known as the Iran-Contra affair. During the Congressional hearings into the scandal, attention was focused on the gun-running, and all mention of the CIA's cocaine flowing into the US was kept from the public eye by the Committee chairman, Hawaii's Senator Daniel Inouye (a fixture in Hawaii going back to the CIA's smuggling of heroin from Vietnam back to the US).

Casolaro apparently stumbled over the existence of a vast network of government operatives and politicians all linked together by the vast wealth acquired from the selling of CIA cocaine in the US and was working on a book exposing the government-sanctioned drug running when he was found in a bathtub in a hotel room, his wrists both deeply slashed in a manner that the pathologist declared did not appear to have been done by Danny himself. In particular, the deep cuts severed the tendons of the fingers, which would have made it impossible for Danny to slash his other wrist with the now useless hand.

Despite this, the official verdict was suicide, although none of Danny's friends and families believed that, especially those who had been direct witnesses to the many death threats he had received.

When found, the large accordion file of the notes for his new book had disappeared from his hotel room.

Berta Caceres

Human Rights Activist

Died: March 3, 2016

Killed while sleeping in her home in La Esperanza, Honduras. Berta Caceres had named Hillary Clinton as responsible for the Honduran coup which toppled democratically elected President Manuel Zelaya. Since the coup, Honduras has become one of the most violent places in the world. Growing awareness of Hillary's role in Honduras became a serious liability during Hillary's 2016 campaign.

William Colby

Director of Central Intelligence (ret)

Died: April 27(?), 1996

William Colby had been the DCI from 1973 to 1976 under Nixon and Ford.

At age 76, Colby had found a new career and had just started writing for Strategic Investment at the time of his death. This had worried many insiders in the intelligence community who felt that Colby had already divulged too many of the CIA's secrets in the preceding years. Indeed, his dismissal by Ford because of his over-cooperation with Congressional investigations into CIA wrongdoing. It was Colby who had revealed to Congress the plans to kill Fidel Castro, the spying on American citizens (in direct violation of the CIA charter) and the conducting of biological tests by the CIA on unsuspecting citizens. George Bush replaced him.

According to the original CNN report, Colby was reported missing by neighbors who "recovered" his canoe, by one story from under the dock at Colby's house, by another report, 1/4 of a mile downstream from Colby's home.

Colby was by all report a methodical, tidy man, yet police found his home unlocked, his computer on, and a partly eaten dinner on the table. The official story is that Colby just put down his fork and decided to drop everything and go canoeing.

Colby at 76 was still a world-traveler and consultant to many corporations. He recently became an editor of an important financial newsletter, "Strategic Investment," which covered the Vince Foster "suicide" in detail. Its editors hired three renowned handwriting experts to investigate Foster's suicide note, which hadn't been found when his briefcase was first searched, but later materialized, torn into pieces, with no fingerprints on any of the pieces. Upon comparing this document with others of Foster's writings, these experts declared it was a forgery, and a not very good one at that.

Colby had old enemies as well as new, with plenty of motives for his extermination. He was in charge of the infamous Operation Phoenix during the Vietnam War, in which more than 20,000 South Vietnamese citizens -- supposedly Vietcong sympathizers -- were rounded up, tortured and executed. In

the 1970s he opened some of the secrets of the CIA to Congress: "Colby insisted on going public about the agency's role in tapping the telephones and opening the mail of Americans; plotting the assassination of Fidel Castro, and using human guinea pigs for mind-control experiments involving LSD," the Times reports.

On Monday, May 6th, Colby's body was found just 20 yards from where his canoe had been recovered, in an area that had been thoroughly searched several times by helicopters and search teams.

Most notable about the body was the absence of a life jacket, which according to his wife, Colby always wore on the water.

As has since been proven to have happened in the [JFK Jr. case](#) false stories were being deliberately planted in the media, including one quoting Mrs. Colby herself as having been told by William Colby by phone that he was going canoeing. Mrs. Colby denied any such story. The week that he died, Colby was scheduled to meet with the Disclosure Project.

He held many other high-level political positions, including vice chairman of finance for Clinton-Gore in 1995; finance chairman of the 53rd inaugural ball; and vice chairman of finance for the DNC in 1996 (when the Chinese money poured in). Attributed to a bicycle accident in which it's claimed he struck his head on the concrete twice.

Klaus Eberwein

Haitian government official

Died: July 14, 2017

Just says before Eberwein was due to appear before the Haitian Senate Ethics and Anti-Corruption Commission where he was widely expected to testify that the Clinton Foundation misappropriated Haiti earthquake donations from international donors, he was found dead in a Miami hotyel of a gunshot to the head. Ruled a suicide. Eberwein, who had acknowledged his life was in danger, was a fierce critic of the Clinton Foundation's activities in the Caribbean island, where he served as director general of the government's economic development agency, Fonds d'assistance économique et social, for three years.

Five Navy aviators

Clinton bodyguards/escorts

(names not determined) Died: 3/26/93 - all died in a crash of an E-2C Hawkeye in Italy. The crash occurred shortly after the plane was "waved off" from a landing attempt on the Carrier Roosevelt, due to a "foul deck". - All five men had been Clinton's escorts during Clinton's visit to the Roosevelt 2 weeks prior. Three other men, who had flown Clinton to the Roosevelt for that visit also died later in a helicopter crash.

Hershell Friday

Attorney and Clinton fund raiser.

Died: March 1, 1994

Killed when his plane exploded. Cause unknown.

Vincent Foster

Deputy White House Counsel

Died: July 20, 1993

Found dead in Ft. Marcy Park in Washington, DC, of a supposed suicide by gunshot. A suicide note was supposedly found a few days later, torn into several pieces, in his briefcase, after his office had been entered by White House staff and materials removed. The "suicide" note, (leaked despite official efforts to keep it from view) has since been revealed to be a forgery.

The gun which he supposedly used to kill himself was reported to be still in his hand, but the person who first found the body reports that there was no gun at that time. Many irregularities surround the death and the investigation of it. For one thing, neither Foster's fingerprints or blood were on the gun he supposedly inserted into his mouth and fired. There was no blood on Foster's hands.

Foster was also from Hope, Ark., like Clinton, and also worked for the Rose Law firm. Foster had intimate knowledge of the Clintons' personal finances. Foster was involved in an investigation of their finances, and reportedly made a phone call to Hillary Clinton, in Los Angeles, just hours before his death. Foster had been called to testify to Congress about the records Hillary refused to turn over. Another possible motive for the murder relates to the Clinton Presidential Blind Trust, being prepared by Foster, but six months late. Testimony during the Whitewater hearings suggests the trust was fraudulent, with the Clintons retaining control over much of their finances, in order to profits from inside information.

Recently, the signed report of M.E. Dr. Donald Haut was uncovered at the National Archives, proving that Foster had a previously unreported gunshot wound to his neck.

Finally, an FBI memo surfaced dated the day after the date of the official autopsy, in which the pathologist informed the FBI that there was NO exit wound.

Died: August 18, 1996

Killed when the C-130 carrying the Presidential Limos crashed near Jackson Hole, Wyoming. All nine people on board a White House support plane were killed late Saturday (10:48pm MDT), when it crashed into Sheep Mountain (also known as Sleeping Indian Mountain) near Jackson Hole Wyoming. The aircraft was en route from Jackson Hole to John F. Kennedy International airport. The Air Force Lockheed Martin C-130 Hercules transport aircraft was carrying a presidential vehicle and many pieces of luggage, all related to the president's vacation (50th birthday celebration in the Grand Tetons). President Clinton said Sunday afternoon that he was told the pilot was attempting to return to the Jackson Hole airport when it crashed (CNN news report). The Air Force reported finding no evidence of an in-flight mechanical emergency after examining the flight data and flight voice recorders and could not find evidence that the pilot radioed mechanical trouble before crashing into the mountainside as reported by the White House. The victims included 8 crew members and one Secret Service agent. The aircraft and crew were stationed out of Dyess Air Force Base.

Four Marine Pilots

Kathy Ferguson

Witness

Died: May 10, 1994

Kathy Ferguson supposedly committed "suicide" May 10, 1994 when she shot herself in her living room. Kathy's ex husband was Danny Ferguson, who was the Arkansas trooper who said he escorted Paula Jones to Bill Clinton's hotel room. Kathy often told friends and co-workers about how Bill had gotten Danny to bring women to him and stand watch while they had sex. Danny Ferguson was a co-defendant along with Bill Clinton in Paula Corbin Jones's sexual harassment suit. Kathy Ferguson was a corroborating witness for Ms. Jones.

Oddly, next to Kathy's body were her packed bags, as if she was expecting to be going somewhere.

Duane Garrett

Died: 7/26/95

A lawyer and a talk show host for KGO-AM in San Francisco, Duane was the campaign finance chairman for Diane Feinstein's run for the senate, and was a friend and fundraiser for Al Gore.

According to Garrett's lawyer, Garrett was under investigation for defrauding investors in Garrett's failed sports memorabilia venture. There was talk of a deal to evade prosecution. On July 26th, Garrett canceled an afternoon meeting with his lawyer because he had to meet some people at the San Francisco airport.

Three hours later he was found floating in the bay under the Golden Gate Bridge.

Cpl Eric S. Fox

Carlos Ghigliotti: 42, was found dead in his home just outside of Washington D.C. There was no sign of a break-in or struggle at the firm of Infrared Technology where the badly decomposed body of Ghigliotti was found. Ghigliotti had not been seen for several weeks.

Ghigliotti, a thermal imaging analyst hired by the House Government Reform Committee to review tape of the siege at Waco, Texas, said he determined the FBI fired shots on April 19, 1993. The FBI has explained the light bursts on infrared footage as reflections of sun rays on shards of glass or other debris that littered the scene.

Judi Gibbs

Penthouse model, and call girl

Died: January 3, 1986

Judi Gibbs (along with her sister Sharon) appeared in the December 1979 issue of Penthouse, and later worked at a bordello in Fordyce, near Mena, Arkansas which also ran a blackmail operation with photos taken of the customers with their girls. According to the Gibbs family, Bill Clinton was a regular customer of Judi, and there were photos of him having sex with her that threatened his Presidential campaign! While cooperating with law enforcement in a drug investigation, Judi died when her house burned down. No cause for the fire was found. Judy had called the fire department to report the fire, but her body was found on the floor in front of a ground floor window, near a door that would have allowed her escape. In a sworn statement, Clinton bodyguard Barry Spivey related how he had been with the governor when the governor's plane had flown over Judi Gibb's house and Clinton had shown Judi's penthouse photos on the plane and pointed out the house.

Paula Grober

Clinton's speech interpreter for the deaf.

Died: December 9, 1992

Died in a one-car accident with no known witnesses. Her body was thrown 33 feet from the car, indicating a very high speed. A very attractive women, Paula traveled extensively with Clinton from 1978 until her death. Clinton, through a spokesman, called Grober's death "a great personal loss." He also said, "Hillary and I extend our sincere sympathy to Paula's family. I had the privilege of working with her over many years."

Staff Sgt. Brian Haney

Marine Sgt. Tim Sabel

Maj. William Barkley

Capt. Scott Reynolds

Clinton bodyguards

Died: May 19, 1993

All four men died when their helicopter crashed in the woods near Quantico, Va. - Reporters were barred from the site, and the head of the fire department responding to the crash described it by saying, "Security was tight," with "lots of Marines with guns." The Marines seized a videotape made by a firefighter. All four men had escorted Clinton on his flight to the carrier Roosevelt shortly before their deaths.

Michael Hastings

Journalist for Rolling Stone

Died: June 18, 2013

Michael Hastings died in a highly suspicious single-car accident. He had told friends that he was afraid for his life following stories he had written which were critical of Secretary of State Hillary Clinton. One of the emails leaked during the 2016 Democratic Convention confirmed that Hillary had received Hastings' damning investigative report of the attack on the Benghazi consulate 5 months before his death.

Stanley Heard

Chairman, National Chiropractic Health Care Advisory Committee

Steve Dickson

Counsel to Mr. Heard

Died: September 10, 1993

Both died in a plane crash outside Dulles airport, after their aircraft, rented after Heard's personal craft developed troubles, crashed while attempting an emergency landing after reporting a fire on board. Let's repeat that. They took off in a plane. It developed problems. They got it back to the airport. They rented a new plane. They took off in the new rented plane and IT developed a problem. On the way back to the airport it crashed. - Heard, in addition to serving on Clinton's advisory council, also personally treated Clinton's mother, stepfather, and brother.

John Hillyer

NBC and freelance cameraman

Died: 1996

Hillyer passed away in a Dentist's office from unknown causes, despite being very health-conscious and in good physical condition. Declared a heart attack. Was working on an investigation into Mena and assisted with the "Circle of Power," and "Clinton Chronicles." Some time after his passing, his widow recalled her husband saying he felt he could be in danger.

Stanley Huggins

Partner in Memphis law firm

Died: June 23, 1994

Investigating Madison Guaranty. Reported to have succumbed to viral pneumonia (See attack on Russel Welch). His 300-page report has never been released. Stanley had been at a Cotton Carnival Party on a Friday night. He was supposed to escort his wife all week during the 7 day event, but told her he couldn't as something important was going down. He has recently left the law firm in Little Rock where Hillary C worked and set up a small office in Memphis. On that Friday night I saw Stan and spoke to him briefly. He seemed extremely nervous & about to jump out of his skin. The word circulated throughout the party that he had been involved in some secretive issue that was under the microscope. Soon after that we were told by his wife that he had flown up to a NE University to give a speech on a Saturday. He checked into the provided dorm room, by the university employees that said he looked fine. When they called up to his room later in the day he didn't answer the phone, so they went to check on him and found him dead. The death was declared due to viral pneumonia. His wife has tried to get the hospital records, but they were sealed by Janet Reno under presidential orders of Clinton. Over that weekend his Memphis office was broken into and the only noticeable thing taken were his files. His 300 page report was never released.

Sandy Hume

Journalist

Died: February 2, 1998

On Sunday, February 22nd, 1998, Sandy Hume, the 28-year-old son of journalist Britt Hume, was reportedly found dead in his Arlington, Virginia home. Aside from the statement that this was an "apparent" suicide, there remains in place a total media blackout on this story, possibly out of concern

that the actual facts will not withstand public scrutiny. Indeed, it was reported in Associated Press that the Arlington Police were not responding to any inquiries.

Hume was a reporter for The Hill magazine, newspaper about Congress for Congress, and had broken a major story in 1997 regarding the friction between House Speaker Newt Gingrich and a faction led by Representative Paxon (who announced his resignation just 24 hours after Hume's death).

In addition, Sandy Hume had just joined the staff at Fox TV News and was just three weeks into a job that represented the pinnacle of his young career. Oddly enough, aside from echoing the one Associated Press story, the Fox News website has ignored the death of its newest commentator.

Sandy already had a reputation for getting the story that nobody else wanted to look at. It is worth noting that his death came hard on the heels of reports that "a reporter" was about to break a story confirming the White House's use of investigators to dig up dirt on critics.

It has recently been confirmed that the man who performed the as-yet-unreleased autopsy is none other than Dr. James C. Beyer, who has a record of concealing homicides behind a ruling of suicide.

Kenneth Starr's "suicidologist" Dr. Alan L. Berman has waded in again and as he did in the Foster death ruled it "100% certain that this is a suicide and can be nothing else".

Kevin Ives & Don Henry

Witnesses

Died: August 23, 1987

Initial cause of death was claimed to be the result of passing out on a railroad track in Arkansas after smoking twenty marijuana cigarettes. This ruling was reported by the State medical examiner **Fahmy Malak**, and supported by Sheriff Jim Steed, whose "thorough" investigation of the crime scene left one of the boy's foot sitting in the open for two days! In April 1988, Kevin's body was exhumed, and another autopsy was performed, this one by Atlanta medical examiner Dr. Joseph Burton who discovered that Kevin died from a crushed skull prior to being placed on the tracks. Don Henry's body was exhumed and discovered to have been stabbed in the back prior to being placed on the tracks. Governor Bill Clinton excused Fahmy Malek's "errors" saying that Malek was "tired and stressed out." **Reports indicate that Ives & Henry might have stumbled upon part of the Mena drug operation, specifically a drop site in the area of Bauxite and Alexander, Arkansas. The police chief of Alexander, John Brown, acknowledged he obtained a taped confession from one of the murderers of the two boys, which was suppressed at the request of the FBI!**

Jean Duffey headed up Arkansas' 7th District drug task force in 1990. She was never allowed to conduct a thorough investigation of drug running in Mena or any possible connection to the train

deaths. Her task force and a federal grand jury were shut down after they started examining corruption involving public officials.

Dan Harmon was a local government official, the prosecuting attorney for Saline, Grant, and Hot Springs counties in 1979 and 1980 and then again from 1991 through 1996. He was convicted in June of 1997 on drug, racketeering, and extortion charges and has started serving eight years in prison. In January 1991, long before his drug offenses became public knowledge, Harmon convinced a judge to subpoena evidence obtained by Jean Duffey's task force -- evidence gathered against him and other public officials. Ms. Duffey refused to honor the subpoena, fearing for the lives of witnesses (many of whom did turn up dead) and fled the state when a warrant was issued for her arrest.

Gary Johnson

Witness

Attacked: June 26th, 1992

Beaten near death and left for dead. Someone in the Clinton organization sent 3 goons to beat up and almost murder Gary Johnson, who was Gennifer Flowers' neighbor. Gary Johnson had a security camera installed at his condominium and by chance he had many tapes of Bill entering Gennifer's condominium while governor and married to Hillary). Gary's tapes were taken.

John Jones

Julian Assange's lawyer

Died: April 18, 2016

John Jones, QC, was killed when struck by a commuter train on his way to work. The police immediately declared the death as non-suspicious. The Q.C. initially said it was not suicide. Great Britain has the highest per-capita presence of surveillance cameras of any nation in the world, yet no video has been forthcoming as to just how Jones wound up in front of that train. John Jones was working to prevent the extradition of Julian Assange to the United States. Assange and WikiLeaks have produced some of the most damaging information about Hillary Clinton's scandals.

[John F. Kennedy Jr.](#)

Potential Candidate for Senator from New York.

Died: July 16, 1999

Within days of an NBC Dateline story hinting at a possible run for the Senate seat currently assumed to be the property of Hillary Clinton, JFK Jr. and his wife and sister-in-law died when the Piper Saratoga II TC JFK Jr. was piloting crashed in to the ocean just short of Martha's Vineyard. The NEWSWEEK issue for the following Monday, which NBC Dateline had reported would announce JFK Jr's candidacy, was yanked from distributors and destroyed.

Even before the wreckage of the plane had been found, the media was saturated with news stories declaring the weather to have been very hazy (the weather was VFR conditions, and 8 mile visibility, plus weather radar and witnesses on Martha's Vineyard all reported clear skies) making it impossible for JFK Jr. to know which way was up (he also had working instruments in the aircraft).

As was the case when **TWA 800** was shot down, the United States Navy took control of the crash site, ordering an unprecedented 5 mile wide no-fly zone while the wreckage of the aircraft was recovered and taken to a military base.

Reporters **Cindy Adams** and **Andrew Goldman** have documented the planting of false information about JFK Jr. in the media in the days following his crash. The feeding of false information to the press proves there is a cover-up. The existence of a cover-up is why JFK Jr. gets an entry on the Dead Bodies List.

According to some reports, Mrs. Kennedy was pregnant.

Jordan Kettleison

Witness to the Train Deaths

Died: June 1990

Kettleison had information on the Ives & Henry deaths. He was found shot to death in the front seat of his pickup.

Johnny Franklin Lawhon, Jr.

Witness

Died: March 29, 1998

In the spring of 1997, a tornado ripped through some junked cars at Johnny's transmission and opened up the trunk of a car that proved to have a box of Whitewater records in it, including a copy of a \$27,000 cashiers check drawn on Madison and payable to Bill Clinton. Johnny Franklin Lawhon, Sr. realized what he was looking at and turned the box of documents over to the FBI.

According to police, Lawhon Jr. (the son) and a friend hit a telephone pole at a high rate of speed after their car had become airborne and left the road. They had driven less than 1/4 of a mile at the time of the accident.

This manner of death is similar to the single vehicle accidents that killed Paula Grober, and Neil Moody.

Shawn Lucas

ATTORNEY

Died: August 2, 2016

On July 3, 2016, Shawn Lucas and filmmaker Ricardo Villaba served the DNC Services Corp. and Chairperson Debbie Wasserman Schultz at DNC's headquarters in Washington, D.C., in the fraud class action suit against the Democrat Party on behalf of Bernie Sanders supporters. This was before Wikileaks released documents proving the DNC was working against the Sanders campaign during the 2016 primary.

Shawn was found dead by his girlfriend. He had been in perfect health and did not do drugs. The authorities are refusing to disclose the cause of death even after three weeks. Meanwhile, the DNC is trying to delay the lawsuit until after the November election by saying Lucas did not "properly" serve the papers ... with Lucas conveniently unable to testify on his own behalf.

Mary 'Caity' Mahoney

White House Intern

Died: July 6, 1997

An attractive 25-year-old woman, Mary was a former White House Intern for Bill Clinton working as the Assistant Manager at a Starbuck's Coffee shop in Georgetown.

In the pre-trial publicity surrounding Paula Jones lawsuit Mike Isikoff had dropped hints that a "former White House staffer" with the initial "M" was about to go public with her story of sexual harassment at 1600 Pennsylvania. Just days later, gunmen entered the Starbuck's while the crew was cleaning up after closing.

Mary's two associates, Aaron Goodrich, 18 and Emory Evans, 25, were taken to a room and shot. Mary herself had five bullets in her, from at least two different guns, most likely with silencers. A total of ten shots were fired; none of them heard by neighbors in the densely populated Georgetown section.

Mary was shot in the chest, her face, and in the back of the head. Someone wanted her very dead. Or to send a message.

Even though more than \$4000 remained in the store, the police have categorized the triple murder as a robbery, even as they acknowledge the "execution style" killings.

There was no sign of forced entry, which means that either Mary or one of the employees let the killers in (at least one hour after closing). That means that the killers included at least one person known to the victims.

One report is that the Starbucks was still locked when the bodies were found the next morning. Robbers don't bother locking doors.

George Stephenopolis, Monica Lewinsky, and Chelsea Clinton were all regulars at the Starbucks.

Carl Cooper, the man charged with the Starbucks murders on the basis of a confession has now recanted that confession, claiming that it was obtained under coercion (not unlike that of James Earl Ray).

A affidavit filed by NOAA's Sonya Stewart, confirms that the Department of Commerce was selling trade mission seats in exchange for campaign donations, and illegally blocking FOIA requests. Named in the affidavit as the White House staffer directly connected to this obstruction was Doris Matsui. Doris's assigned intern during this period was Mary Mahoney.

Lieutenant General David J. McCloud

Commander of Alaskan Command, 11th Air Force, and the Alaskan North American Aerospace Defense Command Region, headquartered at Elmendorf Air Force Base, Alaska.

Died: July 26, 1998

On July 26, 1998, McCloud died when his YAK-54 aerobatic plane crashed, allegedly from sabotage. McCloud was one of several flag officers (including Admiral Boorda) who had assembled evidence against President Bill Clinton, leading to his arrest.

Christine M. Mirzayan

White House Intern

Died: August 1, 1998

On August 1, 1998, yet another young female government intern with the initial "M", Christine M. Mirzayan, was murdered, beaten to death with a heavy object near Georgetown University.

Eventually, Mike Isikoff's "former White House staffer" finally surfaced and its NOT Mary Mahoney, or Christine M. Mirzayan, but Monica Lewinsky. If the killing of Mary Mahoney and Christine M. Mirzayan was to silence a "bimbo eruption", they got the wrong woman! (Just how many of the interns was Clinton getting oral sex from anyway??)

Florence Martin

Accountant subcontracting to CIA

Died: October 30, 1994

Related to the Barry Seal case. Dead of three gunshot wounds to the head. At the time of her death she had the account numbers and PIN for a bank account in the Cayman's in the name of Barry Seal which held 1.4 million dollars. Immediately following her death, the money was moved to someplace in the Virgin Islands.

Gordon Matteson

Clinton associate.

Died: May 15, 1997.

Shot in the head. Declared a suicide.

James McDougal

Crook

Died: March 8 1998

Jim McDougal was serving his 3-year sentence for bank fraud at the Fort Worth Federal Medical Center in Texas, a facility operated by the federal Bureau of Prisons for inmates who need medical attention.

Just prior to another round of testimony before Kenneth Starr's grand jury, and while the reporters who were covering that story were two hours away covering a standoff situation in Waco that just "went away", Jim McDougal suffered a heart attack while in solitary confinement. Left alone for too long, when Jim McDougal was taken out of solitary, instead of attempting to defibrillate his heart with

equipment on hand at the facility, he was driven over to John Peter Smith hospital. Not the closest hospital to the Fort Worth Federal Medical Center, John Peter Smith hospital is a welfare hospital, where (in the words of one local) , "They let interns practice on deadbeats".

NEW! The Fort Worth Star-Telegram acquired the official report of the McDougal death via a Freedom Of Information Act request, and report that [doctors ignored McDougal's signs of imminent death](#).

Keith McKaskle

Witness to the Train Deaths

Died November 10, 1988

Keith had information on the Mena drug running and the Henry & Ives murders. Stabbed 113 times. He had told his family someone was out to kill him and told them "good bye".

Charles Meissner

Assistant Secretary of Commerce for International Economic Policy.

Died: May 3, 1996

John Huang was placed on a Commerce Department contract that allowed him to retain his security clearance by Charles Meissner. Charles Meissner died on the plane with Ron Brown.

James "Dewey" Milam

Witness to Mena drug operation and Henry/Ives murders

Died: 1989

Milam was decapitated. Clinton's notorious state Medical examiner, [Fahmy Malak](#), initially ruled death due to an ulcer, claiming that the victim's small dog had eaten the head, which was later recovered from a trash bin several blocks away.

Charles Wilbourne Miller

Vice President and Board Member for Alltel

Died: January 12, 1999.

Alltel was the computer company that wrote the White House "Big Brother" computer system. Found shot to death with two guns. Multiple shots had been fired. Declared a suicide.

Ron Miller

Witness

Died: October 12, 1997

Ron Miller, investigated by authorities over the sale of his company, Gage Corp. to Dynamic Energy Resources, Inc. was the man who tape recorded Gene and Nora Lum and turned those tapes (and other records) over to congressional oversight investigators. The Lums were sentenced to prison for campaign finance violations, using "straw donors" to conceal the size of their contributions to various candidates. Indeed, Dynamic Energy Resources, Inc. had hired Ron Brown's son Michael solely for the purpose of funneling \$60,000 through him to the Commerce Secretary, according to Nolanda Hill's testimony.

Reportedly a healthy man, Ron suddenly took ill on October 3rd, and steadily worsened until his death 9 days later. (This pattern fits Ricin poisoning.) Owing to the strangeness of the illness, doctors at the Integris Baptist Medical Center referred the matter to the Oklahoma State Medical Examiner's Office.

The Oklahoma State Medical Examiner's Office promptly ran tests on samples of Ron Miller's blood, but has refused to release the results or even to confirm that the tests were ever completed.

John Millis

Staff Director of the House Permanent Select Committee on Intelligence Committee

Died: June 4, 2000

Millis had just helped the HPSCI complete its "investigation" into alleged CIA cocaine smuggling which predictably (given that Millis was himself a long time CIA agent) concluded that the CIA was innocent of all allegations of wrongdoing. Fairfax, Virginia police were tipped off by an anonymous phone call claiming that "a man" was threatening suicide in a motel room. Police arrived to find Millis dead of a gunshot wound. As was the case with Vincent Foster and Sandy Hume, the death was immediately declared a suicide.

Joe Montano

Chairman DNC (before Debbie Wasserman Shultz) and Regional Director for Tim Kaine

Died: July 25, 2016

Supposedly died of a heart attack right after the WikiLeaks email dump proving the DNC had worked to sabotage Bernie Sanders and hand the nomination to Hillary Clinton. Joe was 47, with no history of heart problems.

Neil Moody

Died August 25, 1996

Following Vincent Foster's murder, Lisa Foster married James Moody, a judge in Arkansas, on Jan 1, 1996.

Near the time Susan McDougal first went to jail for contempt, Judge Moody's son, Neil died in a car crash. There were other reports that Neil Moody had discovered something very unsettling among his stepmother's private papers and was threatening to go public with it just prior to the beginning of the Democratic National Convention. He was alleged to have been talking to Bob Woodward of the Washington Post about a blockbuster story. Witnesses said they saw Neil Moody sitting in his car arguing with another person just prior to HIS CAR SUDDENLY SPEEDING OFF OUT OF CONTROL AND HITTING A BRICK WALL.

Tony Moser

Anti-Corruption Journalist.

Died: June 10, 2000

Tony Moser, a critic of the Arkansas Democratic Party political machine, was killed as he crossed a street in Pine Bluff 10 days after being named a columnist for the Democrat-Gazette newspaper and two days after writing an article which exposed the looting of programs designed to obtain money from "Dead beat" parents to then give to their children.

[Click for full size image.](#)

The police declared that no crime had been committed since the anonymous driver of the 1995 Chevy Pickup truck that struck and killed Moser was not intoxicated nor was he speeding. In Arkansas, that apparently makes it legal to run down a politically unpopular journalist.

Larry Nichols

Former official at ADFA and author of "The Clinton Chronicles."

The man who broke many of the Clinton scandal stories. Several attempts on his life, but still alive.

Paul Olson

Federal witness in investigations to drug money corruption in Chicago politics

Died: September 8, 1994

Paul had just finished 2 days of FBI interviews when his plane ride home crashed, killing Paul and 130 others. The Sept. 15, 1994 Tempe Tribune newspaper reported that the FBI suspected that a bomb had brought down the airplane.

Jerry Luther Parks

Head of Clinton's Gubernatorial security team in Little Rock.

Died: September 26, 1993

Gunned down in his car at the intersection of Chenal Parkway and Cantrell Road, near Little Rock. Parks was shot through the rear window of his car. The assailant then pulled around to the driver's side of Park's car and shot him three more times with a 9mm pistol.

His family reported that shortly before his death, unknown persons were following them, and their home had been broken into (despite a top quality alarm system). Parks had been compiling a dossier on Clinton's illicit activities. The dossier was stolen.

When news of the discovery of Vincent Foster's body came over the news, Parks is reported to have said, "I'm a dead man." He had told his wife that Bill Clinton's people were "cleaning house," and he was "next on the list."

Dennis Patrick

Court clerk

Had millions of dollars laundered through his account at Lassater & Co without his knowledge. Four attempts on his life.

Monica Peterson

Haitian government official

Died: November 13, 2016

Monica Petersen was in Haiti working for the Human Trafficking Center and also previously worked for the Colorado Human Trafficking Council's Data & Research Task Force. A good friend of Monica picked up a Reddit thread and posted it on her Facebook. This says quite a lot. "It seems that Monica was in Haiti investigating the Clintons possible ties to a pedophile ring. Monica family hasn't been able to get any straight answers about her death." Ruled a suicide, but this is disputed by Monica's mother.

Joseph Rago

Wall Street Editorial Writer

Died: July 20, 2017

Joseph Rago was a 34-year old Pulitzer prize winning journalist who had been highly critical of Obamacare and had a general reputation for "going against the grain." At the time of his death, he was reportedly working on an article about Hillary Clinton's links to Russia. He was found dead in his apartment just hours before he was supposed to meet with Russian consulate officials to discuss Hillary's role in bypassing Russian sanctions in the 2014 sale of Veropharm (one of Russia's largest medical companies) to the American medical corporation Abbott Laboratories. Handling this takeover transaction was the Russian investment bank Renaissance Capital, who paid former President Bill Clinton \$500,000 for a speech he gave before their top executives in Moscow.

Police ruled out foul play in Rago's death before an autopsy was even performed. The official autopsy results were sarcoidosis -- "a disease involving abnormal collections of inflammatory cells" (Wikipedia) whose cause is unknown. "Some believe it may be due to an immune reaction to a trigger such as an infection or chemicals". Diagnosis of sarcoidosis is a matter of exclusion, as there is no specific test for the condition.

C. Victor Raiser II

National Finance Co-Chairman, Clinton for President Campaign

Montgomery Raiser

Son of C. Victor Raiser II

Died: July 30, 1992

Both men died in a private plane crash in Alaska, one day before a scheduled interview with John Hillyer. The crash was blamed on the pilot, who survived. Five others not connected to Clinton died in the crash. - DeeDee Meyers described Raiser as a "major player" in the Clinton organization. Victor Raiser was also chairman of Mobile Telecomm Technologies Corp., whose subsidiary, SkyTel Corp. is an international paging company used by federal police agencies such as the FBI.

Victor Raiser was a Washington lawyer and he was counsel to the Washington law firm of Jones Day Reavis & Pogue until 1991. At his death, he was the national finance co-chairman of the Clinton for President campaign. The campaign's press secretary, Dee Myers, described him as a "major player" in the Clinton organization. He and his wife had been friends of the Clintons for ten years. He was the past national finance chairman of the Democratic National Committee. He served on the boards of the

Democratic Business Council and the Center for National Policy and the board of advisers of the Democratic Leadership Council.

On May 29, 1993, President Clinton announced that he had selected Raiser's widow, Molly Raiser, 50, former Democratic co-chair of the Women's Campaign Fund, to be his protocol chief and stated that he planned to nominate her for confirmation as an ambassador.

Seth Conrad Rich

DNC Voter Expansion Data Director

Died: July 10, 2016

Seth Conrad Rich was shot several times in the back a block from his home in D.C.'s neighborhood of Bloomingdale. The police declared it a robbery gone bad, but nothing had been taken; Seth still had his wallet, watch, and cell phone.

One possible motive for his assassination lies with the WikiLeaks dump of 20,000 DNC emails which proved the DNC was rigging the primaries to favor Hillary Clinton. The scandal forced DNC chair Debbie Wasserman Shultz to resign. Although Hillary's people tried to portray this as a hack by Russia, to cast Hillary as a victim of international intrigue, WikiLeaks, while not identifying the leak, denied it was Russia, and stated it was an "internal" leak. If Seth (who was in a perfect position to acquire the data) were the leak, that would be ample motive to murder him, as a warning to others inside the DNC not to blow any whistles.

Shortly after the killing, Redditors and social media users were pursuing a "lead" saying that Rich was en route to the FBI the morning of his murder, apparently intending to speak to special agents about an "ongoing court case" possibly involving the Clinton family. Reports are that he was set to testify before the Congressional Committee looking into Hillary's email server. [According to Rich's girlfriend, Seth Rich had uncovered evidence of massive fraudulding thr primaries involving a voter app he himself had written.](#)

A reward has been offered for information on this murder.

UPDATE: [FOX News is now confirming that Seth Rich was in contact with WikiLeaks prior to his assassination.](#)

UPDATE 2: FOX News has now removed the above story.

UPDATE 3: Steven Wasserman, the US Attorney for the District of Columbia, and in charge of the Seth Rich investigation, is the brother of Debbie Wasserman Shultz.

Jeff Rhodes

Witness in the Train Deaths

Died: April 1989

Jeff had information on the deaths of Ives, Henry & McKaskle. His burned body was found in a trash dump. He died of a gunshot wound to the head and there was some body mutilation, specifically that his hands and feet had been partially sawn off, leading to the speculation that he was tortured prior to being killed. The body was then burned.

Maj. Gen. William Robertson

Deputy Commanding General, V Corps, Europe

Col William Densberger

V Corps Chief of Operations and Plans

Col. Robert Kelly

V Corps Chief of Intelligence

Spec. Gary Rhodes

Crew Chief

Died: February 23, 1993

All were killed when their Army UH-60 Blackhawk helicopter crashed in Wiesbaden, Germany. No cause was ever determined. - V Corps figured prominently in the US Bosnia-Serbia peacekeeping operations, along with the carrier Roosevelt. These men, and 8 others associated with Clinton's visit to the Roosevelt all died within 4 months of each other.

Dr. Ronald Rogers

Dentist from Arkansas

Killed in plane crash as he was on his way to an interview with a "London Sunday Telegraph" reporter to reveal some Clinton dirt.

Charles Ruff

Clinton lawyer

Died: November 20, 2000

Charles Ruff was one of Clinton's attorneys during the impeachment trial and was known to have inside information on the White House emails scandal as well. Original reports were that he died in an accident in his home although no details were given. Then the report changed to claim that he was found in his bedroom unconscious, then declared dead on arrival at the hospital. The authorities will provide no details other than the usual (and quite premature) assurances that there was no foul play involved.

Col. James Sabow

Died: 1991

Supposedly about to blow the whistle on drug running activity taking place on the naval base where he was stationed, Col. James Sabow was found by his wife in the backyard of their home with his head blown off with a shotgun. The Navy ruled it a suicide. In all, more than 40 deaths by individuals concerned with drug traffic on military bases have been declared as suicides despite evidence that murder was involved.

Antonin Scalia

Supreme Court Justice

Died: February 12, 2016

Justice Scalia was a major thorn in many sides. He opposed Obamacare, thought global warming was a fraud, supported individual gun rights, and mostly to the point, was involved with Senate level discussions on how to arrest Hillary Clinton for massive corruption and possible espionage. At the time of his death, Scalia was set to vote to overturn affirmative action.

Scalia died at Cibolo Creek Ranch on February 12th. His body was found by the ranch owner, lying on the top of the undisturbed bed covers, with a pillow over his face! Despite the suspicious circumstances surrounding his death, no autopsy was performed and Scalia was immediately embalmed.

Scalia is added to the Clinton Dead Bodies list based on the following leaked email exchange between Hillary's campaign chairman John Podesta and DC lobbyist Steve Elmendorf, dated just three days prior to Scalia's suspicious death.

Didn't think wet works meant pool parties at the Vineyard.

"Wet work" is a well-known euphemism for assassination.

Walter Scheib

Clinton White House Chef.

Died: June 13, 2015

Walter Scheib was hired by the Clinton White House and continued to serve the Bush administration. He was reported missing by his family when he failed to return from a hike. His body was found more

than one and a half miles off of the trail he was supposed to be on, at the bottom of a river. No official cause of death has been released.

Tom Schweich

Waco Investigator and candidate for governor

Died: February 26, 2013

Schweich served as Chief of Staff for former U.S. Senator John Danforth's investigation of the federal government's actions in connection with the 1993 FBI siege of the Branch Davidian compound in Waco, Texas. He had announced his candidacy for governor just one month before his death, and was found with a gunshot wound to the left temple. Tom Schweich was right-handed. One month later, his media director, Robert "Spence" Jackson, was found dead of a similar wound.

Barry Seal

CIA drug pilot

Died: February 19, 1986

Now known to have been a gun and drug smuggler for the CIA, operating out of the Mena airport, Barry Seal had reportedly kept in contact with Bill Clinton's head of security at the governor's mansion, Raymond "Buddy" Young, the ex rodeo clown who is now the number 2 man at FEMA.

Following his fall from CIA grace, Barry was sentenced to live at a Salvation Army Housing Complex by a judge who also prohibited Barry Seal to either have any guns or to employ any bodyguards. Corruption doesn't become any more obvious than this. Barry was gunned down with machine gun fire in the parking lot of the Salvation Army Housing Complex.

In violation of the court order, Barry had hired bodyguards who worked a rotation schedule. But the bodyguard who was to be there when Barry was killed never showed up. That bodyguard, according to video producer Daniel Hopsicker, was a former associate (meaning drug pilot) of Barry's named William "Bear" Bottoms. Bottoms prowled the internet insisting that there never was any drug running operation at Mena, Arkansas.

Bill Shelton

Arkansas state trooper and fiancée of Kathy Ferguson

Died: June 1994

Allegedly committed suicide by shooting himself at the grave site of his fiancée - Officer Shelton was the fiancée of Kathy Ferguson, who was the ex-wife of Trooper Danny Ferguson. Kathy Ferguson also supposedly committed "suicide" June 1994 when she shot herself in her living room. Oddly, next to the body were her packed bags, as if she was expecting to be going somewhere. Danny Ferguson was a co-defendant along with Bill Clinton in Paula Corbin Jones's sexual harassment suit. Kathy Ferguson was reported as a corroborating witness for Ms. Jones.

Peter Smith

GOP operative

Died: May 14, 2017

Peter W. Smith was found dead just 10 days after he admitted to trying to get Hillary Clinton's missing emails from Russian hackers. He left a note behind in all caps saying there was "NO FOUL PLAY" involved. Charles Ortel, a Wall Street investment banker and market analyst, had spoken with Smith the day before his death and said Smith did not show any indications of a man considering suicide.

Kurt Smolek

State Department Diplomatic Security Agent

Died: Aug 28-30, 2017

Kurt went missing on Monday August 28, 2017. His body washed up along the shores of the Potomac Wednesday, August 30. Kurt worked with then Secretary of State Hillary Clinton and had jurisdiction over classified data and secure emails for the State Department. Cause of death is listed as "unknown."

Victor Thorn,

Independent Journalist

Died: August 1, 2016

Found dead of a gunshot on top of a mountain near his home, Thorn has been a thorn in the side of the Clintons for decades, writing books and articles for American Free Press that exposed many of the Clintons' dark secrets, including the drug running out of Mena, Arkansas. While officially declared a

suicide, it is worth noting that Victor Thorn was at the height of his success, with a long line of successful books, including *Crowning Clinton: Why Hillary Shouldn't Be in the White House* and the *Hillary (And Bill)* trilogy, which were strong sellers. The trilogy had just been purchased for translation and foreign distribution.

Paul Tully,

Democratic National Committee Political Director

Died: September 24, 1992

Found dead in a hotel room in Little Rock Arkansas of "unknown causes." No autopsy allowed. - Described by Clinton as a "dear friend and trusted advisor. Tully authored several key strategies for Clinton and the party. Paul Tully, 48, Democratic National Committee political director and architect of a strategy to make the party competitive again in presidential elections, was found dead in his hotel room on September 24, 1992, in Little Rock, Arkansas of unknown causes. Authorities speculated his death was from a heart attack or stroke. In a press release, then-presidential candidate Clinton called Mr. Tully "a dear friend and trusted adviser." He said he was "deeply saddened by the loss." Tully devised a strategy of targeting states based on their value in the Electoral College, and coordinating the presidential campaign with state and congressional races.

Jon Parnell Walker

RTC investigator

Died: August 15, 1993

Mysteriously fell to his death from an apartment balcony. He was investigating the Morgan Guaranty scandal. The same apartment which was alleged to have been a secret getaway which Vince Foster may have visited.

Alan G. Whicher

Oversaw Clinton's Secret Service detail.

Died: April 19, 1995

In October 1994 Whicher was transferred to the Secret Service field office in the Murrah Building in Oklahoma City. Whatever warning was given to the BATF agents in that building did not reach Alan Whicher, whom died in the bomb blast.

Beranton J. Whisenant Jr.

federal prosecutor involved in the investigation of voter fraud connected to the DNC.

Died: May 24, 2017

Beranton J. Whisenant Jr was discovered in the water by a passer-by on Hollywood Beach, in Debbie Wasserman Shultz' congressional district. His death bares striking similarities to the death of murdered

DNC whistleblower Seth Rich. The prosecutor had been shot in the head, according to police, and he had all of his personal effects on him when he was discovered, which rules out the likelihood of a robbery. Whisenant worked for the U.S. Attorney's Office in Miami in its major crimes unit. He was investigating a mail theft case involving voter fraud involving the destruction of Republican absentee ballots.

Paul Wilcher

Washington attorney investigating gun running out of Mena, Arkansas.

Died: June 22, 1993

Found dead on a toilet in his Washington apartment. No cause of death was ever reported by the coroner. At the time of his death, he was investigating connections between the "October surprise" during the 1980 federal election campaign and drug and gunrunning out of Mena, Arkansas, as well as the BATF assault on the Waco, Texas Branch Davidians. Was planning on producing a television documentary on his findings. He had delivered a 105-page affidavit to Janet Reno detailing the evidence he had collected regarding the drug operation at Mena, just three weeks before his death.

Ed Willey

Real Estate Attorney, Clinton Fund Raiser

Died: November 30, 1993

Died of a shotgun blast to the head. Body found in deep woods in Virginia. Ruled a suicide, no note was found. Died on the same day his wife was sexually assaulted in the White House by Bill Clinton. - Intimately involved in several Clinton fund raising events.

Gareth Williams

MI6 Agent

Died: August 16, 2010

Gareth Williams, an MI6 spy who worked on both sides of the Atlantic, engaged in some unauthorized hacking by breaking into Bill Clinton's database of friends and connections, ostensibly to give to a friend in the media. This breach caused a diplomatic nightmare for MI6's new director, Sir John Sawers.

Gareth was found naked, padlocked into a sports bag, in his own bathtub. No fingerprints, palm-prints, footprints or traces of William's DNA were found at the scene. The key to the padlock was inside the bag, underneath his body.

As usual, declared a suicide! The sheer absurdity of this claim provoked a public uproar, and the promoters of the suicide theory even went so far as to try to demonstrate how Williams could have inserted himself into the bag!

But even this charade failed to convince anyone and the police were finally forced to acknowledge William's murder, even to the point of admitting they had two suspects in the crime ... who were never arrested.

John Augustus Wilson

Former Washington DC Council member

Died: May 18, 1993

Wilson claimed to have info on Whitewater, a political controversy that began with the real estate dealings of Bill and Hillary Clinton and their associates, Jim and Susan McDougal in the Whitewater Development Corporation, a failed business venture in the 1970s and 1980s, and was willing to talk. Found hanged. Declared a suicide.

Jim Wilhite

Vice Chairman, Arkla, Inc.

Died: December 21, 1992

Died in a one-person skiing accident. - Wilhite had extensive ties with Clinton and Mack McLarty, with whom he visited by telephone just hours before his death.

Theodore Williams, Jr.

Bettie Currie's brother.

Died: December 16, 1997

A passing car hit the brother of Presidential Secretary Betty Currie after his own car had somehow run off the road. Bill Clinton called Monica Lewinsky at 2:00 AM the next morning to tell her of the death

and alert Monica that her named appeared on the Paula Jones witness list. Betty's brother had also been beaten shortly before Betty testified in a previous matter.

Steve Willis

Robert Williams

Conway LeBleu

Todd McKeehan

Clinton bodyguards

Died: February 28, 1993

"executed" by gunfire in the Waco, Texas assault on the Branch Davidians. - All four were examined by a "private doctor" and died from nearly identical wounds to the left temple, so-called execution style. According to Linda Thompson, videotapes and other evidence indicates that none died from guns fired by Branch Davidians. In his [address to employees of the Treasury Department](#) in the Cash Room on March 18, 1993, Clinton said: "My prayers and I'm sure yours are still with the families of all four of the Alcohol, Tobacco and Firearms agents who were killed in WACO -- Todd McKeehan and Conway Le Bleu of New Orleans; Steve Willis of Houston, and Robert Williams from my hometown of Little Rock. Three of those four were assigned to my security during the course of the primary or general election." However, the Little Rock, Arkansas office of the ATF confirmed that all four had at one point been bodyguards for Bill Clinton, three while he was campaigning for President, and while he had been governor of Arkansas. In the videotape by the American Justice Federation, "WACO II, the Big Lie Continues," Linda Thompson demonstrates that 15 shots were fired from six separate weapons into and out of a room into which three of the four agents had entered through a window. Four of these shots were fired from an overhead helicopter, an agent outside the window, firing an MP5 submachine gun, who also threw in a concussion grenade, fired at least two shots into the room. In the autopsies of these agents, three had virtually identical wounds to the left temple that exited through the rear of the head, execution-style. A "private physician" treated all four.

Barbara Wise

Commerce Department Staffer

Died: November 29, 1996

As the scandals continued to swirl around the John Huang, one of Huang's associates, Barbara Wise, was found dead in her locked office on the fourth floor of the Department of Commerce, partially nude (by one report completely nude) and covered with bruises. No cause of death has ever been announced even though an autopsy was conducted (prior to next of kin being notified). Calls to the D.C. pathologist, Dr. Jaardemal have gotten an assurance that the bruises were not from being beaten but

nothing else. Despite claims of ongoing illness, no record of a hospital visit in the months leading up to her death has surfaced. Oddly enough, following the discovery of her body, Bill Clinton made an unscheduled return to the White House from Camp David, claiming he needed a book of poetry in order to complete his inauguration speech.

Richard Winters

Suspect in the deaths of Ives & Henry

Died: July 1989

Winters offered to cooperate. He was killed by a shotgun blast to the face during a "robbery" which was subsequently proven to be a setup.

Dan Harmon, the Prosecutor who Winters reportedly made the offer to, was implicated in the Kevin/Ives deaths and was jailed for running his office as a criminal enterprise to extort narcotics and cash, proof that elements of Arkansas law enforcement were corrupted by drugs during Bill Clinton's tenure as governor.

Terrance Yeakey.

First police officer to arrive at the [Murrah Building following the OK City bombing](#)

Died: May 8, 1996

Terrance Yeakey had collected together a vast amount of hard data on the bombing of the Murrah building. Terrance Yeakey's patrol car was found abandoned along a dirt road, the front seat covered with blood. Officer Yeakey himself was found a short distance away, with 11 cut wounds on both arms and two in his throat, plus a gunshot through the head. No gun was ever found, and the death was declared a suicide. His material on the OK City bombing was never found following his death. His life had been threatened.

Shawn Lucas – Aug. 2, 2016

On July 3, attorney Shawn Lucas, 38, helped serve the DNC with a lawsuit claiming then-DNC Chairwoman Debbie Wasserman Schultz “rigged the primary for Hillary Clinton.”

The complaint was served before Wasserman Schultz resigned amid the Wikileaks email scandal on July 24.

Less than one month after he helped serve the lawsuit, Lucas’ girlfriend found him dead in his bathroom.

Beverly Ann Fields, chief of staff at the Washington, D.C., Medical Examiner's office, told WND, "The cause and manner of death for decedent [Shawn] Lucas are still pending."

THE COVERT CRIMINAL CARTEL OF THE SILICON VALLEY MAFIA

The Cartels of Silicon Valley - They Rape, Steal, Lie, Bribe, Black-List and Abuse Society With Impunity

by Dean Baker

Mark Ames published an article (<http://pando.com/2014/01/23/the-techtopus-how-silicon-valleys-most-celebrated-ceos-conspired-to-drive-down-100000-tech-engineers-wages/>) that should forever destroy any connection between the Silicon Valley tech billionaires and libertarian worldviews. The article reports on a court case that alleges that Apple, Google, and other Silicon Valley powerhouses actively conspired to keep their workers' wages down. According to documents filed in the case, these companies agreed not to compete for each others' workers dating at least as far back as 2005. Workers in the industry have filed a class action suit that could lead to the payment of billions of dollars in lost wages.

This case is striking at many levels, the most obvious being the effective theft of large amounts of money by some of the richest people on the planet from their employees. This is pernicious, but not altogether surprising. After all, the boss stealing from the workers is as dog bites man as it gets. Few would be surprised that rich people were willing to break the law to get even richer.

The real news here is how the Silicon Valley barons (http://www.nytimes.com/2011/07/17/books/review/book-review-railroaded-by-richard-white.html?pagewanted=all&_r=0) allegedly broke the law. The charge is that they actively colluded to stifle market forces. They collectively acted to prevent their workers from receiving the market-clearing wage. This means not only that they broke the law, and that they acted to undermine the market, but that they really don't think about the market the way libertarians claim to think about the market.

The classic libertarian view of the market is that we have a huge number of people in the market actively competing to buy and sell goods and services. They acknowledge the obvious — some actors are much bigger than others — but there is so much competition that no individual or company can really hope to have much impact on market outcomes.

This point is central to their argument that the government should not interfere with corporate practices. For example, if we think our local cable company is charging too much for cable access, our libertarian friends will insist that the phone company, satellite television or other competitors will step in to keep prices in line. They would tell the same story if the issue were regulating the airlines, banks, health insurance, or any other sector where there is reason to believe that competition might be limited.

They would tell the same story on the labor side. If we are concerned that workers are getting low wages then the answer is to improve their skills through education and training rather than raise the

minimum wage. If workers were worth more than the minimum wage, then the market would already be paying them more than the minimum wage.

They have the same story when it comes to requiring family leave, sick days, or other benefits. Libertarians would say that if workers value these benefits they would negotiate for them and be willing to trade off wages. There is no reason for the government to get involved.

This story about the wonders of the free market is simple in its appeal and it has the great implication that nothing should be done to keep the rich from getting ever richer. However the Silicon Valley non-compete agreements show that this is not how the tech billionaires believe the market really works. This is just a story they peddle to children and gullible reporters.

If they really believed the market had a deep sea of competitors in which no individual actor could count for much, then their non-compete agreements would serve no purpose. If Google, Apple, Intel and the other biggies agreed not to hire each others' workers, it really wouldn't affect their pay since there would always be new upstarts ready to jump in and hire away underpaid engineers.

The fact the Silicon Valley honchos took the time to negotiate and presumably enforce these non-compete agreements was because they did not think that there were enough competitors to hire away their workers. They believed that they had enough weight on the buy-side of the market for software engineers that if they agreed to not to compete for workers, they could keep their wages down.

It shouldn't be surprising that the Silicon Valley billionaires really are not libertarians. After all, much of their fortunes rest on patents and copyrights, both of which are government granted monopolies: the opposite of a free market.

But for some reason, seeing the tech whiz-kids forming a cartel to keep down their workers' wages seems an even more direct violation of any belief in libertarian principles. This is the same sort of cartel behavior that we associate with the cigar-chomping robber barons of the late 19th century. It turns out that the biggest difference between the tech billionaires of the Internet Age and the high rollers of the railroad age is the cigars.

Cartels, Collusion and Price Fixing in Silicon Valley
- The intrigue behind Michael Arrington's new bombshell
John Hudson

Michael Arrington has a history of breaking big news stories for his technology site, TechCrunch. His modus operandi is "to bust the door down and clean the mess up later." Today--he's got a big mess to clean up.

On Tuesday night, Arrington published a sizzling bombshell about powerful Silicon Valley investors seemingly engaged in collusion and price fixing. The story begins when Arrington is tipped off to a secret meeting of 10 "super angel" investors at a wine bar in San Francisco. Arrington says these investors account for "nearly 100% of early stage startup deals in Silicon Valley." When he walks in on their meeting, the silence is "deafening" and he says he's "never seen a more guilty looking group of people."

After an awkward exchange, he leaves the meeting but manages to speak with a handful of investors afterwards to find some damning testimonies. According to Arrington, the super angel investors were colluding against both entrepreneurs and traditional venture capital firms. They wanted to act together to "keep traditional venture capitalists out of deals entirely" and "keep out new angel investors" from entering the market and driving up valuations. They also kept an online wiki to coordinate their ideas. A handful of attendees said they were "extremely uncomfortable" with the manner of the discussion and Arrington explains why:

What's wrong with this? Collusion and price fixing, that's what. It is absolutely unlawful for competitors to act together to keep other competitors out of the market, or to discuss ways to keep prices under control. And that appears to be exactly what this group is doing.

This isn't minor league stuff. We're talking about federal crimes and civil prosecutions if in fact that's what they're doing. I had a quick call with an attorney this morning, and he confirmed that these types of meetings are exactly what these laws were designed to prevent.

Hold On, Give Arrington Some Credit Here, writes Henry Blodget at Business Insider:

In other industries, such behavior is known as "price fixing" and "collusion" -- and it's illegal.

We... want to tip our hat to Mike for his story (it's great) and his, well, balls. It's this sort of work that makes this new form of journalism so valuable and fun. It's also the type of work that would make the tech industry barely notice if the mainstream media just rolled over and died.

As Mike observes, many of the folks he calls out for this meeting are friends and sources, some of whom will undoubtedly be furious at him for exposing their little game.

It takes balls to lob a grenade at your friends like that. It also takes finesse and skill (and power) to do it and still have many of those folks rushing to call you after the meeting to preserve their relationships with you.

I'm With Arrington, writes Mike Masnick at TechDirt:

While there are plenty more angels in Silicon Valley than just 15, it is true that, these days, companies getting investments from some of the "top" angels is seen as the ticket needed to move up the chain to big name venture capitalists as well. So hearing that a group of these investors may be colluding to effectively fix pricing is bad news for the supposed "meritocracy" of funding in Silicon Valley, and should be seen as a pretty serious problem.

Along those lines, I should say kudos to Arrington for publishing such a story. While he doesn't name names, these investors are the key sources for many of his stories, so publishing this story is probably burning some bridges with sources. It's good to see that he wouldn't let that get in the way

Today's Tech Oligarchs Are Worse Than the Robber Barons

Yes, Jay Gould was a bad guy. But at least he helped build societal wealth. Not so our Silicon Valley overlords. And they have our politicians in their pockets.

By Joel Kotkin

A decade ago these guys—and they are mostly guys—were folk heroes, and for many people, they remain so. They represented everything traditional business, from Wall Street and Hollywood to the auto industry, in their pursuit of sure profits and golden parachutes, was not—hip, daring, risk-taking folk seeking to change the world for the better.

Now from San Francisco to Washington and Brussels, the tech oligarchs are something less attractive: a fearsome threat whose ambitions to control our future politics, media, and commerce seem without limits. Amazon, Google, Facebook, Netflix, and Uber may be improving our lives in many ways, but they also are disrupting old industries—and the lives of the many thousands of people employed by them. And as the tech boom has expanded, these individuals and companies have gathered economic resources to match their ambitions.

And as their fortunes have ballooned, so has their hubris. They see themselves as somehow better than the scum of Wall Street or the trolls in Houston or Detroit. It's their intelligence, not just their money, that makes them the proper global rulers. In their contempt for the less cognitively gifted, they are waging what *The Atlantic* recently called “a war on stupid people.”

I had friends of mine who attended MIT back in the 1970s tell me they used to call themselves “tools,” which told us something about how they regarded themselves and were regarded. Technologists were clearly bright people whom others used to solve problems or make money. Divorced from any mystical value, their technical innovations, in the words of the French sociologist Marcel Mauss, constituted “a traditional action made effective.” Their skills could be applied to agriculture, metallurgy, commerce, and energy.

In recent years, like Skynet in the *Terminator*, the tools have achieved consciousness, imbuing themselves with something of a society-altering mission. To a large extent, they have created what the sociologist Alvin Gouldner called “the new class” of highly educated professionals who would remake society. Initially they made life better—making spaceflight possible, creating advanced medical devices and improving communications (the internet); they built machines that were more efficient and created great research tools for both business and individuals. Yet they did not seek to disrupt all industries—such as energy, food, automobiles—that still employed millions of people. They remained “tools” rather than rulers.

With the massive wealth they have now acquired, the tools at the top now aim to dominate those they used to serve. Netflix is gradually undermining Hollywood, just as iTunes essentially murdered the music industry. Uber is wiping out the old order of cabbies, and Google, Facebook, and the social media people are gradually supplanting newspapers. Amazon has already undermined the book industry and is seeking to do the same to apparel, supermarkets, and electronics.

Past economic revolutions—from the steam engine to the jet engine and the internet—created in their wake a productivity revolution. To be sure, as brute force or slower technologies lost out, so did some companies and classes of people. But generally the economy got stronger and more productive. People got places sooner, information flows quickened, and new jobs were created, many of them paying middle- and working-class people a living wage.

This is largely not the case today. As numerous scholars including Robert Gordon have pointed out, the new social-media based technologies have had little positive impact on economic productivity, now growing at far lower rates than during past industrial booms, including the 1990s internet revolution.

Much of the problem, notes MIT Technology Review editor David Rotman, is that most information investment no longer serves primarily the basic industries that still drive most of the economy, providing a wide array of jobs for middle- and working-class Americans. This slowdown in productivity, notes Chad Syverson, an economist at the University of Chicago Booth School of Business, has decreased gross domestic product by \$2.7 trillion in 2015—about \$8,400 for every American. “If you think Silicon Valley is going to fuel growing prosperity, you are likely to be disappointed,” suggests Rotman.

One reason may be the nature of “social media,” which is largely a replacement for technology that already exists, or in many cases, is simply a diversion, even a source of time-wasting addiction for many. Having millions of millennials spend endless hours on Facebook is no more valuable than binging on television shows, except that TV actually employs people.

At their best, the social media firms have supplanted the old advertising model, essentially undermining the old agencies and archaic forms like newspapers, books, and magazines. But overall information employment has barely increased. It’s up 70,000 jobs since 2010, but this is after losing 700,000 jobs in the first decade of the 21st century.

Tech firms had once been prodigious employers of American workers. But now, many depend on either workers abroad or imported under H-1B visa program. These are essentially indentured servants whom they can hire for cheap and prevent from switching jobs. Tens of thousands of jobs in Silicon Valley, and many corporate IT departments elsewhere, rent these “technocoolies,” often replacing longstanding U.S. workers.

Expanding H-1Bs, not surprisingly, has become a priority issue for oligarchs such as Bill Gates, Mark Zuckerberg, and a host of tech firms, including Yahoo, Cisco Systems, NetApp, Hewlett-Packard, and Intel, firms that in some cases have been laying off thousands of American workers. Most of the bought-and-paid-for GOP presidential contenders, as well as the money-grubbing Hillary Clinton, embrace the program, with some advocating expansion. The only opposition came from two candidates disdained by the oligarchs, Bernie Sanders and Donald Trump.

Now cab drivers, retail clerks, and even food service workers face technology-driven extinction. Some of this may be positive in the long run, certainly in the case of Uber and Lyft, to the benefit of consumers. But losing the single mom waitress at Denny’s to an iPad does not seem to be a major advance toward social justice or a civilized society—nor much of a boost for our society’s economic competitiveness. Wiping out cab drivers, many of them immigrants, for part-time workers driving Ubers provides opportunity for some, but it does threaten what has long been one of the traditional ladders to upward mobility.

Then there is the extraordinary geographical concentration of the new tech wave. Previous waves were much more highly dispersed. But not now. Social media and search, the drivers of the current tech boom, are heavily concentrated in the Bay Area, which has a remarkable 40 percent of all jobs in the software publishing and search field. In contrast, previous tech waves created jobs in numerous locales.

This concentration has been two-edged sword, even in its Bay Area heartland. The massive infusions of wealth and new jobs has created enormous tensions in San Francisco and its environs. Many San Franciscans, for example, feel like second class citizens in their own city. Others oppose tax measures in San Francisco that are favorable to tech companies like Twitter. There is now a movement on to reverse course and apply “tech taxes” on these firms, in part to fund affordable housing and homeless services. Further down in the Valley, there is also widespread opposition to plans to increase the density of the largely suburban areas in order to house the tech workforce. Rather than being happy with the tech boom, many in the Bay Area see their quality of life slipping and upwards of a third are now considering a move elsewhere.

Once, we hoped that the technology revolution would create ever more dispersion of wealth and power. This dream has been squashed. Rather than an effusion of start-ups we see the downturn in new businesses. Information Technology, notes *The Economist*, is now the most heavily concentrated of all large economic sectors, with four firms accounting for close to 50 percent of all revenues. Although the tech boom has created some very good jobs for skilled workers, half of all jobs being created today are in low-wage services like retail and restaurants—at least until they are replaced by iPads and robots.

What kind of world do these disrupters see for us? One vision, from Singularity University, co-founded by Google’s genius technologist Ray Kurzweil, envisions robots running everything; humans, outside the programmers, would become somewhat irrelevant. I saw this mentality for myself at a Wall Street Journal conference on the environment when a prominent venture capitalist did not see any problem with diminishing birthrates among middle-class Americans since the Valley planned to make the hoi polloi redundant.

Once somewhat inept about politics, the oligarchs now know how to press their agenda. Much of the Valley’s elite—venture capitalist John Doerr, Kleiner Perkins, Vinod Khosla, and Google—routinely use the political system to cash in on subsidies, particularly for renewable energy, including such dodgy projects as California’s Ivanpah solar energy plant. Arguably the most visionary of the oligarchs, Elon Musk, has built his business empire largely through subsidies and grants.

Musk also has allegedly skirted labor laws to fill out his expanded car factory in Fremont, with \$5-an-hour Eastern European labor; even when blue-collar opportunities do arise, rarely enough, the oligarchs seem ready to fill them with foreigners, either abroad or under dodgy visa schemes. Progressive rhetoric once used to attack oil or agribusiness firms does not seem to work against the tech elite. They can exploit labor laws and engage in monopoly practices with little threat of investigation by progressive Obama regulators.

In the short term, the oligarchs can expect an even more pliable regime under our likely next president, Hillary Clinton. The fundraiser extraordinaire has been raising money from the oligarchs like Musk and companies such as Facebook. Each may vie to supplant Google, the company with the best access to the Obama administration, over the past seven years.

What can we expect from the next tech-dominated administration? We can expect moves, backed also by corporate Republicans, to expand H-1B visas, and increased mandates and subsidies for favored sectors like electric cars and renewable energy. Little will be done to protect our privacy—firms like Facebook are determined to limit restrictions on their profitable “sharing” of personal information. But

with regard to efforts to break down encryption systems key to corporate sovereignty, they will defend privacy, as seen in Apple’s resistance to sharing information on terrorist iPhones. Not cooperating against murderers of Americans is something of fashion now among the entire hoodie-wearing programmer culture.

One can certainly make the case that tech firms are upping the national game; certain cab companies have failed by being less efficient and responsive as well as more costly. Not so, however, the decision of the oligarchs—desperate to appease their progressive constituents—to periodically censor and curate information flows, as we have seen at Twitter and Facebook. Much of this has been directed against politically incorrect conservatives, such as the sometimes outrageous gay provocateur Milo Yiannopoulos.

There is a rising tide of concern, including from such progressive icons as former Labor Secretary Robert Reich, about the extraordinary market, political, and culture power of the tech oligarchy. But so far, the oligarchs have played a brilliant double game. They have bought off the progressives with contributions and by endorsing their social liberal and environmental agenda. As for the establishment right, they are too accustomed to genuflecting at mammon to push back against anyone with a 10-digit net worth. This has left much of the opposition at the extremes of right and left, greatly weakening it.

Yet over time grassroots Americans may lose their childish awe of the tech establishment. They could recognize that, without some restrictions, they are signing away control of their culture, politics, and economic prospects to the empowered “tools.” They might understand that technology itself is no panacea; it is either a tool to be used to benefit society, increase opportunity, and expand human freedom, or it is nothing more than a new means of oppression.

Appendix A – Case Reports; Various Investigators

FROM SOLYNDRA TO JEFFREY EPSTEIN - THE ROAD TO POLITICAL CORRUPTION AND PERVERSION

2007: CHARGES FILED!

In 2007 we filed federal charges that some said "*could not possibly happen in real life...*"

2019: CHARGES PROVEN!

Now, every claim has been proven true in headline news, historical leaks and Congressional investigations. All of the crimes and corruption we described actually did happen in "*real life...*"

2020: THE EXPOSURE!

Where will you be when history is made? YOU are now part of changing the way the world works....
forever!

Here are hundreds of thousands of pages of proof and hundreds of hours of video showing indisputable facts.

Corporate fake news networks and collusion-based law enforcement insiders stonewalled our case. We are the public and we will NEVER give up, though. Not until the U.S. Government provides us with our justice!

We discovered that most "politicians" are hired actors working for corporations and billionaire sociopaths. They have few skills aside from feigning interest and glad-handing. Their campaign managers are primarily criminal-type people whose job it is to take the fall. They will lie and embezzle as much cash as possible as covertly as possible. The motto of the campaign manager is to "*lie and win and pay for the crime after you get control of the office*". They hide their crimes with plausible

deniability and financial records manipulation. Politicians get paid an average of \$150K per year in salary and \$50M+ in bribes.

[Jeffrey Epstein was a member of a cult of business men who craved political power and sexual deviancy.](#)

Solyndra was a crony political payola operation led by Brian Harrison, a veteran of [Intel Corporation](#). He took the reins on July 27, 2010, when founder Chris Gronet was replaced as CEO.[\[13\]](#) Major investors included the "Tech Mafia" of [George Kaiser Family Foundation](#), [U.S. Venture Partners](#), [CMEA Ventures](#), [Redpoint Ventures](#), [Virgin Green Fund](#), Madrone Capital Partners, RockPort Capital Partners, Argonaut Private Equity, [Masdar](#) and Artis Capital Management.[\[14\]](#)

These people, and these kinds of operations, typify the extremist, sociopath, sex-addicted cult of the high tech political power mongers who live by bribery and crony payola. They are ALL connected. Why was Elon Musk involved with all of these people? Why were these men so driven to manipulate elections and public news media? The premise of their cult reveals the truth about who, and what, they are!

Solyndra received a \$535 million U.S. Department of Energy loan guarantee, the first recipient of a loan guarantee under President [Barack Obama's](#) economic stimulus program, the [American Recovery and Reinvestment Act of 2009](#). However, Solyndra officials used inaccurate which White House staff knew of, to help mislead the public in its application.[\[16\]](#) The overall loan program took a \$528 million loss from Solyndra.[\[17\]\[18\]](#) Additionally, Solyndra received a \$25.1 million tax break from California's Alternative Energy and Advanced Transportation Financing Authority.[\[19\]](#) Solyndra [was not a unique case](#) for the U.S. Department of Energy because Tesla also got a cash give-away from insider friends.[\[20\]](#)

Following the bankruptcy, the government was expected to recoup \$27 million under the Solyndra restructuring plan, or up to 100% of loaned funds from a \$1.5 billion lawsuit filed against Chinese solar-panel makers for alleged price fixing.[\[2\]](#) The outcomes of the lawsuits were that, in November 2015, Yingli Green Energy Holding Co Ltd. settled a claim filed by Solyndra for \$7.5 million, and in April 2016 Trina Solar Ltd. settled a claim filed by Solyndra for \$45 million. In June 2016 a Stipulation Of Dismissal was filed jointly between Solyndra and Suntech Power Holdings Co Ltd. and later signed by Hon. Sandra B. Armstrong on November 30, 2017 .[\[21\]](#)

On November 3, 2010, Solyndra said it would lay off around 40 employees and not renew contracts for about 150 temporary workers as a result of the consolidation.[\[22\]](#)

On August 31, 2011, Solyndra announced it was filing for [Chapter 11 bankruptcy](#) protection, laying off 1,100 employees, and shutting down all operations and manufacturing.[\[26\]](#)

In September 2011 the company ceased all business activity, filed for bankruptcy under Chapter 11, Title 11 of the United States Bankruptcy Code, and laid off all employees.[\[2\]](#)[\[3\]](#)[\[27\]](#) The company was also sued by employees who were abruptly laid off.[\[28\]](#) Solyndra was raided by the FBI investigating the company.[\[29\]](#) Federal agents visited the homes of Brian Harrison, the company's CEO, and Chris Gronet, the company's founder, to examine computer files and documents.[\[30\]](#) Also, in September 2011, the [US Department of the Treasury](#) launched an investigation.[\[31\]](#) Bloomberg reported in 2011 that Solyndra's \$733 million plant had whistling robots and spa showers, along with many other signs of extravagant spending.[\[32\]](#)

Zients](#) that the plan should be cleared with the Department of Justice first, which the Department of Energy had not done. The emails also revealed that, as early as August 2009, an aide to then-White House Chief of Staff [Rahm Emanuel](#) had asked a Department of Energy official if he could discuss any concerns among the investment community about Solyndra but that the official dismissed the idea that Solyndra had financial problems.[\[34\]](#) The bankruptcy court approved the hiring of the chief restructuring officer Todd Neilson.[\[35\]](#) Rocket Renewables ([rocketrenewables.com](#)) incorporated in Delaware[\[36\]](#) with Gronet as the President and CEO.[\[37\]](#) On May 20, 2013, Rocket Renewables filed for a corporation license in California.[\[38\]](#)

In 2012 a very small fraction of the glass tubes, which Solyndra had produced, became part of an art installation at the [University of California Botanical Garden](#).[\[39\]](#) Also in 2012, the US Department of Justice objected to the bankruptcy plan amid allegations that "the plan's primary purpose is [tax avoidance](#) through the preservation of hundreds of millions of dollars of net operating losses (NOL) after reorganization".[\[40\]](#)[\[41\]](#) Also, the successor company is named [360 Degree Solar Holdings, Inc.](#),

which would have control over "approximately US\$350 million in tax attributes", such as NOL carryovers.[40] The case *In re Solyndra LLC et al.*, No. 11-12799 (Bankr. D. Del.), discussed tax avoidance. [27] "Solyndra's owners, Argonaut Ventures I LLC and Madrone Partners LP" will "realize the tax benefits of between \$875 million and \$975 million of net operating losses, while more senior creditors, including the Department of Energy, which provided a \$535 million loan guarantee to Solyndra, will receive nearly nothing." [27]

In 2011 and 2012, during Obama's re-election campaign, the political [advocacy group Americans for Prosperity](#) spent \$8.4 million in [swing states](#) on television advertisements denouncing the loan guarantee.[2]

In 2013, Elevated Design LLC filed as a domestic in California. Gronet became an officer of Elevated Design LLC. This filing was canceled sometime later.[44] The *Contra Costa Times* reported that Gronet was unlikely to face criminal charges in connection with Solyndra.[45] In August 2015, the Inspector General of the U.S. Energy Department put most of the blame for the incident on Solyndra. [46][47] On March 21, 2016, Gronet incorporated a company named 4th-Phase, Inc., doing business as 4th-Phase Washington, Inc., in Delaware.[48] Gronet also became an advisor to Global Water Innovations, Inc., which was founded in May 2016.[49]

THESE FACTS PROVE CRIMINAL MISCONDUCT BY PUBLIC OFFICIALS AND THEIR SILICON VALLEY DEEP STATE FINANCIERS AND HANDLERS! THIS IS OUR DEMAND TO THE ATTORNEY GENERALS, FBI AND RELATED OFFICES, TO ARREST THESE PEOPLE AND DELIVER JUSTICE!

TO DATE, NO INVESTIGATOR OR ORGANIZATION HAS PROVEN THESE FACTS TO BE FALSE. IN FACT, WE ACCEPT ANY PUBLIC CHALLENGE TO THIS EVIDENCE AND WILL CORRECT ANY DATA PROVEN TO BE IN ERROR. WE ARE PREPARED TO TESTIFY IN GRAND JURY OR PUBLIC CONGRESSIONAL HEARINGS AND BEFORE CIVIL JURIES..."

FROM THE SOLYNDRA-REDUX CASE:

**Rick Perry
Secretary of Energy
United States Department of Energy
1000 Independence Ave., SW
Washington, DC 20585
the.secretary@hq.doe.gov**

July 29, 2019

Dear Rick:

What is the status of our case?

Here are the key reasons we think that The U.S. Department Of Energy ("DOE") is criminally corrupt and did violate our rights based on our actual experience with The Department, Congressional reports and law enforcement investigations:

- DOE solicited our involvement and asked us to invest our time, money, resources, technology and years of our brand value in their project, BUT, DOE bosses had already covertly hard-wired, insider-rigged, and locked-off the funds and directed them to our competitors (who DOE bosses owned stock in and later got jobs from). We were defrauded by DOE and federal executives. We are owed damages recovery.

- DOE executives said that they did not get direct orders from the White House or private White House financiers about who to fund and who to sabotage, but that turned out to be a lie, as proven by expert testimony.

- Every insider that DOE funded either failed as a brand or was proven to have been involved in corruption and payola, in historical retrospect.

- We were the ONLY applicant that refused to pay bribes, as proven by federal reports! We were asked to participate in these illicit schemes and we refused to engage in pay-to-play. In fact, we campaigned for, and created, laws to prevent this from happening again.

- The single largest set of failures of government funded projects, IN AMERICAN HISTORY, were the insiders that we told DOE not to fund because we knew they were staged to fail in order to produce: 1.) Windfall tax write-offs, 2.) Stock market pump-and-dump valuation skims 3.) Campaign money laundering 4.) Goldman Sachs services "fee"

skims, 5.) Tech building real estate scams, 6.) Insider trading by U.S. Senators and their families... and other crimes. IN FACT, EVERY SINGLE one of the other companies was later found out to have profited in each of these illicit ways. History, corporate document leaks and FBI-class forensics prove this as inarguable fact!

- If none of these illicit things are crimes then we missed out on \$22+ billion dollars of profits. If we had been allowed to operate our business without sabotage from DOE then we would have made, at least, \$200+ million in legitimate profits. So we were defrauded out of, at least \$200M and up to \$22B. The numbers are proven by comps from other companies who got to sell what we made in the same time period because DOE acted as a gate-keeper and industry saboteur. Those comps will stand up in court.

- After DOE bosses realized we had our shit more together than the competitors and were first-in-line with submissions, DOE bosses illegally eliminated the "first come, first served" rule which the Section 136 rules say they can't do.

- Freedom of Information (FOIA) filings, that we generated, produced evidence emails, federal reports and government surveillance videos that proved every one of our assertions. Additionally, our friends worked at DOE and gave us whistle-blower tips.

- The U.S. Government offered the funding to EVERY American yet the only people who got the funding were 47 men who lived 20 minutes from each other and who partied at each other's homes and who IRONICALLY had financed the political campaigns of the top government executives. When you map out the final beneficiaries on a database like XKEYSCORE, Palantir, or related financial crimes computerized AI analysis; it is quite clear that the entire DOE funding program was created by, and only benefited, a handful of men who were all connected previous to the application announcement.

- Our group hand-delivered the largest set of customer letters of support (from Americans) to the U.S. Congress and the Department of Energy HQ. We delivered more letters of support, from customers who wanted to buy our products, than EVERY OTHER APPLICANT COMBINED. Yet we were stone-walled because our products were more in demand than the products that DOE funded and that DOE executives owned stock

market stock in.

- Kleiner, Greylock and other competitors stuck moles in our operation but we used them against the people that sent them and filed FBI, GAO, SEC, DOJ, FTC and other charges against them.

- Federal investigators, our private investigators and the news media, have yet to find a single person that DOE had "reviewing applications" who was not getting paid bribes or stock holdings by our competitors.

- Our products beat EVERY other Applicant and Awardee on: 1.) Price, 2.) Value, 3.) Manufacturing cost, 4.) Debt ratio, 5.) MPG, 6.) No foreign outsourced jobs, 7.) No bribes paid... and hundreds of other metrics. Yet we were stone-walled because our products were more in demand than the products that DOE funded and that DOE executives owned stock market stock in.

- DOE bosses demanded unfair cash payments from us, then some DOE bosses waived those fees, then other DOE bosses LIED about confirming the funds, when we got the funds from outside investors, DOE bosses refused to take the money until after the deadline had passed in a classic stone-wall procedure in order to try to cut us out of the program. This was one of many violations of anti-trust laws.

- DOE stone-walled our follow-up reviews for nearly a decade in order to punish us for reporting them for crimes and for helping law enforcement investigate them.

- DOE staff "Lois Lerner'd" our paperwork and manipulated the context and semantics of our application documents and refused to take our calls to clarify issues. One of their negative staff DOE comments was that our electric vehicle product was "not using enough gasoline". Another DOE staff comment was that our product was not expensive enough. DOE staff outright lied about submission data that our team, (hundreds of the top engineers from Detroit who had been laid off in The Crash), had carefully calculated. DOE did not want to know the truth. DOE couldn't handle the truth. DOE only wanted to manipulate data interpretations to protect their buddies and sabotage the competitors of the companies they held stock, assets and future job promises from.

- If you think these charges sound harsh or are just "sour grapes", read the testimony of the hundreds of other applicants that DOE scumbags did the same thing too. DOE staff only exist to protect their corrupt stock holdings in Tesla, Solyndra and Google and to operate as the dogs-on-a-leash for K Street lobbyists paid for by Tesla, Solyndra and Google!

- DOE officials had direct profits, "job" payola promises, stock holdings and relations with Google/YouTube/Netflix/Facebook/Tesla/Solyndra. They had the Deep State Silicon Valley media cartel only promote their friend's companies and hide all press releases about competitors to their special interests. They produced hit-job movies and articles which Google/YouTube/Facebook (known in the news media as "The Deep State") locked into the top results of their search engines globally, against DOE staff competitors. An impossible feat unless Google/YouTube/Facebook executives did so manually. A comparative search for "Tesla Motors" from 2005 to 2019 and all Tesla competitors, across all search engines, per data archives, proves this to be true and is jury trial ready for confirmation. While the public, in 2009, may not have believed such massive web information manipulation was possible, in 2019 the EU and U.S. Congressional hearings have proved that such anti-trust violations were going on and have been accelerated by Google/YouTube/Facebook executives. These anti-competitive efforts were implemented by White House staff, Secretary of Energy Steven Chu, his staff and later DOE staff after we had him fired!

- Every DOE official refused to EVER call our founders or engineers to ever discuss any of the submission details yet those same officials were on the phone daily with our competitors and had regular meetings with those competitors at DOE offices in order to hand-walk their friends into the set-aside cash.

- DOE executives established a covert scheme with every major institutional investor and every major member of The National Venture Capital Association in such a manner so that no American company could get funded, once they applied to DOE, without the say-so from DOE bosses. The NVCA is a collusion-based organization designed to rig markets and DOE staff illegally participated and directed those

collusion's using state resources.

- The FBI raided Solyndra based on some of our tips. The following investigations led right back to The White House.

- Every executive and VC in charge of Google, Facebook, Twitter and Tesla was involved in RICO-violating organized crime efforts which have been proven to have manipulated DOE taxpayer funds straight back to their own pockets. In fact, forensics has tracked the money flow to EVERY SINGLE one of them. Since Google is now 1.) more powerful than the U.S. Government, 2.) under investigation in every nation in the world, 3.) the primary provider of White House staff in 2009+, 4.) the primary beneficiary of government benefits in 2009+, 5.) the largest tax evader on Earth, 6.) the biggest user of sex trafficking services, 7.) A covert, unregistered, unregulated, political PAC organization; and other listed concerns...it raises suspicions!

- There are a few hundred other hard-fact reasons we believe That The U.S. Department Of Energy Was Run By A Pack Of Lying, Self-Dealing, Insider-Trading, Crony Political Mobsters. We can go over those facts in a public Congressional hearing, Grand Jury Hearing or Civil Jury Trial at any time, but we have already seen thousands of third parties prove these facts to be true, in addition to ourselves. It is time for compensation. The proof is on the table! DOE officials are sniveling criminal scum bags it seems, according to all of the Congressional and law enforcement evidence!

We, and most of the independent press, have submitted all of the facts and evidence for these charges to the FBI, OSC, GAO, FTC, DOJ, FEC, SEC, Congress and any other law enforcement agency we could find. If they don't want to take any action against the bad guys because it would embarrass public figures in ways beyond even the Jeffrey Epstein class of scandals then they have made a statement by ignoring that which even the average voter can plainly see.

We won't give up until our damages are paid for!

How will you be paying us for the damages DOE caused?

Thank you.

Sincerely,

The Automobile Alliance

Now that many under-cover videos and Congressional investigations have exposed the true purpose behind Google and the Silicon Valley Cartel: ***"...To manipulate politics, stock market valuations and government funds to their own nefarious ends..."*** ; it is time to bankrupt these criminal oligarchs!

The victims had global character assassination and political propaganda-media defamation reprisal attacks operated against them by White House staff including Robert Gibbs, John Podesta, David Axelrod, Rahm Emanuel, David Plouffe, Steve Rattner, Susan Rice, Valarie Jarrett, et al., and their political financiers: Elon Musk, Larry Page, John Podesta, Reid Hoffman, Vinod Khosla, David Plouffe, Steve Jurvetson, Tim Draper, George Soros, Jared Cohen, Steve Spinner, David Drummond, Eric Schmidt, Steve Westly, John Doerr, etc.

What kinds of people are the perpetrators?:

- The perpetrators operate a **massive and abusive sex cult**. [The perverts](#) in the SandHill Road Venture Capital offices, located between Highway 280 down to Santa Cruz Avenue on Sand Hill Road in Menlo Park, California, are the main perpetrators of this global cartel. Their executives at Google, Facebook, Netflix, Linkedin, Twitter, and their related holdings, comprise the rest. Their [sex cult actions](#) have been widely covered in the news individually in the [Joe Lonsdale rape case](#), [The Kleiner Perkins Ellen Pao sex abuse lawsuit](#), The [Eric Schmidt sex penthouse stories](#), [The Jeffrey Epstein case](#), The [Google Forrest Hayes hooker murder case](#), The [Andy Rubin sex slave case](#), The [Sergy Brin 3-way sex romp](#) scandal, The [British Hydrant investigation](#), The [Elon Musk Steve Jurvetson billionaire sex parties](#) scandals, The [NXIVM sexual slave](#) cases, The [Michael Goguen anal sex slave](#) trial, [The Tom](#)

Perkins Hooker Parties and thousands of other cases and federal divorce court filings. This group of people have proven themselves, over and over, to be sociopath control freaks not fit for participation in public commerce, public policy or media control. The Four Seasons Hotel and Rosewood Hotels in Silicon Valley are estimated to engage in over \$30,000.00 of high-end escort sex trafficking per day, a portion of it managed by Eastern Bloc Mafia operators. At least 10 Ukrainian escorts fly in and out of SFO and SJO airports every week for these Cartel members. You here about the female victims of this sex cult but you rarely hear about the young male victims.

- An inordinate number of the members are closeted homosexuals who seek to use their media monopolies and massive lobbyist ownership's to promote child sex and child sex change consideration. Hence the massive, sudden, promotion of those issues in all of their media since they took power in 2008 and pretty much ran the Obama White House. The press has widely reported on underage boy sex clubs and the payment to parents for the blood of young boys by these oligarchs. A large number of tech VC's and senior executives are covert gay activists who hire women to act as their "beards". Their elitist Yale and Stanford fraternity house upbringings promoted "bromances", "rape culture" and a don't-worry-daddy-will-fix-it mentality. Highly gay law firms, (like Covington, Perkins and Sonsini), actively lobby to place gay politicians in office from their Bay Area offices.

- The AngelGate Conspiracy (<https://venturecapitalcorruption.weebly.com/the-angelgate-conspiracy.html>); The Job Collusion Case (https://en.wikipedia.org/wiki/High-Tech_Employee_Antitrust_Litigation) and hundreds of other cases, prove that the perpetrators regularly meet, conspire, collude and racketeer, in full view of law enforcement, without ever getting arrested by the FBI because they bribe public officials in order to avoid prosecution. The perpetrators operate in extreme violation of federal RICO laws yet no DOJ or SEC RICO case has been filed against them by federal officials because, according to Senator Nunes: "*Some FBI executives are compromised....*"

- The perpetrators have used their exclusive monopolized cash flow of taxpayer financed grants, contracts and internet infrastructure to purchase the majority of the political lobby firms and technology law firms in America. This gives them an illegal, illicit and unfair ability to control: 1.) which laws are made or stalled, 2.) who gets government funded or blocked, 3.) Who gets kick-back tax breaks, tax credits and tax waivers and who does not, 4.) Who gets state-sponsored reprisal targeting or benefits blockades, 5.) Who gets revolving door payola jobs at their companies, 6.) Who gets PAC money bribes, 7.) and many other effects that are legally defined as "racketeering".

- The perpetrators conspire, coordinate and manually manipulate their digital media mass broadcasts in order to collude in a manner that injects coordinated subliminal messages, that no regular voting citizen can detect, into their media in order to manipulate co-aligned political and ideological messages that will promote their ideological beliefs and promote public and policy actions which will provide profits to their stock market holdings which they co-own. Many of those stock market holders, (ie: in Tesla, Google, Abound, Solyndra, rare earth metals, Disney, etc) were coordinated between all of the perpetrators by their partners at JP Morgan, Bear Stearns, Goldman Sachs in such a manner as to collude to rig markets via insider trading ownership's that U.S. Senators, and their families, shared.

- The perpetrators have used their subliminal media control technologies to manipulate every national election since 2008.
- The perpetrators use a contrived Scientology-like hiring and HR management system which seeks out the most vulnerable, naive, easily influenced, and damaged people to fill their employee coffers with, in order to do their bidding. Their employees are nothing less than tools, sheep and fodder for their media manipulations, sexual abuses and ego-mania.
- These people are absolutely evil, sick and sociopath-like individuals who operate with impunity because they are never arrested. They thumb their noses at the law and anyone who does not agree with them. They create fake political issues to milk the emotions of the public in order to gain power by rigging elections, voter rolls and fake news.

Congressional reports, NSA, SEC, FBI and private investigation evidence proves this as fact.

The victims were attacked because 1.) they helped law enforcement investigate the attackers, and 2.) They competed with the attacker's products. The Silicon Valley Cartel attackers chose to "cheat rather than compete". Jury and FBI-compliant evidence proves this as fact.

The attackers spent over \$30M+, part of that using taxpayer resources, attacking the victims as proven in the financial transaction records from hired attackers: Google, Gawker, Gizmodo, Jalopnik, Think Progress, Media Matters, Facebook shadow-banning, troll farms, Media Matters, Black Cube, Fusion GPS, et al. (All of whom are now being forced out of business by federal and public investigations). Jury and FBI-compliant evidence proves the assertions.

The U.S. Department of Energy, SSA, HUD, IRS, EPA, and other agencies, are used as political slush funds to pay back (In Plain Sight) campaign finance millionaires while blockading the Silicon Valley oligarch's competitors from reaching the market or receiving funding. Jury and FBI-compliant evidence proves this as fact. The White House has total and covert control over those agencies and can order any federal agency to screw over any voter if that citizen "*mouths off*". The Lois Lerner case, and thousands of similar cases, proves that!

The only entities who participated in the global character assassination and propaganda-media defamation reprisal attacks were those entities owned and controlled by the attackers. Jury and FBI-compliant evidence proves this as fact. Follow-the-money and the proof is quite clear.

Through corrupt rare-earth mineral high tech company mining scams and control of federal contracts and grants, attackers had planned to acquire at least one trillion dollars in unjust gains and illegal profiteering. Jury and FBI-compliant evidence proves this as fact.

This amount of money they sought, and the "Mafia-like" structure they adopted, caused the suspects to engage in the most extreme crimes, including murder and "Deep State" coup attempts. Jury and FBI-compliant evidence proves this as fact.

A significant number of person's who were in conflict with the attackers have died in suspicious manners. Jury and FBI-compliant evidence proves this as fact.

The suspects have hired the largest numbers of lobbyists and corporate manipulation lawyers in U.S. history in order to manipulate political decisions. Jury and FBI-compliant evidence proves this as fact.

The suspects have spent more money on political bribes than any group of men has spent in the last century. Jury and FBI-compliant evidence proves this as fact.

The suspects placed top federal law enforcement and agency bosses (ie: Michelle Lee, Steven Chu, Kamala Harris, James Comey, et al) from their own Cartel, into top government positions, with orders to run cover and protection schemes for them. Jury and FBI-compliant evidence proves this as fact.

California State officials including the Governor, Controller, The Senators, Secretary of State and regional officials participated in these crimes and pocketed the initial profits from these crimes in covert investment banking. Jury and FBI-compliant evidence proves this as fact.

Tesla Motors, Google, Netflix, Facebook, Linkedin, Amazon and other tech Cartel members operate with a common goal of psychological mass ideology manipulation and monopolistic profiteering based on government sponsored anti-trust violations and server control exclusivity. Jury and FBI-compliant evidence proves this as fact.

 - Google hired most of the Washington, DC K Street lobby firms and told them to "do what ever they could"

 - Demands for an FTC and FBI raid of Google, for criminal activity, securities law and election felonies have been filed
 - Google's David Drummond had his Woodside, CA Quail Road house bugged revealing sex and financial misdeeds
- and so much more...

Google, and it's Cartel (Alphabet, Youtube, and hundreds of other shell-company facades) are a criminal organization engaged in felony-class crimes. Google's bosses bribe politicians, regulators and

law enforcement officials to hold off prosecution. At Google: Kent Walker, Andy Rubin, Larry Page, Eric Schmidt, Sergey Brin, Jared Cohen, Yasmin Green, David Drummond and Ian Fette are so enmeshed in sex scandals, election manipulation, and White House bribes that it is hard to comprehend how they can get any legitimate work done. Between all of the sex cult activity; hookers; rent boys; political bribes to Pelosi, Harris, Newson, and Feinstein; DDoS attacks they run; CIA and NSA stealth deals; privacy harvesting; Scientology-like employee indoctrination; cheap Asian labor; covert Axiom scams and other illicit things they get up to; one just has to wonder.

Some of the largest political bribes in American or European history were paid via billions of dollars of pre-IPO cleantech stock, insider trading, real estate, Google search engine rigging and shadow-banning, sex workers, revolving door jobs, nepotism, state-supported black-listing of competitors and under-the-table cash. Why are these Silicon Valley Oligarchs and their K-Street law firms and lobbyists immune from the law?

"Google is designed to be digital Scopolamine Devil's Breath for the masses. Under the influence, voters will do things they would not otherwise believe they could be made to do. The tactic hides itself in plain sight..."

- Senior CIA Operations Director

Your Personal Worst Enemy Is Their Political Corruption And Public Policy Bribery

Did you know that 85% of every dime you earn is affected by political bribery?

Political corruption is the use of powers by public officials, their network contacts, or the coordination of such corruption by Silicon Valley oligarchs, or VC's, for illegitimate private gain.

Forms of [corruption](#) vary, but include [bribery](#), [extortion](#), [cronyism](#), [nepotism](#), [parochialism](#), [patronage](#), [influence peddling](#), [graft](#), and [embezzlement](#). Corruption may facilitate [criminal enterprise](#) such as [drug trafficking](#), [money laundering](#), and [human trafficking](#), though it is not restricted to these activities. Misuse of [government](#) power for other purposes, such as [repression](#) of political opponents and general [police brutality](#), is also considered political corruption. [Masiulis case](#) is a typical example of political corruption.

Over time, corruption has been defined differently. For example, in a simple context, while performing work for a government or as a representative, it is unethical to accept a gift. Any free gift could be construed as a scheme to lure the recipient towards some biases. In most cases, the gift is seen as an intention to seek certain favors such as work promotion, tipping in order to win a contract, job or exemption from certain tasks in the case of junior employee giving the gift to a senior employee who can be key in winning the favor.[\[1\]](#)

Some forms of corruption – now called "institutional corruption"[\[2\]](#) – are distinguished from bribery and other kinds of obvious personal gain. A similar problem of corruption arises in any institution that

depends on financial support from people who have interests that may conflict with the primary purpose of the institution.

An illegal act by an officeholder constitutes political corruption only if the act is directly related to their official duties, is done under [color of law](#) or involves [trading in influence](#). The activities that constitute illegal corruption differ depending on the country or jurisdiction. For instance, some political funding practices that are legal in one place may be illegal in another. In some cases, government officials have broad or ill-defined powers, which make it difficult to distinguish between legal and illegal actions. Worldwide, bribery alone is estimated to involve over 1 trillion US dollars annually.^[3] A state of unrestrained political corruption is known as a [kleptocracy](#), literally meaning "rule by thieves".

Investigations by the United States Congress have shown that The U.S. Department of Energy, SSA, HUD, IRS, EPA, and other agencies, are used as political slush funds to pay back (In Plain Sight) campaign finance millionaires.

Corrupt politicians steer payola to campaign financiers while blockading the Silicon Valley oligarch's competitors from reaching the market or receiving funding. Jury and FBI-compliant evidence proves this as fact. The White House has total and covert control over those agencies and can order any federal agency to screw over any voter if that citizen "*mouths off*". The Lois Lerner case, and thousands of similar cases, prove that!

In every case, the only entities who participated in the global character assassination and propaganda-media defamation reprisal attacks were those entities owned and controlled by the attackers. Jury and FBI-compliant evidence proves this as fact. Follow-the-money and the proof is quite clear.

The suspects have hired the largest numbers of lobbyists and corporate manipulation lawyers in U.S. history in order to manipulate political decisions. Jury and FBI-compliant evidence proves this as fact.

The suspects have spent more money on political bribes than any group of men has spent in the last century. Jury and FBI-compliant evidence proves this as fact.

The suspects placed top federal law enforcement and agency bosses from their own Cartel, into top government positions, with orders to run cover and protection schemes for them. Jury and FBI-compliant evidence proves this as fact.

California State officials including the Governor, Controller, The Senators, Secretary of State and regional officials participated in these crimes and pocketed the initial profits from these crimes in covert investment banking. Jury and FBI-compliant evidence proves this as fact.

Tesla Motors, Google, Netflix, Facebook, Linkedin, Amazon and other tech Cartel members operate with a common goal of psychological mass ideology manipulation and monopolistic profiteering based on government sponsored anti-trust violations and server control exclusivity. Jury and FBI-compliant evidence proves this as fact.

The Silicon Valley oligarchs campaign contributions to individual federal candidates are well-documented, with each contribution limited to \$2,700 (of visible cash) per cycle to each candidate or their personal political action committee.

WE KNOW HOW EACH POLITICIAN IS BRIBED!

WE KNOW WHO BRIBES EACH POLITICIAN!

WE KNOW WHICH INTERMEDIARIES THE BRIBES ARE PAID THROUGH!

THIS IS HOW THEIR BRIBES WORK:

But political influence from outside groups, for example via Google's massive army of lobbyists and crooked law firms, is far more than just cold hard cash in the form of direct campaign contributions. A large portion of the people who run political election programs, ie: "Campaign Managers" are no more than mobsters who run various financial shake-down and transparency evasion efforts.

[The Washington Post reports on many bribery matters](#), for example, that the Palo Alto Mafia of High Tech billionaires has donated less than \$4 million publicly visible dollars to members of Congress in the last 18 years.... BUT.. In an era where some Senate races cost nearly \$100 million, \$4 million seems like very little. Here are other ways the Palo Alto Mafia of High Tech billionaires bribe their way into policy and politics:

1. The Palo Alto Mafia of High Tech billionaires also give to party committees and the national party. A maxed-out donation to the national party quickly increases campaign spending to more than \$100,000. Any organization – or person – can also give \$33,400 to a party committee. Finally, state and local parties can each receive a \$10,000, quickly allowing campaign finance totals to sour to nearly half-a-million dollars.
2. While the organization has to follow campaign limits, its members can make their own political donations, also following campaign finance limits noted above. But with millions of members, political clout builds quickly. The Palo Alto Mafia of High Tech billionaires have people like Steve Spinner and Steve Westly who use computerized manipulation systems to get members to over donate.
3. The Palo Alto Mafia of High Tech billionaires has a politically active membership on the social networks they own. With more than five million members, the Facebook and Google constantly communicates with its members about immigration and climate issues that affect the Palo Alto Mafia of High Tech billionaires stock market holdings and advising them how to vote. The organization is also constantly increasing its voter rolls by registering people to vote.
4. The Palo Alto Mafia of High Tech billionaires also activates its membership when elected officials are facing climate-related legislation, resulting in phone calls and emails and letters to

Congress. In addition, lawmakers' votes are noted and advertised to their issue-oriented membership.

5. The Palo Alto Mafia of High Tech billionaires has its a massive number of their own super PAC's and 501c4 political organization which can run hundreds of their own political campaigns. The groups combined spent more than \$40 million in the midterm elections on Senate and Congressional candidates, according to the Center for Responsive Politics. A lot of that money was spent on political advertising on television, radio and digital, and on direct mail.
6. The Palo Alto Mafia of High Tech billionaires tip off Senator's staff as to which stocks to have their Goldman Sachs brokers buy and which laws to manipulate that will pump those stocks that the families of Sen. Reid, Harris, Pelosi, Feinstein, etc. have already insider traded. Why do you think Nancy Pelosi and Dianne Feinstein have \$100M in their bank accounts from only a \$170K per year salary? (ie: If Tesla Motors went bankrupt would Nancy Pelosi and Dianne Feinstein, who own covert stock in Musk's companies, go bankrupt?)
7. Political attackers spend over \$30M, part of that using taxpayer resources, attacking each victim that exposes them. This is proven in the financial transaction records from hired attackers: Google, Gawker, Gizmodo, Jalopnik, Think Progress, Media Matters, Facebook shadow-banning, troll farms, Media Matters, Black Cube, Fusion GPS, et al. (All of whom are now being forced out of business by federal and public investigations). Jury and FBI-compliant evidence proves the assertions. Hiring services, that wipe out a Senator's adversaries, is an overt form of bribery and Dark Money financing by Oligarchs.
8. There are hundreds of other such examples...

Certain California State officials, Obama White House Staff and Federal Agency staff accepted bribes from Silicon Valley Oligarchs and Investment Bank Cartels. They were bribed with: Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures stock and stock warrants which is never reported to the FEC; Billions of dollars of Google, Twitter, Facebook, Tesla, Netflix and Sony Pictures search engine rigging and shadow-banning which is never reported to the FEC; Free rent; Male and female prostitutes; Cars; Dinners; Party Financing; Sports Event Tickets; Political campaign printing and mailing services "Donations"; Secret PAC Financing; Jobs in Corporations in Silicon Valley For The Family Members of Those Who Take Bribes And Those Who Take Bribes; "Consulting" contracts from McKinsey as fronted pay-off gigs; Overpriced "Speaking Engagements" which are really just pay-offs conduited for donors; Gallery art; Private jet rides and the use of Government fuel depots (ie: Google handed out NASA jet fuel to staff); Recreational drugs; Real Estate; Fake mortgages; The use of Cayman, Boca Des Tores, Swiss and related money-laundering accounts; The use of HSBC, Wells Fargo, Goldman Sachs and Deutsche Bank money laundering accounts and covert stock accounts; Free spam and bulk mailing services owned by Silicon Valley corporations; Use of high tech law firms such as Perkins Coie, Wilson Sonsini, MoFo, Covington & Burling, etc. to conduit bribes to officials; and other means now documented by us, The FBI, the FTC, The SEC, The FEC and journalists.

Senior White House staffer Steve Rattner was indicted for stock market securities fraud, Former President's campaign manager and Uber executive David Plouffe has been fined \$90,000 for illegally bribing Chicago mayor Rahm Emanuel (Obama's former Chief of Staff, on behalf of the ride-hailing company, the Chicago Tribune reports.

In another case, White House buddies Marty Nesbitt and Harreld Kirkpatrick III formed a private equity investment firm called Vistria created to interface to the 2012 election.

A curious pattern began to emerge. The White House administration would attack industries with government power, which led to substantially lower valuations for these companies. Nesbitt and Vistria, or others close to the White House, could then acquire those assets for pennies on the dollar. For example: The for-profit higher education schools like University of Phoenix, ITT Technical Institute, and DeVry University; In 2013, White House staff blamed the schools for taking advantage of students by saddling them with student debt, ruining their credit and making a profit on it. The White House ordered the Federal Trade Commission to go after them. In the case of the University of Phoenix, its parent Apollo Education Group was suspended after a Federal Trade Commission investigation in 2015. The following year, three companies, including Vistria, swooped in to buy what remained of Apollo at a price 90% below its share price before the investigation. As Vistria's education investment portfolio bulged, a number of White House Education Department officials, including Secretary of Education Arne Duncan, ended up taking high-level jobs with Vistria.

In another instance both the Vice President and Secretary of State were deeply [involved in trade and security talks with China](#) even as that country began its aggressive campaign to expand its military and physical presence in the South China Sea. Contrary to standard diplomatic practice, however, both played "good cop," not seriously confronting China on its misbehavior. These two officials were close friends from their years spent together in the Senate. Their families went into business together in 2009. They created a number of equity and real estate investment firms allied to Rosemont Capital, the alternative investment fund of the Heinz Family Office. Over the next seven years, as the Vice President and Secretary of State negotiated sensitive and high-stakes deals with foreign governments, Rosemont entities secured a series of exclusive deals with those same foreign governments. In December of 2013, for instance, when one of those politicians traveled to China for talks. He brought his family along. While there, the father soft-pedaled China's clear aggression, and played up the bilateral trade partnership. Ten days after the trip concluded, China's central bank, the Bank of China, set up a \$1 billion investment joint venture called Bohai Harvest RST. For the record, the "RS" referred to Biden's son's firm, Rosemont Seneca.

That's [questionable enough](#); But months later, in July 2014, the Secretary of State traveled to China, also for talks. He talked little of China's clear aggression, but did conspicuously note that "China and the United States represent the greatest economic alliance trading partnership in the history of humankind." He should know. In the ensuing months, Chinese government-linked firms took major stakes in several of the firms owned or controlled by their family, and provided them with massive funding totaling billions of dollars. Nor is [this the only scandal](#) involving these guys.

While we can provide hundreds of thousands of such examples, it is up to YOU, as a citizen, to call these public figures (who are your EMPLOYEES) to task when it occurs and remove them from office in special elections, mid-term.

This is a chart of the essence of the criminal cycle of corruption engaged by Silicon Valley oligarchs and the Senators and public officials they own:

THE SILICON VALLEY CORRUPTION CARTEL

Executives & VC's from Google, Twitter, Salesforce, LinkedIn, YouTube, Kleiner, Tesla, Greylock, Facebook, Andreessen, Mofo, Covington, Sonsini, Y-Combinator...

...Pay lobbyists and crooked lawyers At McBee, Podesta, Fusion GPS, Black Cube, etc....

...Who bribe the White House, U.S. Senators & Congress-People to rig public policy, laws, contracts & grants which...

... Pump the stock market assets at Goldman Sachs, JP, Schwab, etc. that the Oligarchs previously insider traded

JOE SIX-PACK: YOU ARE NOW PART OF THE MOST EFFECTIVE, 100% LEGAL, CORRUPTION TERMINATION TEAM EVER ASSEMBLED! YOU ARE A CROWD-SOURCED CRIME FIGHTING COLLECTIVE THAT HUNTS DOWN, AND TAKES DOWN, CRIMINALS THAT STEAL DEMOCRACY AND ROB TAXPAYERS.

YOU ARE NOW A THOUSAND TIMES MORE POWERFUL THAN NADER, ASSANGE, SNOWDEN, NESS, GOWDY, THE U.S. CONGRESS AND MILLIONS OF TAXPAYERS COMBINED. YOU ARE "THE WEB-POWERED PUBLIC"

YOU DEMAND JUSTICE, ARRESTS & INDICTMENTS! HERE THEY COME:

We have absolute and indisputable intelligence agency, FBI-verifiable and forensic expert proof of all of these assertions. All of the bad guys manipulated fake news outlets are being bankrupted. All of their sex trafficking and sex slave rings are being exposed. All of their philandering and sexual extortion schemes with their interns are being exposed. All of the abuse charges in their divorce proceedings are being exposed. All of their bribes are being revealed. All of their back-room Angelgate-like collusion meetings are being revealed. They are all being sued in epic "no poaching tech job blacklisting" class action lawsuits. Every one of their employees is now able to win whistle-blower rewards for exposing them. Every law enforcement and regulatory agency in the world is receiving anti-trust, RICO and bribery complaints about them. THOUSANDS OF INTERDICTION PROGRAMS ARE UNDER WAY TO (100% LEGALLY) END THEM, THEIR CRIMES AND THEIR CORRUPTIONS.

This material includes the evidence sample-sets for the RICO Racketeering cases and investigations involving political corruption, Democracy abuse and one of the largest insider stock market scams in American history!

Silicon Valley oligarchs and corrupt U.S. Senators conspire, plot, finance and execute felony crimes that are using taxpayer money, covert investment bank accounts and stock market manipulation to steal your money and manipulate public policy. Now we have the proof and public court hearings should be held to show that evidence! If you are a voter: Demand the public release of the California and Nevada politicians tax records, stock market records and investment bank off-shore profit records - the data proves the crimes, the bribes and the corruption that we have charged!

These Certain California State officials, Obama White House Staff and Federal Agency staff have deployed every trick in the book to harm, damage, intimidate and pay-back those who reported them. They are engaging in REVENGE by **abusing State, County and Federal Agencies to use Government resources to attack, benefit-block and damage members of the public in reprisal!**

When you peel back the onion-skin of corruption around the covert stock market and investment bank holdings of Eric Schmidt, Dianne Feinstein, Nancy Pelosi, Elon Musk, etc.; you find that they are invested in something called "rare-earth mining". Rare earth mines are generally in third world nations and use child slave labor. These toxic corrupt operations are responsible for more murders, beatings, rapes and genocides (over control of these "blood minerals") than anything on Earth. These minerals are used in the electric cars, cell phones and solar panels that Silicon Valley has attempted to control. So, you see, it isn't about "*saving the environment*"; it is about greed, bribes and corruption on an epic scale.

Our global team is committed to the 100% legal, crowd-sourced, public take-down of each, **and every:** person, organization and company that chose to attack the public, cheat rather than compete, run character assassination and defamation reprisal operations, bribe politicians, embezzle taxpayer funds, run monopolies using taxpayer funded networks, run high-tech sex trafficking operations and use Democracy as their play-thing. The corrupt entities on THE LIST are each being hunted down, exposed and terminated using 100% legal methodologies.

CASE AREAS COVERED IN THESE INVESTIGATION:

DOCUMENTING POLITICAL BRIBES - How the Suspects were bribed. What do you do when your own elected officials are competing with you, and your businesses, and using government-owned, taxpayer-funded, resources to attack you so that they, and their monopoly-owning friends, can gain billions of dollars in anti-trust violating stock market profits?

COORDINATED SILICON MEDIA CENSORSHIP - How the Suspects mass-manipulate news & information to hide the truth and operate "fake news" disinformation campaigns through Google, Facebook and other monopoly global information-control networks

EVERY PUBLIC OFFICIAL INVOLVED GOT PAYOLA - Confirmations of the fact that the Senators & agency bosses who were supposed to protect the public were taking bribes in the crimes. They took stock market warrants, revolving door jobs at monopolistic Silicon Valley companies and insider trading tips as political bribes

FIGHTING CORRUPTION - What you can do, from the comfort of your home, to fight this kind of political corruption. Over a billion dollars-a-year is spent, by the corrupt, to stop the FBI, GAO, FTC, FEC, OSC from enforcing the law against these criminal oligarchs... so YOU have to do it!

GOOGLE IS CORRUPT - The overall corruption that Google executives and VC's audaciously engage in via a planned organizational strategy of tax evasion, media manipulation, anti-trust violations, shadow-banning, sex trafficking and worse. For decades, Google VC's and executives have conspired to monopolistic-ally manipulate politics, stock markets and information towards their personal ideological and profiteering extremes.

GOOGLE MANIPULATES ELECTIONS - The most extreme crime that Google operates is the manipulation of Democracy in order to please the extremist owners of the monopoly in the Alphabet Cartel. Using the largest bribery and lobbying network in history, The Alphabet Cartel operates criminally and with impunity.

KEY POINTS - Capsule summations of the main issues, illicit actions and criminal charges

SILICON VALLEYS SEX ABUSES - The Silicon Valley oligarchs, and the politicians they control, reveal their true sick sociopath nature in the massive number of perverted sex scandals they are always involved in

SURVEILLANCE CAPITALISM - The abuse of privacy, created by the Silicon Valley technology monopoly mafia, for the mass harvesting of humans as "digital information cows" and tools for political behavior manipulation

THE DARK MONEY LAUNDERING - The way that the bribes are paid using covert asset layering techniques. How does a California Senator that is only supposed to be making \$170K per year end up with \$160+ Million in their bank account, all derived from profiteering on the backs of taxpayers?

THE DOE CLEANTECH PAYOLA SCAM - The U.S. Department of Energy was converted to a Dark Money political slush-fund to pay back Obama Administration campaign financiers by distributing payola in plain sight. They thought they could never get caught if they pulled it off right in front of everybody, but their smoke-and-mirrors scheme blew up when the deciders, financiers, beneficiaries and government staff all turned out to be holding the same stock, job offers and insider trading moves.

THE ELON MUSK SCAMS - Elon Musk operates Tesla Motors, SpaceX, Solar City, Neuralink, The Boring Company, etc. as government mooch stock market scams and dark money political campaign finance conduits in partnership with Goldman Sachs. The lies, financial crimes, arrogance, narcissism and manipulations of Musk are endless

THE HIRED CHARACTER ASSASSINS - When the Suspects get bent-out-of-joint, they use Gawker, Gizmodo, Fusion GPS, Black Cube, Jalopnik, CNN, Media Matters, etc. to "kill" those they don't like. Victims have suffered defamation blasts, character assassination, employment black-listing, investor black-listing, toxic poisoning, government benefits blockades and stonewalling, Google & Facebook shadow bans, and worse. Patrick George At Jalopnik attacks outsiders under contract with Elon Musk and DNC. Silicon Valley campaign finance oligarchs hire him to run hatchet jobs on innocent outsiders and then Gawker-Gizmodo-Jalopnik uses their financial partnership with the DNC's Google to push the character assassination articles to the top of Google web products and searches. Patrick George, Adrian Covert, John Hermann and Nick Cook are the sexually degenerate cabin boys that report to boy-loving sleaze-tabloid oligarch Nick Denton. They created the Fake News crisis in the media by flooding the internet with defamation posts and reprisal hatchet job articles designed to damage political enemies of the Socialists. They coordinate a large number of the character assassination efforts at Gawker, Gizmodo, Jalopnik, CNN, New York Times and other propaganda outlets. **THE LITHIUM BATTERY SCAM** - The Obama campaign financiers promised exclusive lithium, indium, cobalt & rare-earth metals mining deals to Silicon Valley oligarchs who rigged the internet for Obama. The batteries they exploit turned out to be deadly, toxic, war-causing, child-labor camp harvested, cancer-causing, working killing, self-exploding disasters

THE PALO ALTO MAFIA - Also known as "The PayPal Mafia" or "The Deep State"; these sociopath frat boys, mostly homosexual, delight in bribes, sex abuse, monopolization, tribal boys clubs,

elitism and tax evasion

THE POLITICAL DEATHS - When the character assassinations don't work, the Suspects just have people killed

USING PUBLIC AGENCIES AS HIT-JOB OPERATORS - HUD, SSA, SEC, DOE and your City and County offices are used by the Suspects, via their control of U.S. Senators, to harm those who speak out against the corrupt insiders who run this scheme

VENTURE CAPITAL TECHNOLOGY THEFT - Expect to have every great idea, start-up, invention or business venture stolen and copied by Google, Facebook, Kleiner Perkins, Draper Fisher, Greylock, etc. (The Palo Alto Mafia) and get blockaded from ever getting them into a jury trial to hold them accountable

Silicon Valley oligarchs, and the corrupt West Coast Senators they bribe, pretend to support 'green' issues, sex issues and immigrant issues in order to sucker the largest mass of the public into supporting schemes designed, exclusively, to put stock profits in their covert family stock market accounts. They spend over a billion dollars a month to rig government policy against you. The only way to stop them is to A.) vote them out, B.) expose them in the media using CIA/FBI-class financial forensics doxing and C.) bankrupt their assets and stock market holdings, D.) expose their corrupt lobby companies, "think tanks", Fusion GPS operatives and facade law firms. The true financiers of every politician are being publicly revealed! "Politicians" are your EMPLOYEES, never let them forget that fact!

Everyone has seen the news reports about *Solyndra*, *Uranium One*, *The Tesla Stock Manipulations*, and the trillions of dollars of related energy industry financial crimes (ie: The CBS News *60 Minutes* reports: "*The Cleantech Crash*" & "*Congress Trading On Insider Information*"...). The victims of these crimes have never been compensated, never had their claims addressed, and are attacked DAILY for reporting the crimes and for assisting law enforcement agencies. The victims have joined together to get justice..one way or another!

What Is An 'Extinction-Level Interdiction Program' For Corrupt Companies And People?

By The Leesberg Foundation

It only works on corrupt companies that bribe, break the law, abuse employees, rape, tax evade, lie, cheat, steal, run character assassinations, operate anti-trust violating monopolies, spy and are generally dirty pigs.

That is why it works so well on Google, Gawker, Gizmodo, Jalopnik, Univision, Facebook, Tesla, Goldman Sachs and other creepy corps who bribe, break the law, abuse employees, rape, tax evade, lie,

cheat, steal, run character assassinations, operate anti-trust violating monopolies, spy and are generally dirty pigs.

'**Extinction-level**' means that the goal is to put them-out-of-business.

'**Interdiction**' means that the effort involves interrupting their corruption, crimes, bribes, payola and sex trafficking.

It is a '**Program**' because it is a constant, unwavering, long-term effort that the entire public population is continually expanding and adding to the effort of.

The efforts are long and take many years but they always work.

If your company does not bribe, break the law, abuse employees, rape, tax evade, lie, cheat, steal, run character assassinations, operate anti-trust violating monopolies, spy and they are not generally dirty pigs then they have nothing to worry about.

If the truth can't hurt a Facebook, Google or Tesla then they should have no concern about the truth being exposed.

Alas, though, those companies are targeted for extinction and any smart investor should remove their investment funds from those companies. The way that they are taken down includes exposing every time each investor engages in a bribe, breaks the law, abuses employees, rapes, tax evades, lies, cheats, steals, runs character assassinations, operates anti-trust violating monopolies, spies and is generally a dirty pig.

Bill Cosby thought he could not be taken down. He was!

Enron thought they could not be taken down. They were!

Dick Nixon thought he could not be taken down. He was!

Hillary Clinton thought she could not be taken down! She was!

Theranos thought it could not be taken down! It was!

The list is endless. The fact is clear: ***If you cheat rather than compete you will be destroyed.***

It is now easier than ever to kill a corrupt entity!

We have hard-fact FBI and CIA-class evidence that Google, Gawker, Gizmodo, Jalopnik, Univision, Facebook, Tesla, Goldman Sachs and others are breaking the law and exist based on a criminal operation. That is why they are going down! We witnessed them do the crimes. Their ex-employees and federal investigators saw it too. That is why they are helping with the take-downs. Millions of web users who hate corruption are helping too, using crowd sourced forensics.

The deaths of these crooked behemoths will be long, slow and hard..but the crash they make when they finally fall will resound throughout history!

An Extinction-Level Interdiction Program known as an "ELIP" always guarantees that a corrupt attacking corporation will:

- A.** Lose a minimum of one billion dollars in stock market and brand valuation from exposure of the truth about them.
- B.** Suffer the firings or forced terminations of multiple senior staff.
- C.** Have draft FBI 302 forms authored and submitted to the relevant regional FBI offices where those companies are located.
- D.** Have private investigators prepare case files on the company, or individual, and submit those to every relevant law enforcement and regulatory agency on every continent.
- E.** Have every investor who has placed over \$50,000.00 in the company investigated for tax fraud, expense fraud, drug abuse, spousal abuse, sexual extortion, off-shore accounts, political bribery, kick-backs, payola, under-the-table payments, real estate fraud, 501 c 3 and 501 c 4 charity fraud, self-dealing, revolving door political payola and other relevant issues.

How To Destroy ANY Corrupt Politician or Dirty Silicon Valley Campaign Financier, 100% Legally!

Organized crime is alive and well in public offices across the nation. This is how you utterly destroy any person who engages in it, using 100% legal tactics and the power of crowd-sourced law enforcement.

FBI and other government officials will even help you do it. The voters will help you do it. Your friends will help you do it. Total strangers will help you do it. The entire internet will help you do it.

You will use CIA-class databases, social media, public watch-dog technologies, FBI-quality monitoring systems and open-source collaborative forensics comparison data to hunt down every: hooker, real estate asset, male prostitute, mistress, secret email account, social media posting, family trust fund, shell corporation, family stock market transaction, off-shore account, covert investment brokerage, email, Uber and Lyft ride, hotel entry and exit, credit card transaction, Paypal account, search engine manipulation, venture capital connection, Stanford University admissions bribe, expense account abuse, taxpayer funds abuse, rape, sextortion, covert tech company stock they own under another name, every party they attended, every tag they appear in on social media, every Cayman Island account, every crooked CPA or law firm they have used, every lobbyist they ever paid....EVERYTHING.. and you will drop the data into a simple database and cross matrix everything even better than the spy agencies can do it..

...AND EXPOSE IT ALL. YOU WILL SUE THEM IN SMALL CLAIMS COURT. YOU WILL

LAUNCH CLASS ACTION LAWSUITS. YOU WILL HOLD PRESS CONFERENCES IN FRONT OF THEIR HOMES. YOU WILL CONFRONT THEM WITH FACTS AT EVERY SINGLE TOWN HALL AND PUBLIC APPEARANCE. YOU WILL PUT UP A BOOTH AT EVERY STREET FAIR AND PUBLIC ASSEMBLY AREA AND HAND OUT LITERATURE. YOU WILL CREATE A MASSIVE PUBLIC MEDIA CIRCUS. YOU WILL MAKE DISCLOSURE WEBSITES. YOU WILL NOT LET THEM ESCAPE!

Each person from each political office, lobby firm, law firm or company who engaged in the subversion of the government and the bribery of public officials WILL have EVERY personal email account, text message account, voice-mail hard drive, social media account, dating account or other PERSONAL communications account examined via investigators. Such examinations shall begin from the date of the opening of each account and run up to today. Law enforcement believes that such parties used personal data systems to subvert the laws of public disclosure and engage in criminal financial crimes and democracy subversion efforts.

You will be even more powerful than Ralph Nader, Julian Assange and Edward Snowden COMBINED!

You will ensure that the public servants, who are your EMPLOYEES!!!!, are held accountable and totally, completely devastated for their crimes against the public.

IT IS TIME FOR 100% LEGAL REVENGE AGAINST THESE POLITICAL MOBSTERS!

ADVANCED TECHNOLOGY VEHICLE MANUFACTURING LOAN AND LOAN GUARANTEE SLUSH-FUND CORRUPTION

THE UNITED STATES DEPARTMENT OF ENERGY

ADVANCED TECHNOLOGY VEHICLE MANUFACTURING LOAN AND LOAN GUARANTEE SLUSH-FUND CORRUPTION

The Advanced Technology Vehicles Manufacturing (ATVM) Loan Program is a \$25 billion direct loan program funded by [Congress in fall 2008](#) under the guise of "providing debt capital to the [U.S. automotive industry](#) for the purpose of funding projects that help vehicles manufactured in the U.S. meet higher mileage requirements and [lessen U.S. dependence on foreign oil](#)." The PR department for the U.S. Department of Energy spends nearly a million dollars per year seeking to manipulate news and social media to try to pitch their message that the program was a "success". In fact, it has been, and remains today, **one of the most criminally corrupt failures in American history**.. It was only a "success" as one of the biggest political slush-funds ever created!

A case study in pay-to-play cronyism

By Dan Epstein (White House Counsel)

News flash: Government subsidies and special-interest favors go hand in hand.

The latest example comes from a federal green-energy loan program. Last month, the DC District Court **ruled** that Cause of Action, where I am executive director, can **proceed with a lawsuit** against the Department of Energy. We're suing the federal government for the blatant political favoritism in its \$25 billion "Advanced Technology Vehicle Manufacturing Loan Program."

In principle, this taxpayer-funded program was supposed to support the manufacture of energy-efficient cars. In practice, it rewarded a select few well-connected companies.

Since the program was created in 2008, numerous businesses have applied for its taxpayer-backed financial support. Yet only a small number were approved. Among the lucky few were two electric car manufacturers: **Tesla** and **Fisker**.

Both companies' political connections run deep, especially Tesla's. The company's founder, Elon Musk, was a **max donor** for President Obama. One of its board members, **Steven Westly**, was appointed to a Department of Energy **advisory board**. And another Obama bundler, Tesla investor and adviser Steven Spinner, **secured employment** in the department's Loan Program Office—the very office that gave the company a taxpayer-backed loan.

Fisker also has friends in high places. The company, which has since **gone bankrupt, was backed** by a San Francisco **venture capital firm** whose senior partners **donated millions** to the 2008 Obama campaign and other Democrat causes. **One partner, John Doerr**, parlayed his support into a seat on the President's Council of Jobs and Competitiveness.

Such connections can allow a company to exert political pressure to enrich itself. Unsurprisingly, Department of Energy emails show that such pressure was rampant in its loan programs.

There's no shortage of examples. The department's leaders—including then-Secretary of Energy Steven Chu—repeatedly promised to deliver results to politicians like Rep. Steny Hoyer (D-Md.) and Sen. Harry Reid (D-Nev.). **One emails reads**, "DOE has made a political commitment" to approve a company's loan. Another says the "pressure is on rea lheavy" from none other than

Vice President Joe Biden. And still **another shows** an employee asking, “what’s another billion anyhow?”

Unsurprisingly, the Obama administration gave Tesla and Fisker preferential treatment, and then some.

The Department of Energy revised its review process in order finish the companies’ applications faster. The government **gave them extraordinary access** to its staff and facilities—even to the point of having government employees personally walk them through the loan application and approval process. The department ignored its own lending rules in order to approve the companies’ loans. And it **renegotiated the terms of some loans** after the companies could not keep their original commitments or were experiencing financial difficulties. Tellingly, Fisker has since gone out of business, despite receiving over a billion dollars in loans through this federal program.

Now contrast this preferential treatment with what happened to XP Vehicles and Limnia, neither of which have the same political connections. (My organization is suing the Department of Energy on their behalf). The two companies partnered to manufacture an energy-efficient sport utility vehicle that would have competed with Tesla and Fisker’s cars. They applied for loans in 2008 and 2009 under the same loan program.

The department refused them both—and it used bogus reasons to do so.

For starters, the department made claims that were laughably false. To take one example: It rejected XPV’s application because **its vehicle was powered by hydrogen**. It was an electric SUV. It also raised objections that it didn’t raise with other companies whose applications were approved. For instance: The bureaucracy **criticized** the proposed all-electric vehicle for not using a specific type of gasoline. Yet Tesla and Fisker received the loans despite producing similar all-electric cars.

In light of these obvious problems and hypocrisy, both companies presented the Department of Energy with detailed rebuttals. Yet the government failed to respond. To this day, both XPV and Limnia are awaiting a satisfactory reply. In the meantime, **XPV has gone out of business**, unable to compete against its politically connected—and subsidized—rivals.

This casts the Department of Energy’s loan program in a new light. It was sold to the American public as a means of promoting energy-efficient vehicles. Instead, it was used to benefit a select few well-connected companies. It was a blatant crony handout, paid for by the U.S. taxpayer.

Sadly, similar examples are widespread in Washington. That's no surprise considering the feds spend roughly \$100 billion a year in taxpayer-funded handouts to businesses. This breeds the sort of government-business collusion Americans think is rampant in Washington. In fact, over two-thirds of likely voters think the federal government helps businesses that hire the most lobbyists, shake the right hands, and pad the right pockets. They're right.

This points to a simple conclusion: Politicians and bureaucrats shouldn't use the public's money to pad private companies' bottom lines. As the Department of Energy's green-vehicle loan program shows, the capacity for corruption is immense—and inevitable.

Note: We have absolute and indisputable intelligence agency, FBI-verifiable and forensic expert proof of all of these assertions.

The program was used by the Obama Administration to provide crony payola kick-backs to financiers and friends of the Obama Administration and to attack the competitors of the Silicon Valley financiers of the Obama Administration.

As of 2019, the U.S. Department of Energy claims that they "overhauled" and "re-did" the ATVM program and it's sister program: the Loan Guarantee Program. In fact, that is false.

When you peel back the onion-skin of corruption around the covert stock market and investment bank holdings of Eric Schmidt, Dianne Feinstein, Nancy Pelosi, Elon Musk, etc.; you find that they are invested in something called "rare-earth mining". Rare earth mines are generally in third world nations and use child slave labor. These toxic corrupt operations are responsible for more murders, beatings, rapes and genocides (over control of these "blood minerals") than anything on Earth. These minerals are used in the electric cars, cell phones and solar panels that Silicon Valley has attempted to control. So, you see, it isn't about "*saving the environment*"; it is about greed, bribes and corruption on an epic scale.

The program continues today as a political slush-fund and it is as corrupt as ever. It has NOT been "cleaned-up"! It is STILL a cesspool of corruption! Obama hold-overs and corrupt insiders, with personal conflict-of-interest stock and revolving door career deals, still control the funds and steer the monies exclusively to their friends.

The program has not funded any company who is not a campaign-finance friend of the Obama Administration. The DOE program attacked, lied to, stalled, delayed, gate-keeper blocked and harmed any Applicants who competed with Tesla, Fisker and the Obama financiers. Through the Silicon Valley control of the *facade group: "The National Venture Capital Association"*, DOE ensured that NO car

company or solar company in America could get funded, by any private means, without Silicon Valley oligarch approval. The DOE is a corrupt organization operated by corrupt insiders for corrupt purposes!

DOE's two main manipulation tricks are: 1.) **STONE-WALLING** - Where DOE staff throw outsider Applicant's filings in a box and forget about them for many years in a Lois-Lerner'd review process that takes any commercial bank only 2 weeks to complete. DOE spends years doing hyperbolic nothings in order to delay campaign financiers competitors, and 2.) **INTERPRETIVE LYING** - Where DOE staff make up things that Applicant's never said and twist the Applicant's words into anything BUT what the Applicant's intended, in order to manipulate non-favored Applicant's into negative interpretations. DOE staff never even called outsider Applicant's for clarity discussions of any key data. They did not want to hear the truth, they couldn't handle the truth! They only wanted their crony's to win the funding!

Every applicant who applied, who was not a crony insider, hard-wired, Obama bagman was **DEFRAUDED, LIED TO, STONE-WALLED** and used as a smoke-screen to hide the true nature of the crony payola scheme operated by Secretary of Energy bosses Chu, Moniz and Perry. They are owed money to pay for their damages from tort-based interference in their businesses and other fraud-related DOE-operated causes-of-action.

Silicon Valley oligarchs hired "Lobbyists" (who are political operatives who offer bribes to politicians without ever using the word "bribe") to take-over the program. Silicon Valley insider McKinsey staffed the DOE department while working for the Silicon Valley oligarchs. In a typical corruption example: Steve Spinner worked at DOE handing out money to Solyndra which his wife Alison Spinner worked at as Solyndra's lawyer, while the DNC mailer referred to each of them as the "top West Coast fund-raisers for the DNC".

taxpayer subsidies. If one wants to look at dirty Russian collusion, they need look no further than Steven Chu, the architect of the failed Iran Nuclear deal and corrupt Uranium One deal. Steven Chu and Rahm Emanuel ordered DOE's Sandia Livermore Labs and Argonne Labs (who they were both connected to) to manipulate Applicant data in order to only favor campaign financiers companies.

- DOE abuses of process defrauded non-insider Applicants out of billions of dollars of their savings and investor monies yet DOE never offered those that it harmed and recompense.

- DOE officials owned stock market stock and revolving door job promises in the very companies that they were supposed to be conducting "due diligence" on.

- Tesla Motors and SpaceX were staged as campaign finance dark money conduits to transfer taxpayer cash from government treasuries to private parties and then into campaign funds without transparent public disclosure.

- The Obama Administration promised an exclusive on Afghanistan mining deals to Frank Guistra and the Silicon Valley oligarchs for lithium, indium, cobalt and rare-earth metals mining after USAID pitched (<http://2.bp.blogspot.com/VyTCyizqrHs/TBaffwKixYI/AAAAAAAAAH74/Wee8LTQfo3k/s1600/afghanminerals.jpg>) manipulated reports from McKinsey Consulting saying that "Afghanistan was the Saudi Arabia of lithium and had trillions of dollars of lithium" to dig up. It turned out to be a lie to get oligarchs to support Obama's Afghan invasion. ([http://pubs.usgs.gov/fs/2007/3063/pdf-page.jpg](http://pubs.usgs.gov/fs/2007/3063/pdf/page.jpg)) DOE helped sell this lie because the Russians had already scoured Afghanistan and found it to be fairly worthless as a mining potential. Elon Musk bought into this for his battery monopoly. This is why Steven Chu gave so much money to Russians at Ener1 and Severstal. DOE staff were fully aware of this. (<http://www.mining.com/1-trillion-motherlode-of-lithium-and-gold-discovered-in-afghanistan/>)

- Google, a Tesla investor and bromance buddy with Elon Musk, hired more lobbyists for DOE influencing than anybody had ever hired before in U.S. history. Google hides all negative news stories about Musk and Tesla and only shows fake news hype about Musk, Tesla and SpaceX because Larry Page and Elon Musk share an apartment and financial programs.

- The DOE ATVM and LGP programs are based on arbitrary metrics which are not even followed by DOE evaluation staff. There is a secret black-list in operation to keep companies who are competitors to Obama's financiers from ever getting funded. Even though many Applicant's beat every "winner" in Obama's DOE handouts, they were excluded, denied and discriminated against simply for competing with Obama's Silicon Valley oligarchs.

- Steven Chu, after getting thrown out of office, went to work for the very people he was supposed to have been conducting due diligence on. Chu is considered to be one of the most criminally corrupt public officials ever in charge of an agency aside from his peer, who also made corruption history: Eric Holder, who helped Comey cover-up the crimes.

- The DOE ATVM and LGP programs resulted in: ***THE LARGEST DISTRIBUTION OF TAXPAYER CASH TO THE MOST COMPANIES THAT THEN WENT IMMEDIATELY WENT BANKRUPT***

IN THE HISTORY OF AMERICA! Not only has the DOE ATVM and LG program been NOT A SUCCESS, they have been a disaster!

- Goldman Sachs and Deloitte engineered INTENTIONAL bankruptcies so that their Silicon Valley oligarch clients could claim windfall tax write-offs which the U.S. Treasury said resulted in "unjust gains" for those oligarchs. In other words, the tech oligarch billionaires took U.S. taxpayer subsidies, which they did not need, and then bankrupted their own companies so that they could reap profits in tax write-offs. On top of this Goldman Sachs skimmed "fees" off-the-top for arranging these deals, at taxpayer expense, and then ALSO profited from the "bumps" to the stock market valuations in pump-and-dump crimes. **TO BE CLEAR: MANY OF THESE BANKRUPTCIES WERE TAX SKIMS CREATED TO FAIL! After realizing this, Applicants and Congressional insiders forced ALL of the kick-back funded companies into bankruptcy as payback for the corruption and abuse of their resources. Said one Senator: "If they want bankruptcies, we will give them bankruptcies..."**

- Lachlan Seward, one of the DOE money laundering insiders, threatened Applicant's that if they "made trouble" they "would never be funded by DOE as long as they lived".

- When Tesla Motors got their DOE money approved they had NO DESIGN AND WERE PLANNING TO BUILD A FACTORY. Both of which were against the so-called Section 136 Rules. Tesla used the DOE money to hire engineers to design the car from scratch as proven by the engineers that were hired. Tesla was running all over the country trying to stage a real estate scam with Dianne Feinstein's Husband's company CBRE. Tesla even got sued for these real estate scams. DOE stated that the "rules" said you already had to have a factory and a design, which the other applicants had. So, against the "rules" Tesla got the money and figured out the car LATER and did not use a pre-existing factory until they were later forced to follow the rules.

- For the same kind of commercial loans, Bank of America and Wells Fargo take 4 weeks to approve loans this large. DOE staff were either too stupid to review loans in less than 3 years or were intentionally stone-walling every applicant who was not an Obama crony.

- As shown by this letter: <https://news.wttw.com/sites/default/files/Letter%20from%20Bright%20Automotive%20to%20US%20Dept%20of%20Energy.pdf> ...and hundreds of Congressional reports, DOE staff proved themselves to be liars and scumbag political manipulators at every turn.

- The public has not seen the entire FBI and SEC investigation records on the FBI raid and investigation of Solyndra because the records point straight back to the White House Oval Office!

- A Congressional report on the ATVM and LG programs exposed layers and layers of crony payola.

- The only Judges who got to rule on the cases were "Obama Judges" appointed by or beholden to the Obama Administration.

- A CBS News 60 Minutes segment called: "**The Cleantech Crash**" revealed that many of the assets of the ATVM and LGP disasters had been funded by the taxpayers and then sold to China in deals that benefited Diane Feinstein's family and financiers. Later Dianne Feinstein was found to have Chinese spies and insiders on her staff. The Feinstein family owned the stock, staffing services, construction

company and services companies at Tesla and Solyndra, which Feinstein got the federal cash for. Her staff then went to work at Tesla and Solyndra.

- Although felony-class crimes occurred, no DOE officials have ever been charged with crimes..although multiple FBI officials have been charged with covering up those crimes.
- Vice President Al Gore, John Doerr and Vinod Khosla have had all of their finances tracked and connected together through covert routes that reveal insider stock trading and government policy manipulation, in this case, for their own personal profiteering.
- Attorney General William Barr has been formally asked, by Applicants, to appoint a federal Special Counsel to investigate this matter.
- The Dark Money FEC campaign finance limits were exceeded by the Silicon Valley oligarchs by many magnitudes in this novel deployment of quid-pro-quo and search engine rigging services for political favors and funding.
- There has not been a single person involved in "green" DOE funding programs who cared anything about "green energy". The use of the term "green" was a psychological ploy to seek to pacify the public with a crunchy granola positive vibe while stealing taxpayer money in plain sight.
- The Obama White House produced a "white list" of friends companies who could get funded and a "black list" of their competitors who could never be funded because Silicon Valley financiers said so. These lists were created from input from John Doerr, Steve Westly and Doerr's business partner: Al Gore. Even though most Applicant's beat the metrics, features and national security issues of favored Obama Applicant's, no outsiders and no non-campaign financiers would ever be approved.
- The very first Applicant for the ATVM fund was XP Vehicles, which was solicited to apply by DOE and Barbara Boxer's office. The 1.) Section 136 law, 2.) DOE videos of meetings and 3.) DOE documents clearly state that Applicant's would be reviewed on a "**first-come, first served**" basis per the federal law. When XP, which was black-listed by the White House because it competed with Obama financiers Tesla and Fisker, moved far ahead in the Applicant list, DOE illegally changed the rules so that "first come - first served" was ignored and only favored insiders were reviewed. XP, Brammo, EcoMotors, Elio, etc. were all "bottom drawered". Even though XP hand delivered, to DOE and Congress, more customer order proofs than ALL other Applicant's combined, DOE insiders, who held stock in competing companies, placed XP on a permanent black-list.
- As of December 28, 2008 DOE staff already decided who would "win" the money, and who would not, because the entire program had been hard-wired, via lobbyists and insiders, to only go to the "white list" applicants. Nobody who was not on the original "white list" could ever get DOE funding. It only takes one "insider" at DOE, from the Obama Administration (many are still there) to kill any application, no matter how much better that proposal is compared to every other applicant.
- U.S. Department of Energy and White House officials hired Nick Denton's sleaze-ball tabloid empire comprised of Jalopnik, Gawker Media and Gizmodo Media to run character assassination and

defamation campaigns, in partnership with the DNC's Google, to attack any person who exposed the corruption scam at DOE.

- The GAO wrote multiple federal reports confirming that DOE was running one of the most poorly administrated non-transparent operations ever and that DOE staff were not even following the Section 136 law.

- White House and DOE staff hired Gawker, Gizmodo, Jalopnik defamation bloggers to attack those who exposed the plot. Patrick George At Jalopnik attacks outsiders under contract with Elon Musk and DNC. Silicon Valley campaign finance oligarchs hire him to run hatchet jobs on innocent outsiders and then Gawker-Gizmodo-Jalopnik uses their financial partnership with the DNC's Google to push the character assassination articles to the top of Google web products and searches. Patrick George, Adrian Covert, John Hermann and Nick Cook are the sexually degenerate cabin boys that report to boy-loving sleaze-tabloid oligarch Nick Denton. They created the Fake News crisis in the media by flooding the internet with defamation posts and reprisal hatchet job articles designed to damage political enemies of the Socialists. They coordinate a large number of the character assassination efforts at Gawker, Gizmodo, Jalopnik, CNN, New York Times and other propaganda outlets.

- DOE staff never even communicated with Applicant's, who were not Obama insiders; yet Tesla, Fisker and other Obama insiders got hundreds of phone calls, meetings and careful help to hand-hold them through the process to make certain that they got their payola while the outsiders only got blockades, Lois Lerner "missing hard drives" and stone-walls.

- The DEFRAUDED staff and employees of Bright, XP, Limnia, ZAP, Brammo, and the other Applicant's, have **NEVER** gotten a fair court hearing, Congressional or IG hearing that was not compromised by an Obama Judge or stock-owning insider. They are owed money for their damages from the deeply corrupt DOE programs!

- The Obama Administration officials who carefully manipulate the DOE and federal process for crony favorites include: Steven Chu, Kathy Zoi, Carol Battershal, Steve Westly, Steven Spinner, John Podesta, Jonathan Silver, Danial Cohen, et al; with cover-up support from James Comey, Eric Holder, Steve Rattner, et al...

- Over a thousand other criminal and ethics violation charges are charged against DOE and its associates yet no actual interdictions have taken place in California or federal government actions because the "Deep State" cover-ups are so extensive. The raw criminality of the U.S. Department of Energy in these matters is verified, proven and audacious...

'Treason!' - AG Barr Finds 'Government Power Was Used By Obama Administration To Spy On American Citizens And Run Dirty Tricks Reprisal Operations'

by [Tyler Durden](#)

In his first pair of interviews since being sworn in, Attorney General Barr told [Fox News](#) and [WSJ](#) that he was pursuing the investigation into the origins of the Trump-Russia probe - an investigation [he has tasked](#)

[John Durham, the US Attorney from Connecticut](#), with leading - because Americans need to know whether the government "**put a thumb on the scale**" to try and undermine President Trump both during the campaign and during the first two years of his term, just like "**we need to ensure that foreign actors don't influence the outcome of our elections.**"

Separately, he told [WSJ](#) that "**government power was used to spy on American citizens...**I can't imagine any world where we wouldn't take a look and make sure that was done properly."

Barr has doubled-down on using the term 'spying', which has angered Democrats, after first using it during Senate committee testimony from April 10, where he uttered the now-infamous phrase "I think spying did occur."

The AG has declined to elaborate on what prompted these concerns, **though he has said he'd be interested to see the underlying intelligence that sparked the FBI decision**, in the summer of 2016, to open a counterintelligence investigation. At this point, **Durham's review isn't a criminal investigation**, and Barr hasn't offered a timetable for when the investigation might be completed. Ultimately, the probe could lead to changing FBI protocols involving investigations into political campaigns.

Appearing to respond to Barr's interviews, President Trump declared that his campaign was "conclusively" spied on.

My Campaign for President was conclusively spied on. Nothing like this has ever happened in American Politics. A really bad situation. TREASON means long jail sentences, and this was TREASON!

— Donald J. Trump (@realDonaldTrump) [May 17, 2019](#)

As far as we know, the FBI first started investigating the campaign after an Australian ambassador told his superiors that George Papadopoulos had appeared to know about Russian plans to release 'dirt' on Hillary Clinton. The FBI later sent an informant, Stefan Halper, and a woman who identified herself as a research assistant, to meet with Papadopoulos and push him to say whether Russia was helping the Trump campaign.

The Corrupt Mafia-like Greentech VC Influence Over Washington

Katie Fehrenbacher

[- How Silicon Valley Oligarchs Took Over The Obama Administration](#)

There've been a couple articles in the past few weeks pointing to President Obama as the "[clean tech investor in chief](#)" and the [presidential VC with bets on clean energy](#). The real trend is that venture capitalists focusing on greentech seem to have had an unprecedented influence on U.S. federal policy and allocations of the stimulus package.

When I attended the Department of Energy's (DOE) first [ARPA-E conference](#) (Advanced Research Projects Agency-Energy) earlier this year in Washington D.C., I was struck by how many venture capitalists were there. I shared a cab back to the airport with some familiar Silicon Valley faces, and was told if your firm didn't have a dedicated person in Washington — in some circles they call them lobbyists — maneuvering grant and loan programs, you weren't able to be competitive.

Just look at the figures from the stimulus package (which I am fully in support of): somewhere between \$50 billion and \$80 billion into clean power and energy efficiency initiatives ([depending on how you slice it](#)). The Obama administration has gone out of its way to seek the advice of green-leaning venture capitalists and entrepreneurs in the Valley on how to spend that colossal amount and what programs would be the most affective.

Kleiner Perkins managing partner John Doerr is on President Obama's [Economic Recovery Advisory Board](#), and was able to convince Vice President Al Gore to join Kleiner, in addition to former Secretary of State Colin Powell. Kleiner's investments have had some successful government bids, most notably the [\\$529 million loan to Kleiner portfolio](#) company Fisker Automotive out of the DOE's highly competitive Advanced Technology Vehicles Manufacturing, or ATVM, program. Fisker plans to use the loan to build its factory and launch its electric vehicle in 2011.

If you remember, another winner of the \$25 billion ATVM program was Tesla Motors (s TLSA), which, as most of us know, was backed by venture capitalists from Draper Fisher Jurvetson, Technology Partners, and Vantage Point among others.

I attended Khosla Venture's LP meeting earlier this year where the firm [announced that former UK Prime Minister Tony Blair](#) would be joining the firm as Senior Advisor. Several of my journalism peers were comparing the political influence Blair could wield to what Kleiner was doing with Gore.

The Obama administration appointed [former venture capitalist Jonathan Silver](#) as its loan chief to lead both the DOE's loan guarantee and ATVM loan programs. About a third of the DOE's loan guarantee commitments went to venture-backed startups, including thin film solar maker Solyndra and solar thermal company BrightSource.

I [wondered earlier this year](#) if the loan guarantee for Solyndra wasn't a mistake, given the company has one of the highest manufacturing costs out of its competitors. The company withdrew its IPO plans, citing poor market conditions. The Government Accountability Office also found that the loan guarantee process treated some companies unfairly in their bids and risked "excluding some potential applicants unnecessarily."

There's nothing inherently wrong with venture-backed companies getting government support, and the energy sector needs even more federal funding to create innovation. I support Doerr and Bill Gates' [calls for boosting federal government](#) investing to \$16 billion per year into energy innovation. All I'm saying is that this level of influence should be watched.

HONG KONG (Reuters) - A Tesla Inc electric car caught fire in a parking lot in a Hong Kong shopping mall, the Apple Daily newspaper said on Tuesday, but no one was injured in the blaze, whose cause was not immediately known.

The electric car burst into flames 30 minutes after being parked in the city's San Po Kong district on Sunday, the newspaper said, with three explosions seen on CCTV footage.

Firemen took 45 minutes to douse the fire.

The vehicle was a Tesla Model S 85 KWH dual power version, added the paper, which gave no explanation of what might have caused the blaze.

Responding to a request from Reuters, Tesla declined to comment. Reuters was not able to contact the vehicle owner or obtain CCTV footage of the incident.

Hong Kong's fire services department told Reuters a vehicle caught fire on Sunday, but gave no details, such as the make of the car. Authorities are investigating the cause.

The incident comes three weeks after Tesla said it had sent a team to investigate a video on Chinese social media that showed a parked Tesla Model S car exploding in the commercial hub of Shanghai.

The automaker has said its EVs are about 10 times less likely to experience a fire than petrol-powered cars.

There have been at least 14 instances of Tesla cars catching fire since 2013, most of them after a crash.

DEADLY EXPLODING LITHIUM ION BATTERIES AND COBALT CORRUPT MINING SCAMS ARE KILLING AND ROBBING THE PUBLIC WITH DIRTY "BLOOD MINERALS" THAT ARE TOXIC, SELF-IGNITING DANGERS

Lithium ion batteries: Cause wars in the Congo, Afghanistan and Bolivia from the corrupt mining deals involved with mining lithium and cobalt; are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu; excrete chemicals that mutate fetuses when they burn; destroy your brain, lungs and nervous system when they burn; kill the factory workers who make them; cause Panasonic to be one of the most corrupt companies in the world; poison the Earth when disposed of; can't be extinguished by firemen; poison firemen when they burn; are based on criminally corrupt mining schemes like URANIUM ONE; Have over 61 toxic chemicals in them; come from an industry that spends billions on internet shills and trolls used to nay say all other forms of energy; are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers.

NiCad Batteries and hundreds of other battery types do not have this many problems... but the ownership of the lithium mining business by Elon Musk, his Silicon Valley cartel and California Senator's families causes other solutions to be hidden, the dangers of lithium ion to be hidden and a

monopoly to exist.

Apple products with lithium ion batteries have been exploding and setting people on fire; over time the chemical dendrites inside each battery grow worse and increase the chances of explosion as they age - LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE; "Bad Guys" have figured out how to make them explode remotely; have their dangers hidden by CNN and MSM because pretty much only the DNC people profit from them; are the heart of Elon Musk's stock market scam.

The Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging; United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT & NHTSA from outlawing them. WRITE YOUR ELECTED REPRESENTATIVE AND DEMAND THAT LITHIUM ION BATTERIES BE MADE ILLEGAL TO SELL! NiCAD and Hundreds of other battery chemistries DO NOT have all of these problems but Lithium Ion batteries get a monopoly because of politician insider trading ownerships. A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him. In Florida two kids died in a Tesla, burned alive, screaming in agony. A man died in agony in a Tesla crash in Malibu that set Malibu Canyon on fire. A young woman, at the start of life, and her boyfriend were burned alive in their crashed Tesla.

There are many more deaths and crashes than you have heard about. The deaths and the cover-ups are endless. Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public. They, and their crony's, spend over \$1B a year to shill and troll hype about lithium ion batteries and cover-up the dangers. Lithium ion EVs are more prone to battery fires. Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out. Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames. Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk. Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers.

Elon Musk exists because he bribed DNC politicians and Senators Feinstein, Reid, Boxer, Harris, Clinton and Pelosi to give him free taxpayer cash and government resources from the Dept. of Energy and the Calif treasury. DOE has been covering-up organized crime activities at DOE in which DOE funds are being used as a slush-fund to pay off DNC campaign financiers and to pay for CIA/GPS Fusion-Class attacks on Silicon Valley business competitors of those DNC campaign financiers who DOE staff share stock market holdings with. Elon Musk is a criminal, a mobster, an asshole, a bald fake-hair wearing, plastic surgery-addicted, douchebag, woman-abusing, sex addicted, tax evader. Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and

Cobalt.

Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-aggrandizement articles about himself. Musk thinks he is the 'Jesus' of Silicon Valley. Fake News manipulator Google is run by Larry Page and Larry is Musk's investor and bromance butt buddy. Musk uses massive numbers of shell companies and trust funds to self-deal, evade the law and hide his bribes and stock market insider trading. A huge number of Tesla drivers have been killed; pedestrians and oncoming drivers have also been killed, and Musk covers it up. The DNC and the MSM refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes. Musk has been professionally diagnosed as a 'psychotic narcissist.' A 'Silicon Valley Mafia; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates.

In EVERY blog that you read that mentions 'Musk', at least 1/3 of the comments have been placed their by Musk's paid shills. Musk holds the record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders. Elon Musk has gone out of his way to hire hundreds of ex-CIA staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates. Musk never founded his companies. Musk's "Starlink" satellites are domestic spy and political manipulation tools - never get your internet from one. Musk stole Tesla in a hostile ownership take-over from Marty the true inventor of the Tesla. The same kind of EMF radiation proven to cause cancer from cell phones exists in massive amounts in a Tesla.

Musk can't fix a car or build a rocket and has almost no mechanical skills. If you pull a report of every VIN# of every Tesla ever built and cross reference that with insurance, repair and lawsuit records you will find that the "per volume" fire, crash, death and defect rate is THE WORST of any car maker in history! Musk is a lying con artist and partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of 18 men who rig stocks and valuation bumps for Musk. Over 1000 witnesses can prove every one of those claims in any live televised Congressional hearing! Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies. That is why they criminally help cover-up investigations of Tesla! All of this was reported, in writing, to James Comey, Patricia Rich and David Johnson at the FBI.

The DNC bosses own the stock in lithium, Solar and EV markets and use kickbacks from those markets (Especially via convoluted campaign finance laundering via Elon Musk) to finance the DNC. The DNC bosses use character assassination as their main political tool against any member of the public who speaks out against their felony stock market scams and PizzaGate-like scandals. The Harvey Weinstein reports by Ronan Farrow show that they have teams of hired goons that they pay to destroy people's lives. They use Black Cube, Mossad, In-Q-Tel, Stratfor, Gawker Media, Gizmodo Media, Media Matters, David Brock, Sid Blumenthal, NY Times, Google servers, Facebook servers, Podesta Group, Perkins Coie, Covington & Burling and a host of "assassins".

It should be a felony to hire character assassins in the USA. DEMAND A LAW and DEMAND the termination of these attack services. IE: Gawker and Gizmodo Media sets-up the attack stories and, in paid partnership with Google, Google kicks their attack links around the globe, in front of 8 Billion people, forever. Google locks the attack articles of its enemies on the front top search results of Google search results forever, on purpose! That is why Google is being terminated in the largest, most well resourced anti-corruption public service take-down in history!

He took over Tesla and ran it into the ground, he destroyed SolarCity with his brothers self-dealing scam, his brain cap company just cuts open the heads of helpless animals and all SpaceX does, now that Musk took it over, is launch satellites that spy on civilians and manipulate media..."

etc.....

You may have run across Musk's self promoting, narcissistic, multi-billion dollar, self-aggrandizing PR hype but here is the other side of the coin. We know these facts from personal interaction with Musk, his companies and his politicians. Everything in this letter can be proven in a jury trial, Congressional hearings or live TV debates. Musk will do anything to keep this information from getting out but... it is too late for him! While this may sound like a bad Hollywood movie script. It all really happened and there is now massive hard copy evidence to prove it.

Elon Musk exists because he bribed DNC politicians including Obama, Clinton and Senators Feinstein, Reid, Boxer, Harris, Spier and Pelosi to give him free taxpayer cash and government resources from the Department of Energy and the California political tax pool. This is proven when you follow-the-money and the insider trading, stock ownership and crony payola kick-backs.

The Energy Dept (DOE) has been covering-up organized crime activities at DOE in which DOE funds

are being used as a slush-fund to pay off DNC campaign financiers and to pay for CIA/GPS Fusion-Class attacks on Silicon Valley business competitors. DNC campaign financiers and DOE staff share stock market holdings with each other under family trusts, shell corporations and layered Goldman Sachs accounts. The deal was: Obama funds Tesla, Musk conduits campaign funds to Obama, top Obama staff profit off of insider Musk stocks.

Elon Musk is a criminal, a mobster, an asshole, a balding fake-hair wearing, plastic surgery-addicted, bi-sexual douchebag, woman-abusing, sex addicted, tax evader. We can put this in writing because all of those identifications regarding Musk can be proven in court and are documented in existing lawsuits and news stories.

Musk exploits poor people and child slaves in the Congo and Afghanistan to mine his lithium and Cobalt. Look up this phrase on the top search engines: “child labor electric car batteries”.

Musk spends billions per year to hire Russian trolls, fake blogger fan-boys and buy fake news self-glory look-at-me articles about himself. Musk thinks he is the 'Jesus' of Silicon Valley and he will do anything to make the public think so. Musk is insecure because his father was abusive and his “trophy wife” Mother is overbearing so he developed sociopath-like mental issues. Musk has been professionally diagnosed as a 'psychotic narcissist. He public stated on an investor call that he uses drugs and alcohol to get through the night. We have the tapes.

Musk relies on Google and the DNC Main Stream News (MSN) to hide bad news about him. Fake News manipulator Google is run by Larry Page. Larry is Musk's investor and bromance 'Butt buddy'. They share an apartment. Musk uses massive numbers of shell companies and trust funds to self-deal, evade the law and hide his bribes and stock market insider trading. His brother ran Solar City and is now under federal investigation for securities fraud.

A huge number of Tesla drivers have been killed; pedestrians and oncoming drivers have also been killed, and Musk covers it up.

The DNC and the MSM refuse to allow any articles about Musk's crimes to be printed because they benefit from Musk's crimes. VC's Tim Draper and Steve Jurvetson are so fanatical about not being embarrassed from a Tesla bankruptcy that they will pump the TSLA stock and threaten anybody who might disclose the Musk misdeeds. Peter Thiel, a Musk 'boyfriend' also protects Musk. Musk, and his cronies, use Palantir, Google and related software to scan the entire internet every few minutes for any occurrence of the words: “Musk”, “Tesla” or “Tesla Fire”. They send trolls and fake bloggers (Many of them Russian) to put pro-Musk comments on the comments section of any blogs or articles discussing those topics and try to flood out the truth about Musk. In EVERY blog that you read that mentions 'Musk', at least 1/3 of the comments have been placed their by Musk's paid shills. There are no “Tesla Fan Boys”. All of the fanatic Tesla comments on the internet are Musk's, Thiel's, Jurvetson's and Draper's fake fanboy trolls. Musk, himself, stays up late at night pretending to be a 'Tesla Fan Boy' on

blogs.

The 'Silicon Valley Mafia; cartel of frat boy sociopath venture capitalists like Steve Jurvetson, Tim Draper, Eric Schmidt, et al; threaten those who do not support the cult of Tesla or their political candidates.

Musk holds the record for getting sued for fraud by his investors, wives, former partners, employees, suppliers and co-founders. Elon Musk has gone out of his way to hire hundreds of ex-CIA and In-Q-Tel staff and assign them to "dirty tricks teams" to attack his competitors and elected officials who Musk hates.

Musk never founded his companies. He took Tesla away from the founder: Marty, in a hostile take-over!

Musk's "Starlink" satellites are domestic spy and political manipulation tools - never get your internet from one. SpaceX is entirely a spy satellite operation.

The same kind of EMF radiation proven to cause cancer from cell phones exists in massive amounts in a Tesla.

Musk can't fix a car or build a rocket and has almost no mechanical skills.

If you pull a report of every VIN# of every Tesla ever built and cross reference that with insurance, repair and lawsuit records you will find that the "per volume" fire, crash, death and defect rate is THE WORST of any car maker in history!

Musk is a lying con artist and partners with Goldman Sachs to rig the stock market. Sachs has a dedicated team of 18 men who rig stocks and valuation bumps for Musk.

Over 1000 witnesses can prove every one of those claims in any live televised Congressional hearing! Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies. That is why they criminally help cover-up investigations of Tesla! All of this was reported, in writing, to James Comey, Patricia Rich and David Johnson at the FBI.

Why aren't all of those parties in prison if it is so easy to prove the crime? Think back to recent history: the heads of the Department of Energy, the FBI, The DOJ and the U.S. Attorney General were kicked out of their jobs for corruption. THIS was the corruption they were doing. They all knew about this crime but they were covering it up.

Musk took over Tesla Motors in a hostile take-over in order to exploit lithium, cobalt and other mining

corruption deals for his business partners. Let's take a look at the 'lithium' in Musk's horrifically miss-engineered lithium ion batteries:

His batteries cause wars in the Congo, Afghanistan and Bolivia from the corrupt mining deals involved with mining lithium and cobalt. Lithium ion batteries are insider trading-owned by ex-CIA boss Woolsey and DOE Boss Chu. Lithium ion batteries excrete chemicals that mutate fetuses when they burn; destroy your brain, lungs and nervous system when they burn; kill the factory workers who make them; cause Panasonic to be one of the most corrupt companies in the world; poison the Earth when disposed of; can't be extinguished by firemen; poison firemen when they burn; are based on criminally corrupt mining schemes like URANIUM ONE; Have over 61 toxic chemicals in them; come from an industry that spends billions on internet shills and trolls used to nay say all other forms of energy; and are insider-trading owned by corrupt U.S. Senators who are running a SAFETY COVER-UP about their dangers.

Apple products with lithium ion batteries have been exploding and setting people on fire. Over time the chemical dendrites, or deposits, inside each battery grow worse and increase the chances of explosion as they age - LITHIUM ION BATTERIES BECOME MORE AND MORE LIKELY TO EXPLODE AS TIME GOES ON AND AS THEY AGE. This is not a theory. This is a scientific fact. That is why you hear about more and more lithium batteries catching fire and blowing up. Additionally, scientists also speculate that the increasing presence of low energy nuclear background energy and wifi energy in the environment is making lithium ion batteries explode more often lately. This theory is upheld by the increasing number of FAA reports about commercial airline cabins suddenly "filling up with toxic smoke" as some lithium ion battery explodes in someones overhead luggage. As commercial jets go higher they lose the protection of the atmosphere and are subjected to more gamma (and other) radiation from overhead. This makes the already unstable lithium ion batteries on board blow up.

"Bad Guys" have figured out how to make them explode remotely in devices by making the device electronics cause the batteries to overload. The dangers of lithium ion batteries are hidden by CNN and Main Stream News (MSN) because pretty much only the DNC people profit from them and the DNC folks control CNN and the MSN.

The Obama Administration promised Silicon Valley oligarchs the market monopoly on lithium ion batteries and the sabotage of fuel cells in exchange for campaign financing and search engine rigging; United States Senators that are supposed to protect us from these deadly products own the stock market assets of them so they protect them and stop the FDA, OSHA, DOT & NHTSA from outlawing them.

Tom Steyer is a notorious DNC financier. His partner, Margaret Sullivan ran, the federal USAID agency, USAID sent all of the DNC campaign financiers in Silicon Valley a federal 'report' from USAID that said there was "A TRILLION DOLLARS OF LITHIUM IN AFGHANISTAN" and promised to give those lithium mines, EXCLUSIVELY, to the Silicon Valley venture capitalists if they funded and web search manipulated the election for Obama to take over the White House. We have the

documents proving this. In other words, a re-up of the Afghan War was caused by Elon Musk and it killed American soldiers so that Musk could buy more mansions and trophy wives.

Alkaline, NiCAD and hundreds of other battery chemistries DO NOT have all of these problems but Lithium Ion batteries get a monopoly because of politician insider trading ownerships.

Tesla Motors has caused far more deaths and injuries than the world generally knows about. A recent fire on U.S. Highway 101 near Mountain View, CA, burned the driver alive and killed him. In Florida two kids died in a Tesla, burned alive, screaming in agony. A man died in agony in a Tesla crash in Malibu that set Malibu Canyon on fire. A young woman, at the start of life, and her boyfriend were burned alive in their crashed Tesla. There are many more deaths and crashes than you have seen in the Main Stream News (MSN) The deaths and the cover-ups are endless.

Senators Dianne Feinstein, Harry Reid, Nancy Pelosi, Kamala Harris and their associates own the stock in Tesla Motors and/or it's suppliers and mining companies and they cover-up and halt investigations and laws designed to save the public. They, and their crony's, spend over \$1B a year to shill and troll hype about lithium ion batteries and cover-up the dangers. Lithium ion EVs are more prone to battery fires. Experts say that their lithium-ion batteries can fuel hotter fires that release toxic fumes and are more difficult to put out. Lithium ion fires keep reigniting which explains why it takes so long and requires copious amounts of water or foam (it is an electric fire, after all) to smother the flames. Tesla employee Bernard Tse and his team warned Elon Musk about these dangers in 2008 and they got fired and/or warned to "say nothing" by Musk. Three top Tesla engineers died in a plane crash next to Tesla offices in San Carlos after two of them agreed to become whistle-blowers.

The DNC bosses, Congress people and federal executives own the stock in lithium, Solar and EV markets and use kickbacks from those markets (Especially via convoluted campaign finance laundering via Elon Musk) to finance the DNC.

The DNC bosses and Musk use character assassination as their main political tool against any member of the public who speaks out against their felony stock market scams and PizzaGate-like scandals. The Harvey Weinstein reports by Ronan Farrow show that they have teams of hired goons that they pay to destroy people's lives.

They use Black Cube, Mossad, In-Q-Tel, Stratfor, Gawker Media, Gizmodo Media, Media Matters, David Brock, Sid Blumenthal, NY Times, Google servers, Facebook servers, Podesta Group, Perkins Coie, Covington & Burling and a host of "media assassins".

Gawker and Gizmodo Media set-up the attack stories and, in paid partnership with Google, Google kicks their attack links around the globe, in front of 8 Billion people, forever. Google locks the attack articles of its enemies on the front top search results of Google search results forever, on purpose! Google and Musk are partners-in-crime. Larry Page steals technology for Google and Musk meets with

Larry Page to advise him on which technologies to steal and how to bypass FEC laws. Musk has exceeded FEC campaign finance limits by billions of dollars via “in-kind” services.

Tesla's out-of-control sudden-acceleration surge defects and exploding batteries are not as bad as Tesla's out-of-control corruption and bribery.

HOW THE DEPARTMENT OF ENERGY AND THE OBAMA WHITE HOUSE ATTACKS ANYBODY WHO EXPOSES THE SCHEME:

How and why did a Donald Trump stripper-date named "Stormy" or an Elon Musk sex party or a Kavanaugh drinking incident or the Moonves and Weinstein indiscretions suddenly hit the news at about the same time in news history?

In addition to actual murder, Politicians and Silicon Valley Oligarchs hire operatives to end people's lives in other creative ways.

It is all part of the modern trend in vendetta, revenge and political payback when a Senator or a tech oligarch issues a "kill order" on an opponent.

The client does not like to get their hands dirty so the actual social hit job is performed by companies such as:

IN-Q-Tel - (DNC); Gawker Media - (DNC); Jalopnik - (DNC); Gizmodo Media - (DNC); K2 Intelligence - (DNC); WikiStrat - (DNC); Podesta Group - (DNC); Fusion GPS - (DNC/GOP); Google - (DNC); YouTube - (DNC); Alphabet - (DNC); Facebook - (DNC); Twitter - (DNC); Think Progress - (DNC); Media Matters - (DNC); Black Cube - (DNC); Mossad - (DNC); Correct The Record - (DNC); Sand Line - (DNC/GOP); Blackwater - (DNC/GOP); Stratfor - (DNC/GOP); ShareBlue - (DNC); Wikileaks (DNC/GOP); Cambridge Analytica - (DNC/GOP); Sid Blumenthal- (DNC); David Brock - (DNC); PR Firm Sunshine Sachs (DNC); Covington and Burling - (DNC), BuzzFeed - (DNC) Perkins Coie - (DNC); Wilson Sonsini - (DNC) and hundreds of others... These are the people and companies that except cash, revolving door jobs, political appointments, insider trading stock in Silicon Valley tech companies, prostitutes and real estate in exchange for destroying the lives of others.

These attackers deserve to be punished for the rest of their lives for taking away the lives of others in exchange for cash. Any company who is corrupt enough to hire any of these assassins should be forced out of business. These attack services are responsible for 90% of the "Fake News" problem in the world because they are the authors of most fake news. Congress must act to make these kinds of companies illegal!

These digital assassination services offer hit-jobs, character assassinations and economic reprisal programs to famous billionaires and corrupt politicians who are seeking revenge, retribution and vendetta executions.

In the case of reporters getting targeted for attacks, President Donald Trump has been accused by the liberal corporate media of whipping up a hateful frenzy against the press. But while CNN's Jim Acosta grandstands against Trump, real journalists are still reeling from the draconian extrajudicial measures that Barack Obama and his administration used to target them for exposing truth.

This secretive targeting occurred while Obama speechwriter and hate-filled ANTIFA supporter Ben Rhodes was running "Operation Echo Chamber," which reportedly continues, in which he fed

information to willing corporate media scribes. “They literally know nothing,” Rhodes said of the twentysomething journalists he easily manipulated.

The Freedom of the Press Foundation’s Trevor Timm published documents showing how former attorney general Eric Holder changed the rules to more effectively intimidate and surveil members of the press.

Timm writes: “Today, we are revealing—for the first time—the Justice Department’s rules for targeting journalists with secret FISA court orders. The documents were obtained as part of a Freedom of Information Act lawsuit brought by Freedom of the Press Foundation and Knight First Amendment Institute at Columbia University.”

Trending: Brennan and Clapper Accused of Hacking John Roberts To Blackmail Him

Here is the memo published by the Foundation, which dropped the documents in their entirety:

Obama is also clearly linked to the plot to obtain fraudulent FISA warrants on President Trump’s team, as evidenced by Peter Strzok and Lisa Page’s texts confirming that Obama was overseeing their fly-by-night operation.

Larry Schweikart reported for Big League Politics:

For months pundits and researchers have been pondering the mystery of the FISA approval that led to the illegal and historically titanic scandals to ever hit the U.S. government. Some have argued that Assistant Attorney General Rod Rosenstein knew the FISA was bogus when he extended it. Others have wondered if Special Counsel Robert Mueller knew about the fraudulent basis of the FISA when he used it, in part, to indict Michael Flynn. Other still, that Mueller was fooled by the FBI.

This is what President Trump calls “SPYGATE”.

It may well be that the surveillance that was conducted began with UK intelligence services and then was fed back to the White House of Barack Obama. Here’s the kicker:

President Barack Obama did not need a FISA warrant to authorize spying/electronic surveillance on Trump because Obama all along had legal authorization to by-pass the normal court vetting process. According to 50 U.S. Code 1802, the “Electronic Surveillance Authorization” () “Foreign intelligence in relation to a US person (Trump or his associates) is information that’s necessary for the US to protect against attack, hostile acts, sabotage, . . . as well as other clandestine activities by a foreign power . . . OR . . . information relevant to national defense/security of the US, or the conduct of foreign affairs of the U.S.” Such an authorization by Obama required certification by Attorney General Loretta Lynch that must be logged with the FISC court. (“The [AG]+ shall immediately transmit under seal to the

court [FISC] a copy of his certification.”)

In short, the DOJ has this. If we are correct, a copy of that certification is currently under seal at least with the DOJ and the FISC. This is what they are hiding.

However, the Act requires the AG to keep the Select Committee on Intelligence and the Senate Committee on Intelligence informed of these authorizations and unmaskings therein. See 1803 (a) (1) (C) If indeed this is what happened, did Lynch report—or only selectively report—to the committees in a way that excluded non-friendlies? Can you see why Adam Schiff, Mark Warner, and their ilk are terrified?

1) Obama authorized spying/electronic surveillance on Team Trump, by-passing normal judicial oversight.

2) To create “foreign intelligence,” John Brennan and others organized for UK intelligence to conduct surveillance on Trump and his associates, either from the UK or from UK assets within the U.S. This is another reason revealing this will unleash an excrement storm: the UK is about to be caught meddling bigly in an American election.

3) Lynch certified Obama’s authorization which is now held under seal by DOJ (and FISC).

From this authorization, all unmaking followed, as well as the FBI fraudulent counter intel investigation and perhaps the FISA warrant too. Obama knew this was all fake when he made the authorization; Lynch knew it was fake when she certified it; the entire inner circle, including the FBI, all knew. This takes the U.S. into uncharted territory, and could imperil any politician in the British government who supported this or had knowledge of it. Proving any of this would be difficult, as if confronted Lynch would almost certainly cover up and Obama would simply deny knowledge. Without a paper trail, a conviction might be a bridge too far. This is only one of thousands of “kill order” tactics introduced by the Obama Administration.

These are the playbook tactics that Senators and tech oligarchs most often use to destroy the lives of their political and business enemies:

- Government agency bosses sometimes solicit the target victims with false promises of future loans, contracts or grants from their agency and cause the target victims to expend millions of dollars and years of their time for projects which those government bosses had covertly promised to their friends. They use the target victims as a “smokescreen” to cover their illegal government slush-funds for the victims competitors and personal enemies. By using this tactic, the attackers can drain the target victims funds and force them into an economic disaster in plain view of everyone without the government bosses fearing any reprisal for their scam.

- Every match.com, okcupid.com, Plenty Of Fish, Seeking Arrangements and all other IAC-owned, or similar, dating sites (IAC is managed by Hillary Clinton's daughter) have had their profiles, texts, and inter-member communications, since those companies were started, hacked or purchased. The attack service providers use Palantir and In-Q-Tel financed data analysis software to analyze every activity in those dating services in order to find honey-trap, blackmail, sextortion and social conflict exploitation opportunities. If you had a bad date with someone, that someone will be hunted down and convinced to help harm, #metoo or "rape charge" the intended target. All dates involve a search for sex, so the likelihood that a sexual disappointment experience will exist in each persons dating history is high. Searching every past dating email and text of a subject is quite easy with modern software and hacking techniques. A synthetically amplified, PR-agency optimized sex scandal can destroy any target. Your dating experiences from the 70's or 80's will come back to haunt you decades later. Most dates involve drinking alcohol and taking drugs. If you were unattractive or had bad sexual skills your bad date will be called "date rape", "drugging your date for sex" and related twisted narratives that are designed to shame you, the target. If you try to get a date in the future, your potential date will be contacted by a third party who will slander and libel you to make sure your potential first date gets cancelled. Your social life will, essentially, end. Every photo on every dating site is cross checked with every other photo on the internet in order to cull your Facebook, LinkedIn, Snapchat and other social media together to create a total psychological manipulation profile data file on you. A single photo on a dating site can be cross searched on every mugshot archive, photo album and corporate database in the worth within minutes using modern super-computers. Your sex life will be on public record in a flash.

- Social Security, SSI, SDI, Disability and other earned benefits are stone-walled. Applications of targets are "lost". Files in the application process "disappeared". Lois Lerner hard drive "incidents" are operated in order to seek to hide information and run cover-ups.

- Government officials and tech oligarchs contact members of the National Venture Capital association (NVCA) and created national "black-lists" to blockade target victims from ever receiving investor funding. This was also confirmed in a widely published disclosure by Tesla Motors Daryl Siry and in published testimony. If Silicon Valley political campaign finance oligarchs black-list you (see the "AngelGate" Scandal and the "High Tech No Poaching Class Action Lawsuit" cases) you will never get investor funding again.

- FOIA requests are hidden, frozen, stone-walled, delayed, lied about and only partially responded to in order to seek to hide information and run cover-ups.

- State and federal employees will play an endless game of Catch-22 by arbitrarily determining that deadlines had passed that they, the government officials, had stonewalled and obfuscated applications for, in order to force these deadlines that they set, to appear to be missed. This can bankrupt a target victim.

- Some Victims found themselves strangely poisoned, not unlike the Alexander Litvenko case. Heavy

metals and toxic materials were found right after their work with the Department of Energy weapons and energy facilities. Many wonder if these “targets” were intentionally exposed to toxins in retribution for their testimony. The federal MSDS documents clearly show that a number of these people were exposed to deadly compounds and radiations, via DOE, without being provided with proper HazMat suits which DOE officials knew were required.

- Victims employers are called, and faxed, and ordered to fire target victims from their places of employment, in the middle of the day, with no notice, as a retribution tactic.

- On orders from Obama White House officials, DNC-financed Google, YouTube, Gawker Media and Gizmodo Media produce attack articles and defamation videos. Google locks this attack media on the internet on the top line, of the front page of all Google searches for a decade in front of 7.5 billion people, around the world. This attack-type uses over \$40 million dollars in server farms, production costs and internet rigging. The forensic data acquired from tracking some of these attacks proves that Google rigs attacks against individuals on the internet and that all of Google’s “impressions” are manually controlled by Google’s executives who are also the main financiers and policy directors of the Obama Administration. This data was provided to the European Union for it’s ongoing prosecution of Google’s political manipulation of public perceptions.

- Victims HR and employment records, on recruiting and hiring databases, are embedded with negative keywords in order to prevent the victim targets from ever gaining future employment.

- Gary D. Conley, Seth Rich, Rajeev Motwani and many other whistle-blowers in these matters, turned up dead under strange circumstances. It is very possible that some of these attack services, operated by former CIA operatives, even offer discrete murder-for-sale services using high-tech assassination tools that make murders look like heart attacks and brain failures.

- Disability and VA complaint hearings and benefits are frozen, delayed, denied or subjected to lost records and "missing hard drives" as in the Lois Lerner case.

- Paypal (A DNC-biased operation) and other on-line payments for on-line sales are de-platformed, delayed, hidden, or re-directed in order to terminate income potential for target victims who competed with the attackers interests and holdings.

- DNS redirection, "website spoofing" sends target victims websites to dead ends where no sales orders or customer inquiries actually get back to the target. These internet revenue activity manipulations are conducted using Google and Amazon servers. All commercial storefronts and on-line sales attempts by target victims, will have had their sites hidden, or search engine de-linked by a massively resourced facility located in Virginia, Texas or Palo Alto, California in order to terminate revenue potentials for the target victims.

- Over 50,000 trolls, shells, botnets and synth-blog deployments are deployed to place defamatory statements and disinformation about victims in front of 7.5 billion people around the world on the internet in order to seek to damage their federal testimony credibility by a massively resourced facility.

- Campaign finance dirty tricks contractors are hired by campaign financiers to attack the friends and family members of the target victim in order to create low morale for the target victims psyche and motivation.

- Are you getting weird headaches and hearing a "buzzing sound" in your head? The U.S. Government has now acknowledged that the Cuban, Chinese and other embassy "sonic attacks" are from a known microwave beam weapon. Any one of the technical departments of the attack services listed at the top of this article can build such a biological harassment weapon. It can be aimed at the target victims office, bedroom or vehicle and, within a week, have caused biological and emotional damage using a weapon that has no visible track of trajectory. It is designed to make the target victim think they are "going crazy" or "hearing sounds in their head". While this may sound pretty out there, web search "Embassy sonic attacks" on the top 5 non-Google search engines and read the very credible reports of these attacks.

- In one case covert political partner: Google, transferred large sums of cash to dirty tricks contractors and then manually locked the media portion of the attacks into the top lines of the top pages of all Google searches globally, for years, with hidden embedded codes in the links and web-pages which multiplied the attacks on Victims by many magnitudes.

- Covert Cartel financier: Google, placed Google's lawyer: Michelle Lee, in charge of the U.S. Patent Office and she, in turn, stacked all of the U.S. Patent Office IPR and ALICE review boards and offices with Google-supporting employees in order to rig the U.S. Patent Office to protect Google from being prosecuted for the vast patent thefts that Google engages in. Google has hundreds of patent lawsuits for technology theft and a number of those lawsuits refer to Google's operations as "Racketeering", "Monopolistic Cartel" and "Government Coup-like" behaviors. Thousands of articles and investigations detail the fact that Google, "essentially" ran the Obama White House and provided over 80% of the key White House staff. A conflict-of-interest unlike any in American history. Google's investors personally told Applicant they would "kill him". Google and the Obama Administration were "the same entity". Applicant testified in the review that got Michelle Lee terminated and uncovered a tactical political and social warfare group inside Google who were financed by Federal and State funds.

- Honeytraps and moles were employed by the attackers. In this tactic, people who covertly worked for the attackers were employed to approach the "target" in order to spy on and misdirect the subject.

- Gawker Media, Gizmodo Media, Snopes, SPLC and other hired media assassins will be retained to produce "hatchet job" character assassination articles about you. Then those articles will be faxed, mailed and emailed to your employer and investors with a note saying: "You don't want to have

anything to do with this person, do you..?" in order to get you fired from your job and get your loans or financing pulled. The attackers will use their round one attack media, that they authored, to create a round two second wave attack designed to end your life via economic warfare.

- Mortgage and rental applications will have had red flags added to them in databases to prevent the targets from getting homes or apartments.

- Krebs On Security, Wired, Ars Technica, The Wall Street Journal and most major IT publications have reported that hundreds of spy "back-doors" have been found on every Intel, AMD, Apple, Xfinity, Cisco, Microsoft, Juniper Networks motherboard, chip-set and hardware component set. This means that any kid with the "key" code can open any computer, server, router, cloud-network or other network connected device and read every file, photo, video, your calendar and email on your devices at any time from any location on Earth. The key codes have been released to every hacker community in the world for over ten years. There is now no government, corporate or personal data that can't be hacked, even data from decades ago. Every single one of your darkest secrets can be in the hands of your enemy within 60 minutes, or less. Important meetings you had planned with potential investors, employers, clients, dates, suppliers and others will suddenly get cancelled at the last minute. They will get cancelled because your enemies are reading your calendar remotely and covertly sending slander information to those you had hoped to engage with in order to sabotage your life. Nothing you have ever typed on a computer or Smartphone is safe. it WILL be acquired and it WILL be used against you.

- McCarthy-Era "Black-lists" are created and employed against target victims who competed with Obama Administration executives and their campaign financiers to prevent them from getting funding and future employment.

- Obama Administration targets were very carefully placed in a position of not being able to get jobs, unemployment benefits, disability benefits or acquire any possible sources of income. The retribution tactics were audacious, overt..and quite illegal.

- There are thousands of additional Dirty Tricks tactics being used by these Attack Services yet Congress refuses to pass laws out-lawing such attack services. The cost of an attack on a person ranges from \$150,000.00 to over \$50,000,000.00. While a Silicon Valley billionaire can afford to launch counter-measures to these attacks, any regular taxpayer will be utterly destroyed, and incapable of fighting back, against even the smallest version of one of these "kill orders". A number of modern office shootings are the results of these attacks against an individual who has lost everything because of the attack and has no options left.

Federal law enforcement, the United States Congress and the highest level investigators in the U.S., and abroad, have documented (per the "FISA Memo", Congressional Reports and federal employee testimony) and proven the fact that the Obama Administration regularly engaged in the operation of retribution, vendetta and reprisal campaigns known as "hit-jobs" against domestic natural born U.S.

citizen domestic taxpayers. The Federal Court, in at least one previous court case, has ruled that Applicants, in this particular matter, were the victims and target of a number of these attacks designed to inflict permanent medical, emotional, character assassination, brand negation, economic and career damage.

**!!!! Mueller Hears That Silicon Valley Has Been Manipulating The Entire BREXIT Campaign !!
!!!!**

- Second former employee of controversial data firm to be questioned by special counsel's inquiry into Russia collusion

By Carole Cadwalladr

Brittany Kaiser is said to be cooperating fully with the Mueller inquiry.

A director of the controversial data company Cambridge Analytica, who appeared with Arron Banks at the launch of the Leave.EU campaign, has been subpoenaed by the US investigation into possible collusion between the Trump campaign and the Russian government.

A spokesman for Brittany Kaiser, former business development director for Cambridge Analytica – which collapsed after the Observer revealed details of its misuse of Facebook data – confirmed that she

had been subpoenaed by special counsel Robert Mueller, and was cooperating fully with his investigation.

He added that she was assisting other US congressional and legal investigations into the company's activities and had voluntarily turned over documents and data.

Kaiser, who gave evidence to the UK parliament last April in which she claimed Cambridge Analytica had carried out in-depth work for Leave.EU, is the second individual connected to the firm subpoenaed by the special counsel. The Electoral Commission has said its investigation into Leave.EU found no evidence that the campaign "received donations or paid for services from Cambridge Analytica ... beyond initial scoping work".

Damian Collins, chairman of parliament's inquiry into fake news, said it was "no surprise" that Kaiser was under scrutiny by Mueller because "her work connected her to WikiLeaks, Cambridge Analytica and [its parent company] SCL, the Trump campaign, Leave.EU and Arron Banks".

He said it was now vital Britain had its own inquiry into foreign interference: "We should not be leaving this to the Americans."

Tom Watson, the deputy leader of the Labour party, echoed Collins's statement, saying: "This is the first evidence that a significant player in the Leave.EU campaign is of interest to the global Mueller inquiry. People will be bewildered that the British government has no interest in establishing the facts of what happened."

In August, Sam Patten, a US political consultant who had worked for Cambridge Analytica on campaigns in the US and abroad, struck a plea deal with Mueller after admitting he had failed to register as a foreign agent for a Ukrainian oligarch.

He became a subject of the special counsel's inquiry because of work done with Paul Manafort, Trump's campaign manager, in Ukraine. He had also set up a business with Konstantin Kilimnik, a key figure who Mueller has alleged has ties to Russian intelligence and who is facing charges of obstruction of justice. In a 2017 statement to the Washington Post, Kilimnik denied any connection to intelligence services. Kaiser, however, is the first person connected directly to both the Brexit and Trump campaigns known to have been questioned by Mueller.

The news came to light in a new Netflix documentary, *The Great Hack*, which premiered at the Sundance film festival last month and is expected to be released later this spring. Film-makers followed Kaiser for months after she approached the Guardian, including moments after she received the subpoena. She claims the summons came after the Guardian revealed she had visited WikiLeaks founder Julian Assange while still a Cambridge Analytica employee in February 2017, three months after the US election.

One part of Mueller’s investigation focuses on whether the Trump campaign sought to influence the timing of the release of emails by WikiLeaks before the election. Investigators are looking at communications between them. In the film, Kaiser says that she has gone from being a cooperating witness to a subject of investigation because of her contact with Assange.

In October 2017, it was revealed that Alexander Nix, the chief executive of Cambridge Analytica, had contacted Assange in August 2016 to try to obtain emails from Hillary Clinton’s presidential campaign – which indictments from Mueller’s team say were obtained by Russian military intelligence – to use in Donald Trump’s campaign. When Kaiser gave evidence to parliament last year, she was asked about her relationship with Assange and WikiLeaks but failed to reveal that she had met Assange.

In the documentary, Kaiser is shown after receiving an email from the Guardian last June asking about meeting Assange and alleged donations of cryptocurrency to WikiLeaks. Kaiser did not respond to the email at the time, but on camera says: “She knows I met Assange. And she knows I donated money to WikiLeaks in bitcoin.”

Her legal representatives later wrote to the paper to say that the allegations, including that she had “channelled” donations to WikiLeaks, were false. Kaiser said she had received a small gift of bitcoin in 2011 – long before she worked at Cambridge Analytica – and, not knowing what else to do with it, gave it to WikiLeaks, because she had benefited from material it had released over the years.

Her lawyer told the Observer that the meeting with Assange came about after a chance encounter in London with an acquaintance who knew him. It lasted 20 minutes and consisted mainly of Assange telling her “about how he saw the world”. He said they did not discuss the US election.

Patten and Kaiser were involved in a controversial election campaign in Nigeria in January 2015, which former Cambridge Analytica employees say had “unsettling” parallels to the US presidential election.

The Guardian revealed that the data firm had worked alongside a team of unidentified Israeli intelligence operatives on the campaign. Ex-Cambridge Analytica employees described how the Israelis hacked the now-president of Nigeria’s emails and released damaging information about him to the press weeks before the election.

CBS NEWS 60 MINUTES Lara Logan "I’m Being ‘Targeted’ For Saying the Media is ‘Mostly Liberal’"

by Tamar Auber

On Wednesday, former CBS News foreign correspondent Lara Logan spoke with Fox News Sean

Hannity about her recent comments slamming the media as “mostly liberal.”

Logan told Breitbart podcaster Mike Ritland the remarks made on his show — which drew widespread attention online — amounted to “professional suicide.”

Defending her remarks on Hannity’s show, Logan said that as the result of her speaking out about how the media is “mostly liberal” she has been targeted because she is an independent voice.

“Any journalists who are not beating the same drum and giving the same talking points,” she insisted “pay the price” for not going along with the liberal crowd.

She also called out her targeters by name.

“I know they’re going to come after me,” she told Hannity. “Michael Calderone who is at the Huffington Post. I can give you the script now. I can tell you who the players are. Joe Hagan. Brian Stelter.”

She added: “They smear you personally. They go after your integrity. They go after your reputation as a person and a professional. They will stop at nothing. I am not the only one. And I am just, I am done, right, I am tired of it. And they do not get to write my story anymore. They don’t get to speak for me, I want to say loudly and clearly to anybody who is listening, I am not owned. Nobody owns me, right? I’m not owned by the left or the right.”

Logan made headlines recently when, during a scorched earth podcast interview with Ritland, she said that there was a lot of “weight” in most news organizations on “one side of the political spectrum.”

“The media everywhere is mostly liberal. But in this country, 85 percent of journalists are registered Democrats. So that’s just a fact, right?” she told Ritland.

She also trashed reporting based on single, anonymous government sources.

“That’s not journalism, that’s horseshit,” Logan stressed. “Responsibility for fake news begins with us. We bear some responsibility for that, and we’re not taking ownership of that and addressing it. We just want to blame it all on somebody else.”

Internal documents from a private Israeli intelligence firm called Psy-Group show that, at the time of many incidents, the company, and possibly other private investigators, were targeting U.S. citizens because they spoke up about crimes.

Psy-Group’s intelligence and influence operations, which included a failed attempt in the summer of 2017 to sway a local election in central California, were detailed in a New Yorker investigation that I co-wrote earlier this month. Before it went out of business (ie: changed it's name) , last year, Psy-Group was part of a new wave of private-intelligence firms that recruited from the ranks of Israel’s secret services and described themselves as “private Mossads.” Psy-Group initially stood out among its rivals because it didn’t just gather intelligence; its operatives used false identities, or avatars, to covertly spread messages in an attempt to influence what people believed and how they behaved. In 2016, Psy-Group held discussions with the Trump campaign and others about conducting covert “influence” operations to benefit the candidate. Psy-Group’s founder and C.E.O., Royi Burstien, a veteran Israeli intelligence officer who established the firm in 2014, told me that his talks with the Trump campaign went nowhere. The company’s posturing, however, attracted the attention of Robert Mueller, the special counsel, who has been investigating interference in the 2016 Presidential race.'

FED BOMBHELL: Fusion GPS Bribed Dozens of MSM Journalists With Cash To Run Character Assassinations, While News Companies Paid Firm to Dig Dirt on Trump

High-ranking FBI insiders are pulling back the curtain on Fusion GPS, the firm that commissioned and spread the bogus Trump dossier.

It appears the embattled intelligence firm was quite busy paying off Big Media reporters, according to federal sources who have traced dozens of transactions between TD Bank and media members as well as media organizations, sources confirm.

But stunningly, Big Media organizations have employed Fusion GPS to dig dirt on politicians and D.C.’s elite — namely Donald Trump.

“Fusion GPS was on the payroll of the media and in turn had members of the media on its payroll,” one FBI insider said.

Bombshell revelations.

FBI insiders confirm Fusion GPS employed law firms as well as shell companies to send and receive funds to and from media and reporters. But the embattled firm also used its accounts at TD Bank to directly commission reporters. Likewise, Fusion GPS received funds from media companies into its own accounts at TD Bank, FBI insiders said,

“There are dozens of payments from the media flowing into their (Fusion GPS’) account,” one federal law enforcement official said. “One company wired funds to Fusion (GPS) more than a dozen times.”

Why would media companies commission Fusion GPS? Likely to dig dirt on enemies or secure records that reporters could not legally obtain, one federal law enforcement insider said. One FBI insider said the payments to Fusion GPS coincide with Donald Trump's run for the White House.

The payments were made between Sept. 2015 and Sept. 2017, records show.

The unthinkable: The mainstream media paying Fusion GPS for dirt on Trump to the same firm the Democratic National Committee paid to fund the bogus Trump dossier. And at the same time Fusion GPS bribing journalists to place stories — likely negative about Trump, as well as spread the bogus Trump dossier around.

Stunning.

Was BuzzFeed — the only company to publish the full bogus dossier — on that list?

And who is on the payroll? We are trying to run that information down.

And why aren't these people behind bars?

Trump Could Save Taxpayers ‘Billions Of Dollars’ By Straightening Out One Corrupt Energy Department Program, Report Finds

Michael Bastasch | Energy Editor

The Trump administration could save “billions of dollars” if the Energy Department improved its management of radioactive waste cleanups, according to the Government Accountability Office (GAO).

The GAO [report](#), released Tuesday, also reported Congress could save up to \$4.3 billion by eliminating the loan program that gave \$192 million to a failed luxury electric car company.

“The Department of Energy could potentially avoid spending billions of dollars by developing a program-wide strategy to improve decision-making on cleaning up radioactive and hazardous waste,” GAO reported.

The Energy Department is responsible for cleaning up waste from nuclear weapons produced during the Cold War. The department has spent \$170 billion on cleanup since 1989, GAO reported, but lots of radioactive waste remains. **[\(RELATED: The NYT Walks Back Bombshell EPA Report, Doesn't Issue A Correction\)](#)**

The cost of cleanup is growing. The Energy Department estimates future nuclear waste cleanup could cost \$377 billion at 16 sites across the country. GAO says taxpayers could save billions if they took a programmatic approach rather than each nuclear waste site setting its own priorities.

The 200 Area of the Hanford nuclear site is seen in a 1995 aerial photo. Department of Energy/Handout via REUTERS

For example, Energy Department officials estimated \$18 billion in savings from prioritizing high-risk over low-risk waste at the Hanford site in Washington state. The department has yet to determine what it will do with as much as two-thirds of the low-risk waste at Hanford.

The Hanford site cleanup [came under increased scrutiny](#) after a “take cover” order was given in 2017 after a tunnel containing radioactive waste collapsed.

“DOE officials said that they are making progress in implementing a national programmatic approach to the cleanup and will continue to work toward this,” GAO reported. “DOE provided technical comments, which were incorporated as appropriate.”

GAO also highlighted an open recommendation to Congress that could save taxpayers up to \$4.3 billion.

“Unless the Department of Energy can demonstrate demand for new Advanced Technology Vehicles Manufacturing loans and viable applications, Congress may wish to consider rescinding all or part of the remaining credit subsidy appropriations,” GAO reported.

The Obama administration used that loan program to hand out taxpayer funds to electric car companies, including luxury automaker **Fisker Automotive, which drew down on \$192 million before [having its government credit stripped](#) away.**

DOE corruption—appointed and elected officials should face prison time

[Marita Noon](#)

An exhaustive review of [350+ pages of leaked emails](#) regarding the Obama administration’s handling of the various green-energy loan and grant programs makes several things very clear: they [lied](#), engaged in favoritism, and rushed application approvals to suit the political agenda of the White House. At the same time, worthy projects that went through a complete due diligence process were denied or ultimately withdrawn, as the lengthy approval process “taxed investors’ patience”—as was the case with Aptera Motors, which worked closely with the DOE for two years.

Paul Wilbur, President and CEO at Aptera, didn’t think they were treated unfairly. He told me, “At the end of the day, we couldn’t get through the process.” But, he admits, he hasn’t read the emails.

Aptera was trying to build a very efficient electric vehicle with an under \$30K price point. Wilbur met with Secretary Chu who could see the value in the technology. But our research shows that value was

not the deciding factor in which projects got funded and which ones didn't. Wilbur reports that he didn't donate to any candidate. He wanted to keep the whole process clean and do what was "good for America."

[The report](#) from the House Oversight Committee says Aptera first applied for an ATVM loan in December of 2008 and "shut down on December 2, 2011." The report implies that Aptera was led on: "After numerous negotiations with DOE, in September 2011, Aptera received a conditional loan commitment of \$150 million if the company was able to raise \$80 million privately." And: "The loans given to Fisker and Tesla gave Aptera hope that DOE would eventually act on their application. More importantly, since the DOE continued to engage with the company throughout the time period, management was convinced that DOE was interested and willing to provide financing for the company."

Aptera's 100% US technology has since been sold to a Chinese company.

Aptera was applying for an Advanced Technology Vehicle Manufacturing loan (ATVM). Only five loans were given out through the program and all have political ramifications. Christine Lakatos, who has worked with me on the green-energy, crony-corruption reports I've written, has done thorough research on the topic. She has read each and every one of the 350+ pages of emails released on October 31 and has written a [blog post](#) specifically addressing the ATVM program and its hijinks. As she cites, Fisker and Tesla (which Romney referenced in the first debate), got loans in 2010 and then the Vehicle Production Group's loan was the only ATVM loan closed in 2011; all have ties to Obama bundlers. The other two ATVM loans went to Ford and Nissan—both of which, according to the House [report](#), "were heavily engaged in negotiations with the Administration over fuel economy standards for model years 2012-2016 at the time the DOE was considering their applications. Both companies eventually expressed publicly their support for these standards, which the Administration described as the 'Historic Agreement.'"

Armed with the sweeping knowledge of the House reports and subsequent hearings, evidence from DOE staffers (many of whom were appointed by Obama), Lakatos' research, and personal experience, a different ATVM applicant has now taken its case to court citing "corruption and negligence."

On November 16, 2012, [XP Technologies](#) filed a lawsuit against the federal government concerning the DOE's denial of XP Technology's loan guarantee application. The [complaint](#) alleges: "criminal activities did take place by DOE staff and affiliates." A November 23 [press release](#) announces that XP Technologies is now represented by [Cause of Action](#), "a nonprofit, nonpartisan organization that uses investigative, legal, and communication tools to educate the public on how government accountability and transparency protects taxpayer interests and economic activity."

According to the document filed on November 16, "Plaintiffs' backgrounds include extensive issued patents on seminal technologies in use world-wide, White House and Congressional commendations and an engineering team of highly experienced auto-makers. Plaintiff brought a vehicle design, which was proposed as the longest range, safest, lowest cost electric vehicle, to be built in America in order to deliver extensive American jobs nationwide. No other applicant, or award 'winner', has succeeded in

meeting, or (is) intending to meet, that milestone. XP Technology developed a patented lightweight, low-cost, long-range, electric vehicle using air-expanded foam-skinned material for a portion of the polymer body and received numerous patents, acclaim and superior computer modeling metrics over any competing solution. XP presented a vast set of letters of support to DOE from pending customers. Major auto-industry facilities and engineers had joined forces to bring the vehicle to the defense, commercial and consumer market.”

Over the weekend, we had an exclusive interview, on condition of anonymity, with a senior official at XP Technologies about the lawsuit and the experience.

He reported: “Staff from within the DOE have provided evidence which is quite compelling.” As Aptera's Wilbur made clear, the individuals within the DOE were very thorough. One of the emails, in the 350+ pages, was from Secretary Chu himself in which he criticized staffers for taking a “principled stand,” which held up the approval process of projects the White House wanted advanced. Another indicated that the pressure to rush was coming from “above the agency.” Overall, the emails show that projects were rushed so that announcements could coincide with visits, speeches, and photo ops—as well as providing talking points for the president.

Our XP source told us “We experienced, and have been provided evidence of, applicant submissions and reviews being modified in order to benefit some and disadvantage others, and the business connections between the different parties associated with the ones that benefited is quite extraordinary.” The leaked emails support this accusation, specifically regarding the “business connections.” In her post, Lakatos calls it “green fraternizing.” The emails show that certain applicants and decision makers went bike riding together, had coffee meetings, sleepovers, beer summits, parties, dinners, and fundraisers.

While he didn't provide us with a name, the XP official said, “We experienced a senior senator blockading our efforts and then providing favors to a competitor, which then benefited his family financially.” The discovery the lawsuit will provide will expose the “senior senator,” but our previous research shows that [Senator Harry Reid](#)'s actions seem to fit the XP official's comment.

XP Technologies believes that “DOE officials changed the first-come-first-served published rules and standards of the funding in order to take applicants in order of who they favored and who had purchased the most influence instead of the order in which they applied, as required.”

Having extensively studied the DOE's various loan programs, including the ATVM, Lakatos and I agree with our source's startling conclusion: “Based on the evidence provided by investigators, and experienced directly by our team, it is hard to imagine that at least one or more elected, or appointed, officials might not be seeing measures ranging from censure or even federal prison time.”

Time, the lawsuit, and subsequent investigation will tell.

While the House Oversight Committee has been digging deeply into the mismanagement and corruption of the green energy loans, the media has paid little attention. Other than [our report](#), the October 31 release of the emails cited here received virtually no news reporting. Even the Fox News

Channel ignored the story. The plight of promising companies like Aptera and XP Technologies would have gone unnoticed if not for the lawsuit. The legal complaint attracted attention.

On November 16, the [Heritage Foundation](#) broke the XP story: “A lawsuit filed in federal court on Wednesday alleges mass favoritism in the Department of Energy’s decisions to award federal grants to major car companies to develop electric vehicles, according to a legal complaint obtained by Scribe.”

On November 19, Lakatos, whose work is listed as “evidence” in the legal complaint, received a call from Fox News’ Gary Gastelu—who [reported on the story](#) on November 20. The next day, Fox News covered the lawsuit on America’s Newsroom. Even the Drudge Report picked up on the story.

XP has a [litigation website](#) on which the company states: “The case has nothing to do with complaining about not getting the loans. It has everything to do with HOW the applicants didn't get the loans!” They are communicating with other applicants about participating in the lawsuit.

The XP story and subsequent media coverage offers a lesson for others—especially industries who have been wronged by the Obama Administration’s practices (such as energy). The lawsuit may—or may not—send officials to federal prison, as our XP source suggests, but it could go a long way to winning in the court of public opinion.

Their stories came out slowly, even hesitantly, at first. Then in a rush.

One female entrepreneur recounted how she had been propositioned by a Silicon Valley venture capitalist while seeking a job with him, which she did not land after rebuffing him. Another showed the increasingly suggestive messages she had received from a start-up investor. And one chief executive described how she had faced numerous sexist comments from an investor while raising money for her online community website.

What happened afterward was often just as disturbing, the women told The New York Times. Many times, the investors' firms and colleagues ignored or played down what had happened when the situations were brought to their attention. Saying anything, the women were warned, might lead to ostracism.

Now some of these female entrepreneurs have decided to take that risk. More than two dozen women in the technology start-up industry spoke to The Times in recent days about being sexually harassed. Ten of them named the investors involved, often providing corroborating messages and emails, and pointed to high-profile venture capitalists such as Chris Sacca of Lowercase Capital and Dave McClure of 500 Startups.

The disclosures came after the tech news site The Information reported that female entrepreneurs had been preyed upon by a venture capitalist, Justin Caldbeck of Binary Capital. The new accounts underscore how sexual harassment in the tech start-up ecosystem goes beyond one firm and is pervasive and ingrained. Now their speaking out suggests a cultural shift in Silicon Valley, where such predatory behavior had often been murmured about but rarely exposed.

The tech industry has long suffered a gender imbalance, with companies such as Google and Facebook acknowledging how few women were in their ranks. Some female engineers have started to speak out on the issue, including a former Uber engineer who detailed a pattern of sexual harassment at the company, setting off internal investigations that spurred the resignation in June of Uber's chief executive, Travis Kalanick.

Most recently, the revelations about Mr. Caldbeck of Binary Capital have triggered an outcry. The investor has been accused of sexually harassing entrepreneurs while he worked at three different venture firms in the past seven years, often in meetings in which the women were presenting their companies to him.

Several of Silicon Valley's top venture capitalists and technologists, including Reid Hoffman, a founder of LinkedIn, condemned Mr. Caldbeck's behavior last week and called for investors to sign a "decency

pledge.” Binary has since collapsed, with Mr. Caldbeck leaving the firm and investors pulling money out of its funds.

The chain of events has emboldened more women to talk publicly about the treatment they said they had endured from tech investors.

“Female entrepreneurs are a critical part of the fabric of Silicon Valley,” said Katrina Lake, founder and chief executive of the online clothing start-up Stitch Fix, who was one of the women targeted by Mr. Caldbeck. “It’s important to expose the type of behavior that’s been reported in the last few weeks, so the community can recognize and address these problems.”

The women’s experiences help explain why the venture capital and start-up ecosystem — which underpins the tech industry and has spawned companies such as Google, Facebook and Amazon — has been so lopsided in terms of gender.

Most venture capitalists and entrepreneurs are men, with female entrepreneurs receiving \$1.5 billion in funding last year versus \$58.2 billion for men, according to the data firm PitchBook. Many of the investors hold outsize power, since entrepreneurs need their money to turn ideas and innovations into a business. And because the venture industry operates with few disclosure requirements, people have kept silent about investors who cross the lines with entrepreneurs.

Some venture capitalists’ abuse of power has come to light in recent years. In 2015, Ellen Pao took her former employer, the prestigious venture firm Kleiner Perkins Caufield & Byers, to trial for allegations of gender discrimination, leveling accusations of professional retaliation after spurned sexual advances. Ms. Pao lost the case, but it sparked a debate about whether women in tech should publicly call out unequal treatment.

“Having had several women come out earlier, including Ellen Pao and me, most likely paved the way and primed the industry that these things indeed happen,” said Gesche Haas, an entrepreneur who said she was propositioned for sex by an investor, Pavel Curda, in 2014. Mr. Curda has since apologized.

Some of the entrepreneurs who spoke with The Times said they were often touched without permission by investors or advisers.

At a mostly male tech gathering in Las Vegas in 2009, Susan Wu, an entrepreneur and investor, said that Mr. Sacca, an investor and former Google executive, touched her face without her consent in a way that made her uncomfortable. Ms. Wu said she was also propositioned by Mr. Caldbeck while fundraising in 2010 and worked hard to avoid him later when they crossed paths.

“There is such a massive imbalance of power that women in the industry often end up in distressing

situations,” Ms. Wu said.

After being contacted by The Times, Mr. Sacca wrote in a blog post on Thursday: “I now understand I personally contributed to the problem. I am sorry.” In a statement to The Times, he added that he was “grateful to Susan and the other brave women sharing their stories. I’m confident the result of their courage will be long-overdue, lasting change.”

After the publication of this article, Mr. Sacca contacted The Times again to amend his original statement, adding: “I dispute Susan’s account from 2009.”

Many of the women also said they believed they had limited ability to push back against inappropriate behavior, often because they needed funding, a job or other help.

In 2014, Sarah Kunst, 31, an entrepreneur, said she discussed a potential job at 500 Startups, a start-up incubator in San Francisco. During the recruiting process, Mr. McClure, a founder of 500 Startups and an investor, sent her a Facebook message that read in part, “I was getting confused figuring out whether to hire you or hit on you.”

Ms. Kunst, who now runs a fitness start-up, said she declined Mr. McClure’s advance. When she later discussed the message with one of Mr. McClure’s colleagues, she said 500 Startups ended its conversations with her.

500 Startups said Mr. McClure, who did not respond to a request for comment, was no longer in charge of day-to-day operations after an internal investigation.

“After being made aware of instances of Dave having inappropriate behavior with women in the tech community, we have been making changes internally,” 500 Startups said. “He recognizes he has made mistakes and has been going through counseling to work on addressing changes in his previous unacceptable behavior.”

Rachel Renock, the chief executive of Wethos, described a similar situation in which she faced sexist comments while seeking financing for her online community site. While she and her female partners were fund-raising in March, one investor told them that they should marry for money, that he liked it when women fought back because he would always win, and that they needed more attractive photos of themselves in their presentation.

They put up with the comments, Ms. Renock said, because they “couldn’t imagine a world in which that \$500,000 wasn’t on the table anymore.” Ms. Renock declined to name the investor. Wethos raised the \$500,000 from someone else and is still fund-raising.

Wendy Dent, 43, whose company Cinemmerse makes an app for smart watches, said she was sent

increasingly flirtatious messages by a start-up adviser, Marc Canter, as she was trying to start her company in 2014. Mr. Canter, who had founded a software company in the 1980s that became known as Macromedia, initially agreed to help her find a co-founder. But over time, his messages became sexual in nature.

In one message, reviewed by The Times, he wrote that she was a “sorceress casting a spell.” In another, he commented on how she looked in a blue dress and added, “Know what I’m thinking? Why am I sending you this — in private?”

Mr. Canter, in an interview, said that Ms. Dent “came on strong to me, asking for help” and that she had used her sexuality publicly. He said he disliked her ideas so he behaved the way he did to make her go away.

Some entrepreneurs were asked to not speak about the behavior they experienced.

At a start-up competition in 2014 in San Francisco, Lisa Curtis, an entrepreneur, pitched her food start-up, Kuli Kuli, and was told her idea had won the most plaudits from the audience, opening the door to possible investment. As she stepped off the stage, an investor named Jose De Dios, said, “Of course you won. You’re a total babe.”

Ms. Curtis later posted on Facebook about the exchange and got a call from a different investor. He said “that if I didn’t take down the post, no one in Silicon Valley would give me money again,” she said. Ms. Curtis deleted the post.

In a statement, Mr. De Dios said he “unequivocally did not make a defamatory remark.”

Often, change happens only when there is a public revelation, some of the women said. In the case of Mr. Caldbeck and Binary, the investor and the firm have apologized, as has Mr. Caldbeck’s previous employer, the venture capital firm Lightspeed Venture Partners, which had received complaints about him.

“We regret we did not take stronger action,” Lightspeed said on Twitter on Tuesday. “It is clear now that we should have done more.”

Lindsay Meyer, an entrepreneur in San Francisco, said Mr. Caldbeck put \$25,000 of his own money into her fitness start-up in 2015. That gave Mr. Caldbeck reason to constantly text her; in those messages, reviewed by The Times, he asked if she was attracted to him and why she would rather be with her boyfriend than him. At times, he groped and kissed her, she said.

“I felt like I had to tolerate it because this is the cost of being a nonwhite female founder,” said Ms. Meyer, who is Asian-American.

But even after she reached out to a mentor, who alerted one of Binary's investors, Legacy Venture, to Mr. Caldbeck's actions, little changed. Legacy went on to invest in Binary's new fund. Binary and Mr. Caldbeck declined to comment.

"We failed to follow up on information about Mr. Caldbeck's personal behavior," Legacy said in a statement. "We regret this oversight and are determined to do better."

A Silicon Valley venture capitalist has been sued for \$40 million by a woman who claims he used her as a virtual sex slave for 13 years.

Michael Goguen, who had worked for a firm that funded Google and Paypal, "sexually and physically" abused Amber Laurel Baptiste over more than 13 years after picking her up at a Texas strip club, her lawsuit alleges.

Baptiste, who claims she was brought to the United States from Canada by human traffickers at 15, said she endured "countless hours of forced sodomy" from the tech titan. The former stripper said Goguen made her endure demeaning sexual acts, sodomized her for "six hours at a time," and forced her to call him "king" and "emperor."

Filed in San Mateo County, Calif., on March 8, her suit details a life of torture and servitude as she was jetting around the globe to serve as the millionaire's plaything. She claims Goguen had promised to save her from human trafficking but instead became an even worse predator himself.

Goguen, who was forced to step down from his position at Sequoia Capital, did not deny that the two had a sexual relationship but insisted the sex was consensual. He filed a countersuit against Baptiste claiming she is an "exotic dancer . . . looking for a payday."

The venture capitalist said Baptiste was obsessed with him and sought to extort him because she was jealous of his wife. In his countersuit, Goguen provides pages of texts and emails in which she apparently refers to him as "Prince Charming," "My Beautiful Love" and "the sweetest man in the world."

The suit includes Baptiste's descriptions of the "amazing sex" the two had together and photos that she allegedly sent him in which she is seen playfully posing in her underwear.

Baptiste is demanding \$40 million, saying the two agreed on the amount to compensate her for the horrors she had suffered. Goguen, who has already paid her \$10 million, said she is "a woman scorned" and a victim "of her own delusions."

He claims that when he tried to end their relationship, Baptiste became bent on vengeance,

threatening to ruin his life and reputation. He said that he had no choice but to pay her the \$10 million, but that she refused to relent and demanded more money.

Sequoia Capital released a statement that called Goguen's departure from the firm the "appropriate course of action." A philanthropist, Goguen was lauded for donating \$2 million to fight online child pornography and sex trafficking where he lives in Montana.

Goguen is not the only business leader who's faced backlash over sexually inappropriate behavior.

FACEBOOK BOSS IN UNDER-AGE SEX SCANDAL

Dov Katz, head of the computer vision and machine learning group at Facebook-owned Oculus, has been charged in King County for attempted commercial sexual abuse of a minor. The 38-year-old tech exec allegedly attempted to contact what he believed to be was a 15-year-old girl for sex. The fictitious 15-year-old was actually an undercover police officer with the Tukwila Police Department, a city just south of Seattle.

The news was first reported by KING 5, which said that Katz was arrested by Tukwila Police on Wednesday. Katz is to be arraigned on January 5th, and bail was set at \$125,000. An Israeli citizen who resides in California, Katz is forbidden to have contact with any minors, except in the presence of a responsible adult, according to charging documents. Katz allegedly **responded to an online advertisement that offered sex in exchange for money, an ad which was posted by undercover police officer posing as a 15-year-old girl.**

Horrific Google Anal Sex Slave Case Uncovers Twisted Perversions Of Google Executives

By Samantha Conners - APT

Michael Goguen, Google's married senior investor, "sexually and physically" abused Amber Laurel Baptiste with constant anal sex over more than 13 years after picking her up at a Texas strip club. His company: Sequoia Capital, has had other run-ins with cheating married executives, escorts and tax evasion schemes, per legal filings.

Eric Schmidt, the head of Google, proclaimed that he would have a "open marriage" where he could have sex any time, with anybody, and is documented in a ream of news articles and video regarding his fifteen million dollar "sex penthouse" in New York.

Sergey Brin, another head of Google, is featured in numerous news articles for his "three way sex romp" with multiple Google employees forcing one employee to move to China to escape him. A married Google senior executive named Hayes, who helped rig Google's searches for political clients, was murdered on his "sex yacht" by his prostitute, which other Google executives had used.

Ravi Kumar, another VC associated with Google Executives, was also murdered by a pack of hookers and pimps that frequented his Silicon Valley home.

Valley Girls was a private escort service that used Stanford Co-eds to service the sexual kinks of Google executives.

Ellen Pao famously sued Google founding investor John Doerr, and his company Kleiner Perkins, for sexual abuse.

Google employee divorce filings hold the Silicon Valley record for use of the word “abuse” as one of the reasons given in the legal papers filed to initiate the divorce.

The list of kinky, twisted, bizarre sexual antics of Google executives, and their investors, goes on for pages and pages...

Google seems to attract the most twisted, perverted, morally decrepit men in the world. One has to wonder why, of all the large companies on Earth, only Google got to place the majority of it's people in the White House? That's right, Nike doesn't have it's people in the White House. Macy's doesn't either. Neither does Chevron, or John Deere tractor or any other company on Earth.

Only Google, exclusively and uniquely, had all of their people placed in the White House and top federal agency lead positions. What's up with that? Were they selected because of their technical skills or their ability to make people bend over?

An addiction to dirty sexual perversions are not the only illicit trends that Google folks display. The Google investors are members of a financing cartel called the National Venture Capital Association

(NVCA). This group of frat boy elitists got busted for running the “Angelgate” scandal in which they were documented rigging, colluding, black-listing and contriving the whole Silicon Valley start-up industry.

Then they were caught again when Eric Schmidt, Mr. “Sex Penthouse” and the head of Google, wrote emails ordering a conspiracy against Silicon Valley engineers. This “No Poaching” conspiracy got the Silicon Valley VC's sued in a class-action lawsuit, which the VC's lost. The Google founder's best friend: Jacques Littlefield, kept the world's largest private fully functional military tank squadron, in fully operational status, hidden in vast warehouses in his Silicon Valley estate in Woodside, California.

He said he had this arsenal: “just in case”. Does Google make white frat house men insane or does it draw the crazy ones to it?

The FBI is finally crunching down on these people. After so many years of the White House ordering the FBI to leave the Google VC's and Silicon Valley perverts alone, it was just getting plain embarrassing for the FBI. The audacious impunity with which Google, and it's friends, engaged in tax evasion, importing hookers, bribery, stock market rigging, anti-trust schemes and other crimes has become so overt, in the media, that it was created a spotlight on federal law enforcements avoidance of prosecution of the shenanigans of the Google crowd.

WHO IS THE SILICON VALLEY MAFIA?

By Terry Reed and Mark Lawson

They are sex abusers like John Doerr and his entire Kleiner Perkins frat boy staff who were sued by Ellen Pao for the misogyny culture of sexual deviancy and abuse that they promote as their corporate culture. They are tax evaders like Ray Lane. They are hooker-hiring sex traffickers like Google's Forrest Hayes who died from an excess of drugs and sex. They are cheaters like Google's David Drummond who destroyed his family by his addiction to infidelity. They are sex addicts who own sex penthouses and cavort with the notorious Wendy Deng like Eric Schmidt. Amid the World's Largest Corporate Sex Scandals Google CEO Eric Schmidt will now leave Alphabet's board. Schmidt is a known womanizer despite being married for 37 years to Wendy Schmidt, who said in 2012 they started living separate lives because she felt like "a piece of luggage" following him around the world. News outlets have been sniffing around Schmidt's former flames looking for a Harvey Weinstein-like bombshell, a source close to Schmidt told The Post. They are mobster-class justice evasion lawyers like Wilson Sonsini and political bribe conduit lawyers like Perkins Coie. They are charged rapists and psychological sex manipulators like Joe Lonsdale.

When Kleiner Perkins offices were broken into by covert law enforcement operatives much was revealed. This was followed by the hack of all of John Doerr's emails' and the email of his top staff. This was followed by the revelation that Doerr bribes Stanford University for special favors for his kids and for certain 'relationships'. Now Doerr must walk on pins and needles because he has been put on notice that even the slightest bribe, political manipulation or mobster-like tech black-listing will not go unnoticed.

A female employee called Tesla's factory a 'predator zone' at a meeting where workers described the constant sexual harassment at Tesla.

DNC chairman Eric Bauman, the head of the California Democratic Party, and the Los Angeles County Democratic Party, has is former assistant say he was first assaulted after falling asleep in a hotel and waking up to his boss performing oral sex on him, and that there were two more instances where he was forced to submit to Bauman.

Bay area party guests and Rothschild-linked Bronfman sisters donated millions to the sex cult whose leaders, Allison Mack and Keith Raniere, have been charged with child sex trafficking.

Goddard, a director, producer and theme park designer, has faced many sex abuse allegations. Eight former members of a Santa Barbara youth theater group in the 1970s alleged that Goddard molested or attempted to molest them. A ninth was said to have told others before he died that Goddard sexually assaulted him as a child. Goddard denied their allegations.

The Silicon Valley Mafia is The Sandhill Road Venture Capital frat boy company bosses in Palo Alto, their National Venture Capital Association (NVCA) partners and the tech companies (Google, Tesla, Facebook, Amazon, Twitter, LinkedIn, etc.) they control. They are sometimes referred to as "The Deep State". They have purchased California, New York and Washington, DC politicians (mostly Senators) who they also control.

They hire rogue ex-intelligence agents to operate Fusion GPS, Gawker/Gizmodo, Black Cube, ShareBlue, New America, In-Q-Tel, Podesta Group, Media Matters, etc. massive media attack programs against competitors, reporters and outsiders. They collude on black-lists, valuation controls, election manipulation, search engine rigging, domestic spying for political manipulation, stock rigging, insider trading, executive prostitute clubs, trophy wife assignments, the bribery of politicians and worse. They are felons who pay politicians to halt investigations and interdiction efforts.

They are widely covered in news media articles as: 'sex abusers, cult enthusiasts, elitists, rapists, woman beaters, probiosis abusers, sexual work extortion operators, extremists, arrogant clones of each other, tone deaf, echo-chamber reinforcing, misogynist, racist, manipulative, insecure, covertly gay, corrupt, thieves' and other anti-social revelations. They are not limited to California and also operate out of New York and Washington DC.

They use their monopolistic control of the internet to massively and exclusively scale services that only they control and use to abuse the public's privacy, human rights, invention rights and information. They run their cartel like the old Italian Mafia once did.

The Department of Justice conducted a series of raids across California tech and media circles and arrested 238 people in connection with a Hollywood pedophilia network, but this story went totally ignored by almost all media outlets. According to police, the arrests included some entertainers, community leaders, white-collar professionals, a monk, and other high-ranking clergy members. The

raids were conducted by the Regional Internet Crimes Against Children task force, working directly with the Justice Department. Codenamed “Operation Broken Heart III”, the sweeping raids targeted offenders wanted for the sexual exploitation of children, child prostitution, sex tourism and possessing and distributing child pornography, said Deputy Chief Matt Blake. Silicon Valley oligarchs use these intermediate level people to source up sex victims to be delivered to their Woodside and Atherton mansions.

Michael Goguen, who had worked for a firm that funded Google and Paypal, “sexually and physically” abused Amber Laurel Baptiste over more than 13 years after picking her up at a Texas strip club, her lawsuit alleges. Baptiste, who claims she was brought to the United States from Canada by human traffickers at 15, said she endured “countless hours of forced sodomy” from the tech titan. The former stripper said Goguen made her endure demeaning sexual acts, sodomized her for “six hours at a time,” and forced her to call him “king” and “emperor.” Filed in San Mateo County, Calif., her suit details a life of torture and servitude as she was jetting around the globe to serve as the millionaire’s plaything. She claims Goguen had promised to save her from human trafficking but instead became an even worse predator himself.

The Silicon Valley Mafia Cartel is the largest provider of dark money bribes to West Coast politicians including Feinstein, Pelosi, Harris, Brown, Reid, Boxer, Lee, et al.,. Those politicians and their families also covertly own the stock of the California tech companies and social media companies like Tesla, Solyndra, Abound, Google, Facebook, Netflix, etc. Larry Wallace, a senior staffer for Sen. Kamala Harris (D-CA) resigned over the discovery he was involved in a sexual harassment lawsuit and \$400,000 payout to the sexually abused victim while working for then California Attorney General Kamala Harris. In related headlines we read: ***"ATTORNEY GENERAL THAT COLLUDED WITH KAMALA HARRIS EXPOSED AS SEX PERVERT!!!!"; "TOP DNC SEX PSYCHO MAY BE ALIGNED WITH SEX CULTS!"; "WHY IS EVERY DNC BIG SHOT TURNING OUT TO BE A SCREWED UP SEXUAL MESS!"***

The Bay Area headlines reek of perversion: ***"ANOTHER Democrat Sex Cult Exposed: 'sexual servitude' at San Francisco-based 'orgasmic meditation' company: One Taste"; "NXIUM, ONE TASTE, EMO, THE WOODSIDE CLUB: WHY DO THE DEMOCRATS GET INTO SUCH KINK?"; "UNDERCOVER CAMERA'S IN SAN RAFAEL, CALIFORNIA AT 4TH STREET "DANCE/YOGA" BUILDING AND MILL VALLEY CITY BUILDING CATCH SEX-FOR-SALE ESCORTS AND KINK"; "THEY USE "MEET-UP" (THE DNC'S NETWORKING SITE) TO HUNT FOR VICTIMS TO SEDUCE"; ""HOT LITTLE RED HEAD" TURNS OUT TO BE THE TOP ESCORT IN MARIN COUNTY!"***

In the latest case of Hollywood's and Silicon Valley's spiralling sexual abuse scandal, Variety reports that a veteran 58-year-old Disney executive has been charged with three felony counts of child sexual abuse. Jon Heely, the longtime director of music publishing at Disney, was arrested nearly a month ago and charged with three counts of lewd and lascivious acts on a child. One of the reported victims was 15. The other was abused for four years starting at the age of 11, according to the charges. Heely, who

oversees the licensing of music from Disney films faces up to nine years and three months in prison according to The Daily News.

It is now time to sound the alarm bells on the economic prospects for the Millennial Generation in the Western world, but more importantly, at Stanford University. This generation of citizens aged 18 to 36, is the first in modern developed economies on course to have a lower standard of living than their parents. Housing affordability and a decaying job environment are some of the most pressing issues affecting Stanford Millennials. The future is bleak for this avocado and toast generation, as Western world economies have likely plateaued regarding economic growth. Surging debt and rising government bond yields are producing an environment that could lead to more hardships for this lost generation. Tech oligarchs have taken full advantage of broke Millennials by offering “adult arrangements” for a roof over their heads. Yes, you heard this correctly, Millennials are trading sex for a place to sleep and sex for tuition at Stanford University. Sugar Babies now comprise a large portion of Stanford students. Kleiner Perkins and Greylock VC's hire them for sex. Google and Facebook executives use them like disposable sex toys. The student debt crisis in the US has gotten so bad, there's a growing group of young women — and some men — who are taking an unconventional approach to paying for college. Through dating websites like SeekingArrangement.com, and match.com, Sugar Babies, as they're called, partner up with wealthy, often older, men who want to spend money on them. Some 2.5 million Sugar Babies identified as students in 2016 on SeekingArrangement.com. Many of these Sugar Babies turned to the site to find someone who will pay for their education so they can graduate debt, and worry, free. In exchange, Sugar Babies go to dinners, attend events, or accompany their Sugar Daddy, or daddies, on trips. In some cases, they provide companionship or foster a mentor-mentee relationship. In other situations, the terms of the agreement include physical intimacy.

Jermaine Gagnon, 28, told DailyMailTV how he narrowly escaped death when DNC financier Edward Buck injected him with crystal meth at his sex-toy filled apartment. Gagnon said Buck, 63, paid to fly him from Minnesota to Los Angeles, drugged him with a substance dissolved in Gatorade then injected him with crystal meth. The 28-year-old shared photos of Buck, wearing white long johns, crouched over him on a mattress during one of their nights together last year. Gagnon shared images of sex toys Buck had for their encounter, saying: 'He had this red and black toolbox with all types of fetish toys, like c**k rings, sex toys'. He added: 'He gave me some Tommy Hilfiger tighty whities, a muscle t-shirt and some long johns. White knee-high socks'. Gagnon said during one encounter Buck offered him a drink he suspected had been spiked, feeling woozy and weak shortly after drinking it. He said: 'He took my phone. I was so scared. I felt death walked into my soul. I called my mother. I said, 'I feel like he's going to kill me, I think I'm going to die'. Buck is now under investigation over the deaths of two black men, including one man who died of an apparent overdose at his apartment on Monday.

According to the testimony of a federal agent, Harold “H.L.” Moody, a former Democratic Party chairman, streamed live videos of children being raped, distributed child pornography to other pedophiles, and regularly smoked methamphetamine out of a glass pipe while seated at his desk during work hours. Our tax dollars at work, folks. Jason Bennett, a special agent for Homeland Security Investigations, said an undercover agent took “screen shots” of Moody sitting at his desk and chatting

with pedophiles in a secret chatroom online on “more than one occasion” between Aug. 29 and Oct. 12. Bennett described Moody as a “high-volume user” who logged in and out of a chat room solely devoted to child pornography several times a day, including 26 times in a two-day span. He was also a host of the private chat room, which Bennett explains indicates that Moody did something to receive such recognition.

Tech magnate Elon Musk reportedly admits in an upcoming book that he once attended a somewhat well-known Silicon Valley “sex party.” Musk and his bro-friend: Steve Jurvetson, have been documented in a number of notorious sex scandals. *Even worse is the headline that reveals: “**Elon Musk Says Pedophile Accusation Against British Man Was Protected Speech But Ignores Fact That Musks Father Had Sex With His Own Daughter**”*

Dov Katz, head of the computer vision and machine learning group at Facebook-owned Oculus, has been charged in King County for attempted commercial sexual abuse of a minor. The 38-year-old tech exec allegedly attempted to contact what he believed to be was a 15-year-old girl for sex. The fictitious 15-year-old was actually an undercover police officer with the Tukwila Police Department, a city just south of Seattle. The news was first reported by KING 5, which said that Katz was arrested by Tukwila Police on Wednesday. An Israeli citizen who resides in California, Katz is forbidden to have contact with any minors, except in the presence of a responsible adult, according to charging documents. Katz allegedly responded to an online advertisement that offered sex in exchange for money, an ad which was posted by undercover police officer posing as a 15-year-old girl. Katz allegedly arranged a meeting at the Embassy Suites in Tukwila, offering to pay \$350 to have sex without a condom. When Katz arrived at the hotel with \$600 in cash, he was arrested by police.

Former Democrat CDC director Dr. Tom Frieden was arrested on sexual pervert allegations. Frieden was charged with forcible touching, sex abuse and harassment, according to police.

California gubernatorial candidate Gavin Newsom's past sexual misconduct disqualifies him from holding higher office, rival Democrat Amanda Renteria said Thursday, and he should resign from his position as lieutenant governor. "If he was in the Legislature right now, he'd be called out, and like what we've seen, being forced out," Renteria said in an interview with The Sacramento Bee. "We've got to be sending the message that the more power you have, the more responsibility you have to protect others." As mayor of San Francisco more than a decade ago, Newsom had an affair with one of his city hall aides, who was also married to his campaign manager at the time.

Google employees have accused Google boss Rubin of sexual misconduct. A woman, with whom Mr. Rubin had been having an extramarital relationship, said he coerced her into performing oral sex in a hotel room in 2013, according to two company executives with knowledge of the episode. Google investigated and concluded her claim was credible, said the people, who spoke on the condition that they not be named, citing confidentiality agreements. Mr. Rubin was notified, they said, and Mr. Page asked for his resignation. Google could have fired Mr. Rubin and paid him little to nothing on the way out. Instead, the company handed him a \$90 million exit package, paid in installments of about \$2 million a month for four years, said two people with knowledge of the terms. The last payment is

scheduled for next month. Mr. Rubin was one of three executives that Google protected over the past decade after they were accused of sexual misconduct. In two instances, it ousted senior executives, but softened the blow by paying them millions of dollars as they departed, even though it had no legal obligation to do so. In a third, the executive remained in a highly compensated post at the company. Each time Google stayed silent about the accusations against the men. Google executives have been caught having sex slaves.

The Rosewood Hotel is brimming with tech guys, some loudly talking about money. The college student at our table recommends the ribs—she’s been here before, on “dates” with her “daddies.” “There are a lot of tech guys,” she says. “They want the girlfriend experience, without having to deal with an actual girlfriend.” “The girlfriend experience” is the term women in the sex trade use for a service involving more than just sex. “They want the perfect girlfriend—in their eyes,” says Miranda, the young woman at our table.* “She’s well groomed, cultured, classy, able to converse about anything—but not bringing into it any of her real-world problems or feelings. Her adventures in “sugaring” started three years ago when she got hit on by an older guy and rebuffed him, saying, “Look, I’m not interested, so unless you’re offering to pay my student loans,” and he said, “Well . . . ?” After that, “he paid for stuff. He gave me money to help out with my living expenses.” This is how many of the skinny co-eds at Stanford University pay the bills and Stanford bosses look the other way.

In Silicon Valley, There Are Over 100 Services That Deliver Young Men And Girls To Rich Google And Facebook Executives For Dirty Sex. Most of the victims come from local colleges, universities, art schools and the Mission District, Haight Street and Noe Valley districts in San Francisco. They use Facade organizations like "Power Exchange", "Mission Exchange", "The Arena", "Orgasmic Meditation", "NXVIUM", "The Spinsters", "The Guardsmen", One Taste, etc. act as fronts for sexual transactions. The Rosewood Hotel has sex nights for the sale of women using sly hand signals. Almost every hotel on El Camino Real in Palo Alto has a prostitution activity going on around the clock. Russian and Italian prostitutes fly in and out of San Jose and San Francisco airports so often that they are known as the "pus*y ports". Young, impossibly attractive, girls with tight mini skirts and a roller bag in the airport alone are now under constant surveillance by police.

One report recalls: "...At the hotel, Hillary Clinton Mega donor and John Podesta partner Wyss assaulted Long physically and sexually, according to her police complaint. "Me screaming, 'No stop it,'" she wrote in her own handwriting to police. "He grabbed my teeth with his left hand and ripped my mouth open. He inserted a vibrator into my vagina and almost suffocated me by putting his fist into my mouth. I struggled and pushed. I thought for sure he was going to kill me," she wrote. "I left that hotel room sick and in pain," she told police in the statement. She returned to Boulder and "stayed in bed for weeks. The physical sickness of this event was devastating," she told police. Wyss also allegedly threatened to stop his financial support for her daughter if she broke up with him, according to Long. "She's probably one of the first who took on powerful men over sexual misconduct," recalled Police Chief Tom Koby in an interview with TheDCNF. He personally knew the Boulder resident and counseled her about her relationship with Wyss. "After the attack, I had breakfast with Jackie at the Hotel Boulderado. She broke down during breakfast. This thing had happened and it was terrible. She was quite shaken and Jackie doesn't shake too easily," Koby said. "Hans had her in a bind in terms of helping Jackie heal her daughter, who had some serious health addiction issues," Kolby added. "That was what was keeping Jackie in the relationship and she didn't have a lot of money. She was still clinging to the hope she could save her daughter. And that she had these things she wanted to do with these organizations working on detention homes and shelters in Boulder and in Denver," Koby recalled..."

Amid allegations of sexual harassment, embattled freshman Democratic Rep. Ruben Kihuen vowed he will not resign from his post, despite calls from Democratic leaders that he step aside. Instead, Kihuen is digging in with a shocking allegation of his own, taking aim at the leaders of his own party. In an interview with ABC News, Kihuen, D-Nev., said party leaders knew last year about a former campaign staffer's allegations of misconduct but stood by his campaign nonetheless. Kihuen questioned why they are calling for his resignation now, more than a year later. "I do find it interesting that the DCCC, Leader [Nancy] Pelosi and Chairman Ben Ray Lujan -- they knew about these allegations last year," Kihuen said. "They looked into them. They didn't find anything, and they continued investing millions of dollars in my campaign. ***They went out there and campaigned for me.***"

A married senior official in President Obama's Department of Education was convicted of sex crimes and resigned for following women on the DC Metro and taking pictures up their skirts, DailyMail.com can exclusively reveal. William Mendoza, 42, the former executive director of the White House Initiative on American Indian and Alaska Native Education, stepped down after he was arrested and charged with attempted voyeurism in November, 2016, for the vile acts. Mendoza, who earned \$140,000 a year as a policy advisor in Obama's White House, tried to take photos and videos up women's skirts at least four times on his government-issued iPhones in July 2016 without their consent. He was also caught looking at footage, apparently filmed in secret, of a woman in her underwear getting changed in a dressing room. It is not known if he recorded the video himself. When he took the indecent photos, he was supposed to be at work and was using a travel card funded by the taxpayer, according to documents obtained by DailyMail.com through a Freedom of Information Act request.

After California's then-Attorney General Kamala D. Harris announced felony pimping charges last year against the two owners of Backpage.com — a classified-ad website that is a hub for sex trafficking and prostitution, one of the men cut a \$10,000 check to House Minority Leader Nancy Pelosi's super PAC. Mrs. Pelosi's political action committee, House Majority PAC, has resisted giving the money back, and an aide to Mrs. Pelosi said the California Democrat knows nothing about the contribution. The uproar over sexual harassment that began with the Harvey Weinstein scandal has intensified the scrutiny of political contributions linked to Backpage, which law enforcement officials say is the chief platform for activities far worse than harassment, including sexual slavery and child prostitution. Mrs. Pelosi isn't the only Democrat struggling to deal with the piles of cash that Backpage's owners spread around to candidates and state Democratic parties over the years. Even Ms. Harris, a California Democrat who is now a U.S. senator, ducked the issue. Her office wouldn't respond to repeated emails about Backpage money going to House Majority PAC and other Democratic organizations. Since 2010, the owners and their wives have shoveled about \$99,000 to candidates and about \$95,000 to Democratic parties in Arizona, Colorado and New Mexico, according to federal campaign finance data collected by the Center for Responsive Politics.

Prominent Democrat donor Terry Bean was indicted earlier this month on two counts of sodomy and one count of sex abuse for allegedly having sex with a teenage boy. Bean was arraigned on the charges, TV station KGW8 reported. He pleaded not guilty and was taken into custody at County jail.

The body of investigative journalist Jen Moore was found in her Washington D.C. hotel room on Monday after her investigation into an alleged sexual assault by President William J. Clinton. "In fact, just four weeks before her death, Moore filed details of the alleged victim's claims with the Department of Homeland Security, detailing the allegations against Clinton. Moore contacted Homeland Security beginning on July 6th through July 9th, records show. A week later, she contacted the FBI with identical details about the victim and the shocking allegations against Clinton,"

A leading liberal think tank run by a longtime adviser to former presidential candidate Hillary Clinton is facing allegations of serious sexual harassment which went undealt with by management, a new report claims. The Centre for American Progress (CAP), headed by Clinton associate Neera Tanden, has released four policy proposal papers on dealing with sexual harassment in the workplace, but

former staffers have come forward with stories of repeated harassment at the think tank, BuzzFeed reports.

Defy Ventures brings the gospel of entrepreneurship to an unlikely place: prisons. The nonprofit company founded by Catherine Hoke says it is dedicated to helping formerly incarcerated people start their own businesses and stay out of prison. “Transform the hustle,” the company’s tagline encourages. Defy has received grants from Google. Facebook COO Sheryl Sandberg wrote a foreword to Hoke’s new memoir. Former U.S. Attorney Preet Bharara called Hoke’s work “incredibly inspiring” on his podcast. But while Defy woos Silicon Valley and Washington, D.C., scandal has rocked the company’s leadership. Last month, Defy fired its president after he blew the whistle on allegations of sexual harassment by Hoke and fraudulent statistics exaggerating the program’s successes.

Henry T. Nicholas III, the Silicon Valley billionaire founder of chip-maker Broadcom, has been arrested by police on drug trafficking charges. According to the Associated Press, Nicholas was arrested on suspicion of trafficking heroin, cocaine, meth and ecstasy. Security was called when Nicholas couldn’t get into his sex fuelled room at the Encore, a Las Vegas casino hotel. When security arrived, they reportedly found Nicholas with Ashley Fargo, the ex-wife of an heir to the Wells Fargo banking fortune. Fargo was passed out with a semi-deflated balloon in her mouth, but was revived by paramedics. According to reports, security subsequently found canisters of nitrous oxide inside the room, and a subsequent search by cops turned up more drugs inside a suitcase. Nicholas’s attorney, David Chesnoff, told the Associated Press that they will “deal with the facts in court.”

Multiple famous Silicon Valley lawyers have been found dead, hanged by their own hand while attempting to masturbate while choking themselves because they thought that choking would add to the sensation. A formerly powerful Democrat, Attorney Mark Benavides, has been found guilty on six individual counts of human trafficking in a grotesque and sex-filled criminal conspiracy. Mark Benavides, a well-known Democrat who ran for the 186th District Court in 2014, was accused by federal law enforcement of trading his legal services as an attorney for sex from his clients and then recording those manipulative sex-romps, according to local ABC affiliate KSAT. Benevides would then promise the women that if they allowed him to engage in erotic sex that sometimes included physical torture, that he would offer them a legitimate defense in the courtroom.

Hundreds of leaked text messages between Kevin Tsujihara, actress Charlotte Kirk and partners Brett Ratner and James Packer show the powerful executive, under pressure, said repeatedly he would push for auditions as accusations of "extortion" and a proposed settlement agreement followed

The World Health Organization (WHO) has declared Silicon Valley oligarch sex addiction to be a mental illness.

Known as compulsive sexual behaviour disorder, it is defined as an inability to control intense sexual urges leading to people neglecting their health despite often deriving no pleasure from being intimate, according to a report issued by the WHO.

Patients must suffer from the disorder for at least six months, and experience substantial distress as a result of their addiction, before being diagnosed, the report adds.

It is unclear if this move will lead to sex addiction treatment being provided on the NHS, which does not currently consider it to be a condition.

Comedian Russell Brand has been to rehab for sex addiction saying being active between the sheets gives him 'a breathing space, when you're outside of yourself and your own head'.

Comedian Russell Brand has been to rehab for sex addiction saying being active between the sheets gives him 'a breathing space, when you're outside of yourself and your own head'.

Actor Michael Douglas, who is married to Catherine Zeta Jones, also sought treatment for the disorder after numerous affairs ended his first marriage to Diandra Luker in 1995.

As well as reported drug and alcohol problems, Mean Girls star Lindsay Lohan has described herself as 'not a crazy [sex] addict' but adds she enjoys being in different relationships.

David Duchovny, star of The X-Files, sought treatment for sex addiction in 2008 after being unfaithful to his actress wife Téa Leoni.

After the release of a sex tape with his Playboy model ex Nicole Narain in 2003, actor Colin Farrell admitted to liking sex with prostitutes and suffering from an addiction.

Socialite Calum Best, whose footballer father George suffered from alcoholism, has said 'I'm a red-blooded male and I'm addicted to sex'.

Sex addiction is seen as 'shameful'

According to Dr Valerie Voon, from the Royal College of Psychiatrists, between two and four per cent of people in the UK suffer from sex addiction. Three-to-six per cent are thought to have the condition in the US.

She told The Sun: 'It is a behaviour that tends to be hidden as it's shameful and often sex addicts don't come forward.'

'Adding this to the WHO list is an excellent step for patients as it allows them to recognise that they are suffering with a problem.'

'It takes it out of the shadows and they are able to seek help for it.'

Dr Voon believes sex addiction may one day be treated on the NHS alongside conditions like depression and anxiety.

Gaming addictions tear families apart

This comes after Dr Shekhar Saxena, director of WHO's department for mental health, said the body listed gaming as an addiction based on scientific evidence, as well as 'the need and the demand for treatment in many parts of the world.'

According to Dr Joan Harvey, from the British Psychological Society, only a minority of gamers suffer from the disorder, warning that the new condition might cause unnecessary concern among parents.

She said: 'People need to understand this doesn't mean every child who spends hours in their room playing games is an addict, otherwise medics are going to be flooded with requests for help.'

Others welcome WHO's classification, saying it is critical to identify video game addicts quickly due to them usually being teenagers or young adults who do not typically seek help themselves.

Dr Henrietta Bowden-Jones, a spokeswoman for behavioral addictions at Britain's Royal College of Psychiatrists, added: 'We come across parents who are distraught, not only because they're seeing their child drop out of school, but because they're seeing an entire family structure fall apart.'

The updated ICD is scheduled to be presented to all WHO member states at their annual assembly in May 2019.

According to the relationship counselling service Relate, sex addiction is any intimate activity that feels 'out of control'.

This could be sex with a partner, masturbation, pornography use, visiting prostitutes or using chat lines.

In some cases, people feel unable to control their urges, which affects their quality of life and those around them.

According to the WHO, compulsive sexual behaviour disorder is defined as an inability to control intense sexual urges leading to people neglecting their health despite often deriving no pleasure from being intimate.

Patients must suffer from the disorder for at least six months, and experience substantial distress as a result of their addiction, before being diagnosed, the WHO adds.

Y Combinator is half homosexual sextortion elitists and half Frat boy Google-worshippers seeking to control politics and expand the Silicon Valley Echo-Chamber

In its main program, Y Combinator interviews and selects two batches of companies per year. The companies receive [seed money](#), SJW advice, and echo-chamber connections in exchange for 7% [equity](#).^[2] The program includes "office hours", where startup founders meet individually and in groups with Y Combinator partners for advice on how to be good liberal clones. Founders also participate in weekly dinners where guests from the [Silicon Valley](#) ecosystem (successful entrepreneurs, venture capitalists, etc.) speak to the founders. The deal at Y Combinator is " If you help us control American politics and ideologies, we will give you some cash..."

In Y Combinator meetings, naive young Millennial boys are stupid enough to wear sheep clone Fedora's, have the same tattoos and the same haircuts and carry the same man-bags. The robot-like hipster conformity is overt and ludicrous.

The bottom line is that you are going to get fucked by Y Combinator one way or another. The VC's and investors that fund it will extort you for blow jobs and anal sex. If you were not in a Stanford or Yale Frat House you will be ostracized. If you are over 30 you will be ostracized. If you are black or Mexican you will be ostracized. If you are a woman you will be ostracized after you are sextorted. If you don't worship ANTIFA and Barack Obama you are ostracized.

The bosses of Y Combinator are the single biggest group of narcissistic, sociopath, holier-than-thou, effete, peacock strutting, misogynist pigs on Earth. They love nothing more than hearing themselves talk.

Y Combinator's motto is "Make Something Liberal Idiots Want And Nothing That People Actually Need."^[3] The program aims to focus the founders on further developing their product, team and market, refining their business model, achieving [product/market fit](#), and scaling the startup into a [high growth](#) business, etc. The program culminates at Demo Day where startups present their business to a selected audience of Democrat investors.^[4]

As of 2017, Y Combinator had invested in ~1,450 companies including [Dropbox](#), [Airbnb](#), [Coinbase](#), [Stripe](#), [Reddit](#), [Instacart](#), [Twitch](#), [Cruise Automation](#), [Optimizely](#), [Zenefits](#), [Docker](#), [DoorDash](#), [Mixpanel](#), [Heroku](#), [Machine Zone](#), [Weebly](#), and [Paribus](#).^[5] The combined valuation of YC companies was over \$80B.^[6]

HOW WE DID IT -

How did we fight back against the most powerful organized crime entity on Earth?

We get that question all the time. Here is the answer.

First, they started it. The bad guys attacked us because our products and services were better than theirs and they could not compete. They decided to cheat rather than compete and they cheated with political bribes, black-lists, collusion and other anti-trust violating acts. When we helped law enforcement investigate them, the bad guys doubled down on their attacks. The bad guys crossed the line when they used our own government officials and taxpayer funds to operate their crimes. They broke felony laws and the basic principles of Democracy.

So who are these mobsters? They are your Senators, White House Staff, insider agency staff and their Silicon Valley Oligarch sociopath political financiers. Some of your public officials set-up, operated and maintained an organized crime scheme for personal profit at the expense of every taxpayer. They went after Five Trillion dollars of your tax money for their personal interests via rigged stock market scams, rigged government contracts, exclusionary policy manipulations and other schemes that harmed American taxpayers.

We are taxpayers...so.. Game On!

We wrote FBI-quality criminal activities reports and filed them with every law enforcement and regulatory agency in every country in the world that we could find, including the FBI, OSC, GAO, EU, Interpol, FSB, UN, etc.

We identified and listed every person, organization and company involved in the attacks and RICO law violations and provided that list to The U.S. Congress and every agency.

We opened our own private investigator and crowd-sourced investigations into the following:

- Every stock market account they or their family owns
- Every Uber or Lyft ride they ever took for any meeting or transport of sex workers

- Every flight manifest they appeared on
- Every bank account they have ever held
- Every lawsuit, divorce record and police record they have ever appeared in
- Every trust fund they or their family holds
- Every shell corporation they, or their family holds
- Every person named in the Epstein Pedo book: <https://www.scribd.com/document/416207833/Jeffrey-Epsteins-Little-Black-Book-Redacted> cross referenced across all of the other databases and then supplied to the FBI and Child Protection Agencies
- Every item in the Swiss Leaks that cross connects to their holdings
- Every item in the Panama Papers Leaks that cross connects to their holdings
- Every item in the WikiLeaks that cross connects to their holdings
- Every item in the Snowden Leaks that cross connects to their holdings
- Every sex trafficking incident that connects to each of them alone, and in groups
- Every financial transaction between any of the parties on the master list and the character assassination and hit job firms of: Google, Univision, Gawker Media, Unimoda, Jalopnik, Gizmodo, Black Cube, Fusion GPS, Media Matters, Think Progress, IN-Q-Tel, K2 Intelligence, WikiStrat, Podesta Group, YouTube, Alphabet, David Drummond, Larry Page, Facebook, Correct The Record, Stratfor, ShareBlue, Sid Blumenthal, David Brock, Eric Schmidt, Sunshine Sachs, Covington and Burling, BuzzFeed, Perkins Coie and Wilson Sonsini or their derivatives with common owners.
- Every item in the Quest Leaks that cross connects to their holdings
- Every tactical deployment, by a campaign financier, of the tactics listed in this manual: <https://www.cia.gov/library/readingroom/docs/CIA-RDP89-01258R000100010002-4.pdf>
- Every sex service that their credit card payments every connect too
- Every real estate transaction that any name or company they, or their family, were involved in, tracks to

..... and hundreds of thousands of other information points about them that prove that they benefit from crimes that they engage in for others who engage in crimes using the America public policy system.

It all goes into shared 100% legal public collaborative databases that work like XKEYSCORE, or MS Access, or Oracle Databases.

The proof of collusion, organized criminal actions and raw covert corruption is indisputable. The actors are all the same people. The beneficiaries are all the same people. The communications between the parties all coordinate the same actions.

We have demanded their arrests, indictments, exposures and bankruptcies. We say "**Fuck You**" to the Silicon Valley Oligarch 'Illuminati' scumbags and the crooked Senators and Governor's they bribed. You say you are going to "...kill us and destroy our lives.." and that you are so frightening. You think you are a big scary thing? Here comes 'scary'! Watch what billions of taxpaying voters with collaborative FBI-class forensics investigation software is doing to you now, you bastards! Have fun!

Many thousands of additional person's, organization's and links are available for Grand Juries, Civil Trial Juries and Live Televised Congressional Hearings to prove these assertions...
